Muck, Frances S. Adeney, 2009-04-01

The current religious climate poses unique challenges to those engaged in mission. Thus, the authors of this book propose a new yet very biblical model for interacting with people of other faiths. They term this model giftive mission, as it is based on the metaphor of free gift. We bear the greatest gift possible: the gospel message. Adopting this perspective not only has the potential for greater missionary success but also enables us to more closely imitate God's gracious activity in the world. The core of the book explores eleven practices that characterize giftive mission. Each practice is illustrated through the story of a figure from mission history who embodied that practice. Further discussion shows how to incorporate these practices in specific mission settings. *Against the Tide* W. Jay Moon, Craig Ott, 2019-09-01

With increased globalization and modernization reaching into the furthest corners of the earth, also comes the influence of secularization. These three tides of influence impact traditional religious beliefs, practices, and institutions in significant ways. Some modernizing societies see religion on the decline, while others find it thriving in surprising ways. This collection of essays presents the opportunities and the challenges of secularization for the mission of the Church, with hopeful signs and reassurance that God is still at work in a secularizing world. Readers will find both analysis and guidance that will assist the Church in an informed missional engagement with secularization in a variety of contexts, starting with North America, then Europe, Asia, and Africa. Each local church and mission organization must discern the appropriate missional response for evangelism, discipleship, congregational life, and social involvement. To be *Against the Tide* means regaining your voice as a church on mission, informed by your context and inspired by the responses of others in theirs.

**Between the Signs Workbook** Anna Mindess, 2004-11-03 This helpful workbook functions as a companion and supplement to Anna Mindess's earlier book *Reading Between the Signs: A Cultural Guide for Sign Language Interpreters*, a recognized classic text for sign language interpreters and ASL students. It is arranged to correspond with the theory presented in the book and expands its focus to the relativity of politeness and the distinction between direct and indirect communication styles, both of which are important elements in comparing Deaf and mainstream cultures. Hands-on exercises allow students to better comprehend the sometimes puzzling differences of culturally appropriate behavior. The book also helps students explore their own culture as well as the American Deaf culture in ways that reveal the differences between the two. Role-play discussion topics and critical incidents increase first-hand understanding of the relationship between the Deaf and Hearing communities.

**Understanding Everyday Incivility** Shelley D. Lane, 2017-08-28 *Understanding Everyday Incivility* delves into the day-to-day annoying behaviors that color our interactions with other people, such as the use of crude language in public, family members who claim that they're just teasing, and we're too sensitive; coworkers who constantly interrupt us; and inflammatory remarks posted on social media sites. Shelley D. Lane explores what is considered uncivil behavior, why we label some acts as crude or selfish while others are deemed polite and proper, and how these labels often change from one context to the next. She highlights the power dynamics at play in our interactions and explains how rude behavior can sometimes be beneficial and polite behavior can be detrimental. Rather than a simplistic manual of manners, Lane provides the tools to understand everyday incivility and strategies for responding effectively and appropriately.

**International Development and Public Religion** Haemin Lee, 2016-02-23 Over the past few decades, Christianity in the global South has grown exponentially in size and influence, with many centers emerging around the globe, such as Brazil, South Korea, and Nigeria. One remarkable phenomenon in this process is the rise of faith-based humanitarian international and nongovernmental organizations (NGOs). While traveling to about seventy different countries in Africa, Asia, and Latin America, Haemin Lee has witnessed the surge of faith-based NGOs all around the world. This book explores the role that religion plays in encountering secular society from various angles by drawing upon discourses in mission studies, sociology of religion, and anthropology of development. Specifically, it probes the development practices of two major Korean organizations, Korea Food for the Hungry International and Good Neighbors. This book investigates the following hypothesis: humanitarian care through international development NGOs appears to be the growing interest of Korean Christian mission, and this shows a new direction of Korean Christianity as public religion. However, on closer examination, a more complex reality emerges in which diverse theological and developmental ideals motivate the Korean NGOs' humanitarian efforts.
