Confederate Generals in the Trans-Mississippi, Vol 1 Lawrence L. Hewitt, Arthur W. Bergeron, Thomas E.

Schott, 2013-04-30 Until relatively recently conventional wisdom held that the Trans Mississippi Theater was a backwater of the American Civil War Scholarship in recent decades has corrected this oversight and a growing number of historians agree that the events west of the Mississippi River proved integral to the outcome of the war Nevertheless generals in the Trans Mississippi have received little attention compared to their eastern counterparts and many remain mere footnotes to Civil War history This welcome volume features cutting edge analyses of eight Southern generals in this most neglected theater Thomas Hindman Theophilus Holmes Edmund Kirby Smith Mosby Monroe Parsons John Marmaduke Thomas James Churchill Thomas Green and Joseph Orville Shelby providing an enlightening new perspective on the Confederate high command Although the Trans Mississippi has long been considered a dumping ground for failed generals from other regions the essays presented here demolish that myth showing instead that with a few notable exceptions Confederate commanders west of the Mississippi were homegrown not imported and compared well with their more celebrated peers elsewhere With its virtually nonexistent infrastructure wildly unpredictable weather and few opportunities for scavenging the Trans Mississippi proved a challenge for commanders on both sides of the conflict As the contributors to this volume demonstrate only the most creative minds could operate successfully in such an unforgiving environment While some of these generals have been the subjects of larger studies others including Generals Holmes Parsons and Churchill receive their first serious scholarly attention in these pages Clearly demonstrating the independence of the Trans Mississippi and the nuances of the military struggle there while placing both the generals and the theater in the wider scope of the war these eight essays offer valuable new insight into Confederate military leadership and the ever vexing questions of how and why the South lost this most defining of American conflicts

Confederate Generals in the Trans-Mississippi, Vol 3 Thomas E. Schott, Lawrence Lee Hewitt, 2024-01-12

Far removed from the main centers of commerce and population and thus remote from the priorities of Confederate political leaders in the East the Trans Mississippi Theater experienced a different sort of war during America's great fratricidal conflict of 1861-1865 Not only was its distance from Richmond a distinguishing factor but it was also a theater where the Union army and navy gained a foothold far sooner than elsewhere in the South first in Missouri and then in Louisiana and the Mississippi River Valley Confederate generals were tasked with ousting not merely halting an enemy closing from two directions guerrilla warfare was more often the norm than the exception and the shortage of men and materiel was a constant problem The third volume of Confederate Generals in the Trans Mississippi offers eight new essays on generals engaged in the effort to secure a region whose unique challenges would have daunted the best of commanders Included here are Joseph G Dawson III on Earl Van Dorn's efforts to bring order to the chaos of the Trans Mississippi District and how his experiences affected his battlefield performance in 1862 Jeffery M Prushankin on the administrative nightmares facing

Edmund Kirby Smith when he assumed responsibility for the region in 1863 and Richard Holloway on the formidable army commander Richard Taylor and the all but forgotten effort to move Confederate troops east of the Mississippi in 1864 Essays on Hamilton Prioleau Bee James Fleming Fagan William Robertson Boggs Tom Green and Austin Wharton round out the collection Like its predecessors this new volume brings splendid research and a wealth of new insight and analysis to bear on an aspect of the Civil War whose historical significance has too long been overshadowed by the events farther east

Smith, Jr., 2017-04-26 A Scottish immigrant to Illinois Joseph Brown made his pre Civil War fortune as a miller and steamboat captain who dabbled in riverboat design and the politics of small towns When war erupted he used his connections including a friendship with Abraham Lincoln to obtain contracts to build three ironclad gunboats for the U S War Department the Chillicothe Indianola and Tuscumbia Often described as failures these vessels were active in some of the most ferocious river fighting of the 1863 Vicksburg campaign After the war Captain Joe became a railroad executive and was elected mayor of St Louis This book covers his life and career as well as the construction and operational histories of his controversial trio of warships **Journal of the Civil War Era** William A. Peterson, 2023-08-18 The largest battle fought in Kentucky during the American Civil War occurred at a small crossroads town named Perryville As Gen Braxton Bragg's Confederate Heartland Offensive sputtered through Kentucky Maj Gen Don Carlos Buell's reformed Army of the Ohio pursued the Army of the Mississippi and clashed with its rearguard just outside Perryville Believing that he faced only a part of Buell's army Bragg ordered an assault on the Union left flank which resulted in Confederate victory However that evening Bragg determined the Army of the Ohio outnumbered him three to one and quickly decided to retreat Outmanned outmaneuvered and lacking supplies and reinforcements Bragg retreated through the

Cumberland Gap into East Tennessee and Kentucky remained in Union control for the rest of the Civil War. Decisions at Perryville explores the critical decisions made by Confederate and Union commanders during the battle and how these decisions shaped its outcome. Rather than offering a history of the battle, Larry Peterson hones in on a sequence of critical decisions made by commanders on both sides of the contest to provide a blueprint of the Battle of Perryville at its tactical core. Identifying and exploring the critical decisions in this way allows students of the battle to progress from a knowledge of what happened to a mature grasp of why events happened. Complete with maps and a driving tour, Decisions at Perryville is an indispensable primer and readers looking for a concise introduction to the battle can tour this sacred ground or read about it at their leisure with key insights into the campaign and a deeper understanding of the Civil War itself. Decisions at Perryville is the eleventh in a series of books that will explore the critical decisions of major campaigns and battles of the Civil War.

American Civil War, 1861 To 1865, Volume I - The Confederacy André Geraque Kiffer, 2024-12-30 The American Civil War which took place between April 12 1861 and May 26 1865 took place in the United States between the Union the North and the Confederacy the South which was formed in 1861 by states that had seceded from the former. At the beginning of the war both sides believed that a major battle would decide the conflict. The Confederacy failed in developing a general strategy for the entire war. A more aggressive strategy would require a concentration of offensive force. In the development of the war simulation I will use the board game For the People by GMT Games. In this historical simulation the real intention of the Confederate strategic plan will be to pursue a strategy on interior lines similar to the Prussian by Frederick in the wars of the 18th century.

American Civil War, 1861 To 1865, Volume II - The Union André Geraque Kiffer, 2025-01-16 The American Civil War fought between April 12 1861 and May 26 1865 in the United States between the Union the North and the Confederacy the South which was formed in 1861 by states that had seceded from the Confederacy. The Anaconda Plan was a strategy devised by the Union to suppress the Confederacy at the beginning of the American Civil War. Proposed by Union General in Chief Winfield Scott the plan emphasized that first all ports in the seceding states should be strictly blockaded. Second a strong column of about 80 000 men should use the Mississippi River as a highway to advance through the Confederacy. In developing the war simulation I will use the board game For the People by GMT Games. I will test ideas presented in the book A Critical History of the Late American War by Asa Mahan published in 1877.
