William Bennett Turner, 2019-09-01 Has the First Amendment become a tool to promote the conservative agenda On June 27 2018 Justice Elena Kagan dissenting from the Supreme Court's decision in a free speech case accused the Roberts Court majority of weaponizing the First Amendment of turning the First Amendment into a sword and using it to serve a conservative political agenda The U.S. Supreme Court under Chief Justice John G. Roberts Jr. has decided more free speech cases than any previous court in history The decisions have mostly favored free speech claims But the court increasingly has found First Amendment protection not for dissidents and minorities but for businesses and conservative religious interests The court has taken free speech principles developed decades ago to shield and empower oppressed minorities and applied them to shield and empower corporations and the religious right The book critically examines how the Roberts Court has decided the key cases changed the rules on free speech engineered outcomes and become the willing vehicle for advancing the conservative agenda Justice Kagan was right *Figures of Speech* William Turner, 2011-03 Recounting controversial First Amendment cases from the Red Scare era to Citizens United William Bennett Turner a Berkeley law professor who has argued three cases before the Supreme Court shows how we've arrived at our contemporary understanding of free speech

firearm safety classes thematic analysis of audio visual material and interviews with NRA executives and members On Target sheds light on the ways in which the NRA tells stories to build and mobilize a politically motivated network of gun owners
