## **From Disgust To Humanity Sexual Orientation And Constitutional Law:**

**From Disgust to Humanity** Martha C. Nussbaum, 2010-02-18 A distinguished professor of law and philosophy at the University of Chicago a prolific writer and award winning thinker Martha Nussbaum stands as one of our foremost authorities on law justice freedom morality and emotion In *From Disgust to Humanity* Nussbaum aims her considerable intellectual firepower at the bulwark of opposition to gay equality the politics of disgust Nussbaum argues that disgust has long been among the fundamental motivations of those who are fighting for legal discrimination against lesbian and gay citizens When confronted with same sex acts and relationships she writes they experience a deep aversion akin to that inspired by bodily wastes slimy insects and spoiled food and then cite that very reaction to justify a range of legal restrictions from sodomy laws to bans on same sex marriage Leon Kass former head of President Bush's President's Council on Bioethics even argues that this repugnance has an inherent wisdom steering us away from destructive choices Nussbaum believes that the politics of disgust must be confronted directly for it contradicts the basic principle of the equality of all citizens under the law It says that the mere fact that you happen to make me want to vomit is reason enough for me to treat you as a social pariah denying you some of your most basic entitlements as a citizen In its place she offers a politics of humanity based not merely on respect but something akin to love an uplifting imaginative engagement with others an active effort to see the world from their perspectives as fellow human beings Combining rigorous analysis of the leading constitutional cases with philosophical reflection about underlying concepts of privacy respect discrimination and liberty Nussbaum discusses issues ranging from non discrimination and same sex marriage to public sex Recent landmark decisions suggest that the views of state and federal courts are shifting toward a humanity centered vision and Nussbaum's powerful arguments will undoubtedly advance that cause Incisive rigorous and deeply humane *From Disgust to Humanity* is a stunning contribution to Oxford's distinguished Inalienable Rights series     [Law and Sexuality in Tennessee Williams's America](#) Jacqueline O'Connor, 2016-05-31 Gender and cultural studies readings of Tennessee Williams's work have provided diverse perspectives on his complex representations of sexuality whether of himself as an openly gay man or of his characters many of whom narrate or dramatize sexual attitudes or behavior that cross heteronormative boundaries of the mid century period Several of these studies have positioned Williams and his work amid the public tensions in American life over roughly four decades from 1940 1980 as notions of equality and freedom of choice challenged prejudice and repression in law and in society To date however neither Williams's homosexuality nor his persistent representations of sexual transgressions have been examined as legal matters that challenged the rule of law Directed by legal history and informed by multiple strands of Williams's studies criticism textual and cultural this book explores the interplay of select topics defined and debated in law's texts with those same topics in Williams's personal and imaginative texts By tracing the obscure and the transparent representations of homosexuality specifically and diverse sexualities more generally through selected stories and plays the book charts the

intersections between Williams's literature and the laws that governed the period. His imaginative works backlit by his personal documents and historical and legal records from the period underscore his preoccupation with depictions of diverse sexualities throughout his career. His use of legal language and its varied effects on his texts demonstrate his work's multiple and complex intersection with major twentieth-century concerns including significant legal and cultural dialogues about identity formation, intimacy, privacy, and difference. **Bristol Law Journal**, **Law's Virtues** Cathleen

Kaveny, 2012-09-20 Can the law promote moral values even in pluralistic societies such as the United States? Drawing upon important federal legislation such as the Americans with Disabilities Act, legal scholar and moral theologian Cathleen Kaveny argues that it can. In conversation with thinkers as diverse as Thomas Aquinas, Pope John Paul II, and Joseph Raz, she argues that the law rightly promotes the values of autonomy and solidarity. At the same time, she cautions that wise lawmakers will not enact mandates that are too far out of step with the lived moral values of the actual community. According to Kaveny, the law is best understood as a moral teacher encouraging people to act virtuously rather than a police officer requiring them to do so. In *Law's Virtues*, Kaveny expertly applies this theoretical framework to the controversial moral legal issues of abortion, genetics, and euthanasia. In addition, she proposes a moral analysis of the act of voting in dialogue with the election guides issued by the US bishops. Moving beyond the culture wars, this bold and provocative volume proposes a vision of the relationship of law and morality that is realistic without being relativistic and optimistic without being utopian. *Justice Through Diversity?* Michael J. Sweeney, 2016-08-30

Arguably the most transformative force in contemporary society is the commitment to justice through diversity. A prime example is the change justice through diversity has wrought on who enters, teaches, and administers the university. It has changed the content of what is taught and the mission statements that define the purpose of higher education. What is rarely defined, however, is justice and how it is related to diversity. If justice is equality, are all differences equal? Are all differences in race, gender, sexual orientation, national origin, ethnicity, religion, and culture equal? Should such differences be weighted differently and thus hierarchically? On what basis are those differences to be weighted and ranked to ensure equality? *Justice Through Diversity* brings together a Who's Who of contemporary scholars to explore these questions and others in an attempt to understand one of the central commitments in the modern world.

