literature of mystical and mythical quests Blending careful research with evocative commentaries on the poet's work Seamus Heaney's *Gifts* explains his ideas about the artist's gift the necessity of gift exchange acts and the moral responsibility to share one's talents for the benefit of others *Audun and the Polar Bear* William Ian Miller, 2008 Audun's story tells of an Icelandic farmhand who buys a polar bear in Greenland and gives it to the Danish king It is a subtle tale of complex social action worthy of the fine anthropological writing on gift exchange its treatment of face to face interaction a match for Erving Goffman

Holley,2025-07-25 We sometimes hear about events that seem too strange to fit with our usual ways of thinking about what can happen Someone perceives an appearance of a loved one in danger at the same moment the person is undergoing a crisis at a distant location A patient who has long ago lost all cognitive functioning suddenly begins to interact with others for a short time before dying Someone dreams of barely avoiding an accident and the near miss occurs the next day Some reports of strange occurrences can be explained away but repeatedly hearing about such things from credible sources can lead us to wonder whether the world is more mysterious than the predictable order we have taken for granted This book considers what it would mean for Christians to accept that the natural order has hidden depths that can produce strange phenomena How might it affect our understanding of such things as divine guidance or petitionary prayer or extraordinary healings How would we think about God's action in the world if our understanding of the created order allowed more room for mystery **Gifts in the Age of Empire** Sinem Arcak Casale,2023-07-28 Explores the Safavid and Ottoman empires through the lens of gifts When the Safavid dynasty founded in 1501 built a state that championed Iranian identity and Twelver Shi'ism it prompted the more established Ottoman Empire to align itself definitively with Sunni legalism The political religious and military conflicts that arose have since been widely studied but little attention has been paid to their diplomatic relationship Sinem Arcak Casale here sets out to explore these two major Muslim empires through a surprising lens gifts Countless treasures such as intricate carpets gilded silver cups and ivory tusk knives flowed from the Safavid to the Ottoman Empire throughout the sixteenth century While only a handful now survive records of these gifts exist in court chronicles treasury records poems epistolary documents ambassadorial reports and travel narratives Tracing this elaborate archive Casale treats gifts as representative of the complicated Ottoman Safavid coexistence demonstrating how their rivalry was shaped as much by culture and aesthetics as it was by religious or military conflict *Gifts in the Age of Empire* explores how gifts were no mere accessories to diplomacy but functioned as a mechanism of competitive interaction between these early modern Muslim courts *George's Final Gifts* P S Adair,2022-02-22 What will Mary do without George He was the extrovert He made Mary feel connected and loved Ever since George died Mary has felt lost His absence is painful But is he completely gone His outgoing caring personality keeps showing up even long after his funeral *George's Final Gifts* is a cozy tale of love that cannot be quenched even by death Read this story today but keep a box of tissues nearby This is a short read

Encountering Mystery Dale C. Allison, 2022-07-26 Despite widespread skepticism on the matter a significant number of people today have stories of religious experience moments of inexplicable terror or rapturous joy visions near death experiences of the afterlife encounters with angels heavenly voices and premonitions How should rationally minded people respond What would your reaction be if someone told you that one night while sitting alone she saw through the window a brilliant light descend from the sky until it was so large that it filled the room and that it radiated a feeling of pure love And what would you say if a friend confided that one night he woke up and could not move felt he was being suffocated and sensed an evil spirit in the room By default in the secular age we are skeptical about anything mysterious or supernatural More likely than not most people would respond to the stories above with embarrassment and concern about the person s grasp of reality or they would attempt to explain them away through rational or scientific means But the truth is that religious experiences like these are not as uncommon as they seem although talking about such experiences often is This is the case even in a faith tradition such as Christianity despite the Bible s numerous accounts of miraculous and mysterious happenings In *Encountering Mystery* noted biblical scholar Dale Allison makes the argument that stories of religious experience are meaningful and not to be marginalized and that we have a moral prerogative to lovingly engage with such stories regardless of whether we have had similar experiences Through a close look at phenomena such as moments of inexplicable terror or rapturous joy visions near death experiences of the afterlife encounters with angels heavenly voices and premonitions Allison shows how ordinary practices of faith need not be at odds with individual religious experiences Above all he enjoins us to be honest about the persistence of religious experience in a secular age and to make space for those who encounter mystery in their lives
