Humanity Deacon Dye,2017-12-19 Excerpt from *Humanity Its Fountain and Stream* WE give in the following pages the

results of a quarter of a century's research and investigation condensed it is true but yet exhibiting such a comprehensive view of the subject as we trust cannot fail of being interesting instructive and popular Not being content with gabbling along the banks of the expanded stream we have everywhere endeavored to explore up to the fountain head From the facts we have gathered our conclusions differ in many respects from those of others who have examined and written on the same subject But nevertheless we fearlessly submit them with candor and confidence to the judgment of the present enlightened and Inquiring age not forgetting in the mean time that others high in the confidence of their fellow men have arrived at different conclusions and entertain different views The facts and arguments used to demonstrate the true cause of difference between the apparent distinct families of mankind being founded on facts must we think stand the test of the most rigid investigation If we have discovered the key that opens the casket containing the secret of the different complexions among men then the Portraits produced at great expense in the body of the work when stripped of their different complexions must ever remain an unanswerable argument in favor of the brotherhood of man We might have produced portraits of men of the lowest grade of the different types of the human family and contrasted them with the highest order of the same type and the difference would be actually as great if not greater than between a highly cultivated African leaving out the complexion and hair and an Englishman About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Micromegas Voltaire, 2024-05-09 Voltaire's Science Fiction novella *Micromegas* 1752 literally Smallbig in reference to its title character recounts a cosmic voyage and sharp satire of human pretensions The narrative follows two gargantuan visitors a Sirian and a Saturnian both many kilometers tall who after scientific and philosophical exchanges on their home worlds descend to Earth and find humans infinitesimally small They first doubt that these creatures could be intelligent then use ingenious devices like a hearing tube of special construction to converse with them As the giants listen to human learning including Aristotle Locke and especially the Augustinian claim that the universe was made solely for man they react with divine laughter at such anthropocentrism The tale ends on a whimsical note the Sirian promises to explain the point of everything in a book for the Paris Academy only for the secretary to discover that the volume consists of blank pages This framing great cosmic scale subverting human certitude and comic device underscores Voltaire's critique of dogma and human self importance This modern Critical Reader's Edition includes an illuminating afterword tracing Voltaire's intellectual relationships with Enlightenment thinkers and philosophers including Locke Diderot Rousseau and Newton containing unique research into his influences and economic attachments a comprehensive timeline of

his life and works a glossary of Enlightenment terminology and a detailed index of all of Voltaire's writings This unique professional translation renders Voltaire's sharp satirical prose into modern language to preserve the original clarity and movement of the text Combined with the scholarly amplifying material this edition is a groundbreaking exploration of Voltaire's classic works and his enduring artistic and philosophical influence and influence on modern Protestant Atheistic Theology *Micromégas* was written in the 1750s and first appeared in print in 1752 attributed to Paris Michel Lambert although Voltaire probably oversaw the 1752 edition widely distributed in the Kingdom of France g It was written during the High Enlightenment a period in which Voltaire was deeply involved in promoting science and criticizing religious fanaticism The story's interplanetary setting and the traveler outsider reflecting on Earth were not unique to Voltaire Montesquieu's *Persian Letters* is a notable precedent but here serve to relativize human society and religion At the time of its publication in 1752 the surviving authoritative English edition appeared in London in 1753 interest in Newtonian science and the plurality of worlds was high and Voltaire tapped into this enthusiasm to convey his philosophical messages The context of mid 18th century France and Voltaire's own struggles with censorship meant that the work was circulated with some discretion but it resonated with readers who were open to questioning traditional beliefs

The Decline of the West? Manfred P. Fleischer, 1970 Ideas Have Consequences Richard M. Weaver, 1984-09-15 In what has become a classic work Richard M Weaver unsparingly diagnoses the ills of our age and offers a realistic remedy He asserts that the world is intelligible and that man is free The catastrophes of our age are the product not of necessity but of unintelligent choice A cure he submits is possible It lies in the right use of man's reason in the renewed acceptance of an absolute reality and in the recognition that ideas like actions have consequences *The Stillborn God* Mark Lilla, 2008 A study of political theology examines the relationship between religion and politics throughout Western history as well as the influence of political theology on the evolution of Western thought and the sometimes dangerous repercussions of connecting politics to religion Reprint 20 000 first printing