Banning 'Conversion Therapy' Ilias Trispiotis, Craig Purshouse, 2023-11-30 This book looks at why and how states should legally ban LGBTQ conversion therapy. Few states have legislated against the practice, with many currently considering its legal ban. *Banning Conversion Therapy* brings together leading academics, legal and medical practitioners, policymakers, and activists to illuminate the legislative and non-legislative steps that are required to protect individuals from the harms of conversion therapy in different contexts. The book considers how best to address this complex and interdisciplinary legal problem, which cuts across human rights law, criminal law, family law, and socio-legal studies, and which represents one of the key contemporary problems of LGBTQ equality and national and international human rights activism. **Political Emotions**

Thom Brooks, 2022-04-19 How might political emotions contribute to the creation of a decent public sphere Our societies are characterized by difference and contestation Cultivating political emotions can appear counterproductive to stability and peace But there is an increasing recognition that emotions can be harnessed to empower community cohesion and social justice and new ideas about how our political emotions can foster a decent public sphere and overcome intolerance are urgently needed In *Political Emotions Towards a Decent Public Sphere* leading theorists consider the limits and prospects of cultivating our emotions that support social justice All examine this topic from a diversity of disciplinary perspectives breaking new ground and yielding new understandings Issues explored include adaptive preferences capabilities civil religion compassion conscience dignity feminism imagination multicultural citizenship perfectionism political liberalism public sentiments sympathy and much more in a wide ranging exploration of key themes in contemporary political philosophy and Martha C Nussbaum's significant contributions to it in particular that should be of interest to anyone working in these broad areas

**Sexual Identities** Patrick Colm Hogan, 2018 Patrick Colm Hogan a leading theorist of cognitive cultural studies offers the first cognitive cultural study of identity in sex sexuality and gender With precise conceptual distinctions wide ranging citation of empirical research and careful explication of diverse literary works Hogan defends a systematic skepticism about gender differences and a view of sexuality as evolved but also contingent and variable

*Markets without Limits* Jason F. Brennan, Peter Jaworski, 2015-08-20 May you sell your vote May you sell your kidney May gay men pay surrogates to bear them children May spouses pay each other to watch the kids do the dishes or have sex Should we allow the rich to genetically engineer gifted beautiful children Should we allow betting markets on terrorist attacks and natural disasters Most people shudder at the thought To put some goods and services for sale offends human dignity If everything is commodified then nothing is sacred The market corrodes our character Or so most people say In *Markets without Limits* Jason Brennan and Peter Jaworski give markets a fair hearing The market does not introduce wrongness where there was not any previously Thus the authors claim the question of what rightfully may be bought and sold has a simple answer if you may do it for free you may do it for money Contrary to the conservative consensus they claim there are no inherent limits to what can be bought and sold but only restrictions on how we buy and sell

**Against Marriage** Clare Chambers, 2017 *Against Marriage* argues that marriage violates both equality and liberty and should not be recognized by the state Clare Chambers shows how feminist and liberal principles require creation of a marriage free state one in which private marriages whether religious or secular would have no legal status Part One makes the case against marriage Chambers investigates the critique of marriage that has developed within feminist and liberal theory Feminists have long argued that state recognised marriage is a violation of equality Chambers endorses the feminist view and argues in contrast to recent egalitarian pro marriage movements that same sex marriage is not enough to make marriage equal The egalitarian case against marriage is the most fundamental argument of *Against Marriage* But Chambers also argues that state recognised marriage violates liberty

including the political liberal version of liberty that is based on neutrality between conceptions of the good Part Two sets out the case for the marriage free state Chambers criticizes recent arguments that traditional marriage should be replaced with either a reformed version of marriage such as civil partnership or a purely contractual model of relationship regulation She then sets out a new model for the legal regulation of personal relationships Instead of regulating by status the state should regulate relationships according to the practices they involve Instead of regulating relationships holistically assuming that relationship practices are bundled together in one significant relationship the marriage free state regulates practices on a piecemeal basis The marriage free state thus employs piecemeal practice based regulation It may regulate private marriages including religious marriages so as to protect equality But it takes no interest in defining or protecting the meaning of marriage

*Social Robots* Marco Nørskov, 2017-07-05 Social robotics is a cutting edge research area gathering researchers and stakeholders from various disciplines and organizations The transformational potential that these machines in the form of for example caregiving entertainment or partner robots pose to our societies and to us as individuals seems to be limited by our technical limitations and phantasy alone This collection contributes to the field of social robotics by exploring its boundaries from a philosophically informed standpoint It constructively outlines central potentials and challenges and thereby also provides a stable fundament for further research of empirical qualitative or methodological nature
