Bogdanovich's film adaptation of Michael Frayn's *Noises Off* and Akira Kurosawa's *Ran* highlighting the multiple interfaces between media. Movie History: A Survey Douglas Gomery, Clara Pafort-Overduin, 2011-02-28 How can we understand the history of film? Historical facts don't answer the basic questions of film history. History, as this fascinating book shows, is more than the simple accumulation of film titles, facts and figures. This is a survey of over 100 years of cinema history from its beginnings in 1895 to its current state in the 21st century. An accessible introductory text, *Movie History: A Survey* looks at not only the major films, filmmakers and cinema institutions throughout the years, but also extends to the production, distribution, exhibition, technology and reception of films. The textbook is divided chronologically into four sections using the timeline of technological changes. Written by two highly respected film scholars and experienced teachers, *Movie History* is the ideal textbook for students studying film history.

Being Present: Mobile Cinema in Kham Tibetan Areas Jianbin Guo, Jingjing Chen, 2024-07-31 This book presents the restoration of rural mobile cinema network in the Great Triangle region at the conjunction of Yunnan, Sichuan and Tibet in China in the new century, which has added a new chapter to the long standing complex relationship between cinema and social change. Based on five years of multi-sited fieldwork, abundant interviews and oral history narratives, this work shows the entanglement of the State, the projectionists and local film viewers in the historical and social context in a holistic analytic framework. By using the key concept of being present to examine the tangling relations between the actors in mobile cinema as social practice, the work argues that mobile cinema and contemporary Chinese society are mutually constructed in both textual and practical level.

Genre and Television Jason Mittell, 2013-05-13 *Genre and Television* proposes a new understanding of television genres as cultural categories, offering a set of in-depth historical and critical examinations to explore five key aspects of television: genre history, industry, audience, text and genre mixing. Drawing on well-known television programs from *Dragnet* to *The Simpsons*, this book provides a new model of genre historiography and illustrates how genres are at work within nearly every facet of television, from policy decisions to production techniques to audience practices. Ultimately, the book argues that

through analyzing how television genre operates as a cultural practice we can better comprehend how television actively shapes our social world

Television Aesthetics and Style Steven Peacock, Jason Jacobs, 2013-07-04 Although Film Studies has successfully returned attention to matters of style and interpretation its sibling discipline has left the territory uncharted until now The question of how television operates on a stylistic level has been critically underexplored despite being fundamental to our viewing experience This significant new work redresses a vital gap in Television Studies by engaging with the stylistic dynamics of TV exploring the aesthetic properties and values of both the medium and particular types of output specific programmes and raising important questions about the way we judge television as both cultural artifact and art form Television Aesthetics and Style provides a unique and vital intervention in the field raising key questions about television's artistic properties and possibilities Through a series of case studies by internationally renowned scholars the collection takes a radical step forward in understanding TV's stylistic achievements
