Making the Move to RDA Chamyia Pompey Kincy,2014-01-13 Making the Move to RDA A Self Study Primer for Catalogers is aimed at catalogers working in the MARC environment who currently create records using AACR2 and need to transition to using the new standard Resource Description and Access RDA Since both RDA s structure and content differ from AACR2 in many respects this primer details the development and rationale for RDA as well as its intended goals principles and objectives It then explains RDA s theoretical underpinnings collectively known as the FRBR Family of Models Framing the text along these lines provides readers the context for understanding the similarities and differences between AACR2 and RDA both in terms of content and structure With this foundation in place the book takes the reader on a survey of RDA elements used to describe bibliographic and authority records and demonstrates how the MARC code has been expanded to accommodate new elements Finally it leads the reader field by field through MARC bibliographic records for book and non book resources as well as through authority records for works expressions persons families and corporate bodies describing the similarities and differences between AACR2 and RDA for each field Examples are provided throughout the text to help the reader visualize the concepts presented **Recent Advances in Biomechanics** Redha Taiar,2020-09-09 This book presents an understanding of

biomechanics through chapters analyzing human behavior in sport from a medical perspective. It offers a comprehensive range of principles, methods, techniques, and tools to provide the reader with clear knowledge of the impact of biomechanical processes. The text considers physical, mechanical, and biomechanical aspects and is illustrated by different key application domains such as sports performance, sports science, ergonomics, science of gait and human posture, and musculoskeletal disorders in medicine. The first three chapters provide useful tools for measuring, generating, simulating, and processing in biomechanics with the clinical and experimental applications in medicine. The last section describes the application of biomechanics in sport performance. Engineers, researchers, and students from biomedical engineering and health sciences, as well as industrial professionals, can profit from this compendium of knowledge on biomechanics applied to the human body.

Mild Traumatic Brain Injury Shane S. Bush, Dominic Carone, 2012-08-22 This authoritative volume is the first book specifically devoted to symptom validity assessment with individuals with a known or suspected history of mild traumatic brain injury (MTBI). It brings together leading experts in MTBI symptom validity assessment and malingering to provide a thorough and practical guide to the challenging task of assessing the validity of patient presentations after an MTBI. The book describes techniques that can drastically alter case conceptualization, treatment, and equitable allocation of resources. In addition to covering the most important symptom validity assessment methods, this timely volume provides guidance to clinicians on professional and research issues and information on symptom validity testing in varied populations. The book covers MTBI assessment in such specific settings and populations as clinical, forensic, sports, children, gerontological, and military. It also addresses professional issues such as providing feedback to patients about symptom validity, ethical issues, and diagnostic schemas. Mild Traumatic Brain Injury will provide neuropsychologists, referring health care providers, courts, disability insurance companies, the military, and athletic teams/leagues with the in-depth current information that is critical for the accurate and ethical evaluation of MTBI.

Key Features Provides in-depth expert coverage of one of the most critical topics for clinical neuropsychologists. Includes contributions from the leading authorities on both MTBI, post-concussive syndrome, and malingering symptom validity. Covers assessment in such contexts as civil forensics, sports, military veterans, and gerontological settings.

Zoltan's Vision, Perception, and Cognition Tatiana Kaminsky, Janet Powell, 2024-06-01 The go-to guide for nearly 50 years for occupational therapists working with adults with visual perceptual and cognitive deficits after brain injury is back for a Fifth Edition. Zoltan's Vision, Perception, and Cognition: Evaluation and Treatment of the Adult With Acquired Brain Injury, Fifth Edition maintains the core foundation laid in previous editions while drawing upon Drs.
