Multinational Maids Anju Mary Paul, 2017-09-28 *Multinational Maids* offers an in depth investigation into the international migrations of Filipino and Indonesian migrant domestic workers. The author taps on her rigorous study of more than 1 200 subjects migration trajectories to reveal how these migrants work in a series of overseas countries to improve their lives and in some cases seek permanent residence in another country. Challenging the portrayal of Asian migrant domestic workers as victims of globalization, *Multinational Maids* reveals migrants agency and strategic thinking under conditions of constraint. At the market level, the establishment of guestworker programmes for migrant domestic workers in multiple countries has created a global labor market. A transnational diaspora shapes migrants evolving destination imaginaries while manpower recruitment and placement agencies create transnational mobility structures. In addition, differing destination hierarchies and degrees of access to resources lead to the adoption of divergent stepwise trajectories. Written in an accessible manner, *Multinational Maids* appeals to migration scholars, policymakers, activists, and students.

Philippine Labor, 1994 **Recuperating The Global Migration of Nurses** Cleovi C. Mosuela, 2020-05-14 Sitting at the nexus of labor migration and health care work, this book examines the dynamic relationship between nurses' cross border movement and efforts to regulate their migration. Grounded in multi sited qualitative research, this volume analyzes the changing social dimensions and transnational scale of global nursing, focusing particularly on the recruitment from the Philippines to Germany. The flow of nursing skills from resource poor countries to well off ones is not only producing a global care crisis but also serves as a prime example of the international race for talent and skill. As it takes a critical eye to the emerging field of migration governance or management as the preferred policy response to competing discourses of global care crises and the global competition for skilled care work, this book highlights not only the shifting web of actors, discourses, and practices in care work migration management but also and more importantly how various forms of care figure in the global migration of nurses.

Laquian,2008 Immigrant Japan Gracia Liu-Farrer,2020-04-15 Immigrant Japan Sounds like a contradiction but as Gracia Liu Farrer shows millions of immigrants make their lives in Japan dealing with the tensions between belonging and not belonging in this ethno nationalist country Why do people want to come to Japan Where do immigrants with various resources and demographic profiles fit in the economic landscape How do immigrants narrate belonging in an environment where they are other at a time when mobility is increasingly easy and belonging increasingly complex Gracia Liu Farrer illuminates the lives of these immigrants by bringing in sociological geographical and psychological theories guiding the reader through life trajectories of migrants of diverse backgrounds while also going so far as to suggest that Japan is already an immigrant country Stumbling Through Paradise Eleanor Guerrero-Campbell,2016-03-28 Stumbling Through Paradise A Feast of Mercy for Manuel del Mundo follows the journey of one Filipino family who leave everything behind in order to build a new life for themselves in Canada and their struggle to find their way Blocked from finding work in their respective fields despite their qualifications and skills they must decide between pride and practicality survival and surrender The choices and concessions they make will impact their lives and the lives of their children in countless ways And in the end it will be up to the second and third generations to offer redemption and help create the paradise their parents had hoped to find A story of determination and hope Stumbling Through Paradise showcases the indomitable spirit of those willing to risk everything for the chance of a brighter future and captures with great clarity the bonds of familial love and loyalty which may bend but never truly break *Nursing against the Odds* Suzanne Gordon,2012-05-15 In the United States and throughout the industrialized world just as the population of older and sicker patients is about to explode we have a major shortage of nurses Why are so many RNs dropping out of health care s largest profession How will the lack of skilled experienced caregivers affect patients These are some of the questions addressed by Suzanne Gordon s definitive account of the world s nursing crisis In *Nursing against the Odds* one of North

America's leading health care journalists draws on in depth interviews research studies and extensive firsthand reporting to help readers better understand the myriad causes of and possible solutions to the current crisis Gordon examines how health care cost cutting and hospital restructuring undermine the working conditions necessary for quality care She shows how the historically troubled workplace relationships between RNs and physicians become even more dysfunctional in modern hospitals In Gordon's view the public image of nurses continues to suffer from negative media stereotyping in medical shows on television and from shoddy press coverage of the important role RNs play in the delivery of health care Gordon also identifies the class and status divisions within the profession that hinder a much needed defense of bedside nursing She explains why some policy panaceas hiring more temporary workers importing RNs from less developed countries fail to address the forces that drive nurses out of their workplaces To promote better care Gordon calls for a broad agenda that includes safer staffing improved scheduling and other policy changes that would give nurses a greater voice at work She explores how doctors and nurses can collaborate more effectively and what medical and nursing education must do to foster such cooperation Finally Gordon outlines ways in which RNs can successfully take their case to the public while campaigning for health care system reform that actually funds necessary nursing care
