**Filming Shakespeare's Plays** Anthony Davies, 1990-06-29 Shakespeare's plays provide wonderfully challenging material for the film maker. While acknowledging that dramatic experiences for theatre and cinema audiences are significantly different, this book reveals some of the special qualities of cinema's dramatic language in the film adaptations of Shakespeare's plays by four directors: Laurence Olivier, Orson Welles, Peter Brook, and Akira Kurosawa, each of whom has a distinctly different approach to a film representation. Davies begins his study with a comparison of theatrical and cinematic space, showing that the dramatic resources of cinema are essentially spatial. The central chapters focus on Laurence Olivier's *Henry V*, *Hamlet*, and *Richard III*; Orson Welles' *Macbeth*, *Othello*, and *Chimes at Midnight*; Peter Brook's *King Lear*; and Akira Kurosawa's *Throne of Blood*. Davies discusses the dramatic problems posed by the source plays for these films for the film maker and he examines how these films influenced later theatrical stagings. He concludes with an examination of the demands that distinguish the work of the Shakespearean stage actor from that of his counterpart in film.

**Shakespeare's History Plays** Robert Watt, 2014-06-11 Shakespeare's history plays are central to his dramatic achievement. In recent years they have become more widely studied than ever, stimulating intensely contested interpretations due to their relevance to central contemporary issues such as English national identities and gender roles. Interpretations of the history plays have been transformed since the 1980s by new theoretically informed critical approaches. Movements such as New Historicism and cultural materialism, as well as psychoanalytical and post colonial approaches, have swept away the humanist consensus of the mid twentieth century with its largely conservative view of the plays. The last decade has seen an emergence of feminist and gender based readings of plays which were once thought overwhelmingly masculine in their concerns. This book provides an up to date critical anthology representing the best work from each of the modern theoretical perspectives. The introduction outlines the changing debate in an area which is now one of the liveliest in Shakespearean criticism.
