Finances municipales

Catherine D. Farvacque-Vitkovic, Mihaly Kopanyi, 2016-04-25. De Detroit à Lahore, la plupart des villes du monde sont confrontées à des difficultés financières alors même qu'elles doivent assumer des responsabilités de plus en plus complexes. Le présent ouvrage "Finances municipales" manuel sur l'usage des collectivités locales prend parti pour le parti des maires et des gestionnaires municipaux. Rares sont les publications consacrées à cette question qui ciblent de façon aussi directe et pragmatique les responsables de l'action publique et le personnel financier local. Le contenu et les principaux messages de ce manuel ont donc une manière de répondre aux questions et préoccupations auxquelles les villes et les municipalités sont quotidiennement confrontées dans le cadre de la gestion de leurs finances. Le manuel "Finances municipales" prend position. Les auteurs de ses huit chapitres examinent les enseignements observés dans divers domaines : relations entre administrations, finances, métropoles, gestion financière, gestion des recettes, dépenses et du patrimoine public, financements extérieurs et valuation de la performance des finances municipales. L'ouvrage traite de sujets allant de la décentralisation à la transparence et à l'obligation de rendre compte. Il explore aussi des domaines moins balisés tels que la gestion du patrimoine, la solvabilité et la réponse aux crises financières. Le manuel "Finances municipales" appelle à l'action. En plus de partager avec le lecteur un savoir très pointu sur de nombreux sujets techniques, il guide les autorités locales dans le labyrinthe des instruments existants. L'outil d'auto-valuation des finances municipales MFSA décrit au chapitre 8 devrait tout particulièrement aider les municipalités à évaluer leur situation et à progresser sur la voie des meilleures formes.

Local Governance and Development in Africa and the Middle East

Khadija Darmame, Eric Ross, 2024-07-25. This edited volume surveys how current local governance policies and development strategies across Africa and the Middle East are advancing Sustainable Development Goals (SDGs). Morocco's recent experience with local development strategies serves as a starting point for the discussion. Over the past decade, Morocco has undertaken a variety of initiatives aimed at reducing poverty and social inequalities and providing essential services to

marginalized communities These initiatives provide great opportunities to reshape the spatial organization of regions and to address chronic local issues of infrastructure and investment Local governance is the most direct way of providing basic services to populations helping to alleviate socio spatial inequalities Also it is and will continue to be the best way to engage people and local governments in economic social and human development agendas However placing local governance at the heart of development strategies requires going well beyond participatory approaches to policy making Local communities and their governments need to be empowered As responses to the Covid19 epidemic have laid bare new and more efficient modes of territorial governance are needed at local and regional levels if current global scale challenges are to be met While development and governance strategies like Morocco s are framed by global agreements and standards there is a need to understand them at the regional scale Are there discernible patterns in how African and Middle Eastern countries design and implement them This volume assembles case studies from across the region allowing for understandings that transcend the usual spatial dichotomies between North and Sub Saharan Africa between Africa and the Middle East and between the Anglophone and Francophone spheres The volume builds upon an international conference on the topic held at Al Akhawayn University in Ifrane Morocco Morocco in February of 2022 The volume is aimed at a readership of researchers and development practitioners and will be of most direct benefit to advanced undergraduate and graduate level students
