

The background of the cover is a photograph of a savanna landscape. In the foreground, a dirt path leads from the bottom center towards the middle ground. The path is flanked by green grass and some dry, brownish vegetation. In the middle ground, there are several acacia trees with their characteristic flat-topped canopies. The background shows rolling hills under a blue sky with scattered white clouds.

## **Ethical Issues In Rural Health Care:**

*Ethical Issues in Rural Health Care* Craig M. Klugman, Pamela M. Dalinis, 2008-12 Klugman and Dalinis initiate a much needed conversation about the ethical and policy concerns facing health care providers in the rural United States This volume initiates a much needed conversation about the ethical and policy concerns facing health care providers in the rural United States Although 21 percent of the population lives in rural areas only 11 percent of physicians practice there What challenges do health care workers face in remote locations What are the differences between rural and urban health care practices What particular ethical issues arise in treating residents of small communities Craig M Klugman and Pamela M Dalinis gather philosophers lawyers physicians nurses and researchers to discuss these and other questions offering a multidisciplinary overview of rural health care in the United States Rural practitioners often practice within small tight knit communities socializing with their patients outside the examination room The residents are more likely to have limited finances and to lack health insurance Physicians may have insufficient resources to treat their patients who often have to travel great distances to see a doctor The first part of the book analyzes the differences between rural and urban cultures and discusses the difficulties in treating patients in rural settings The second part features the personal narratives of rural health care providers who share their experiences and insights The last part introduces unique ethical challenges facing rural health care providers and proposes innovative solutions to those problems This volume is a useful resource for bioethicists members of rural bioethics committees and networks policy makers teachers of health care providers and rural practitioners themselves

**Ethical Issues in Rural Health Care** Craig M. Klugman, Pamela M. Dalinis, 2013-01-02 Klugman and Dalinis initiate a much needed conversation about the ethical and policy concerns facing health care providers in the rural United States This volume initiates a much needed conversation about the ethical and policy concerns facing health care providers in the rural United States Although 21 percent of the population lives in rural areas only 11 percent of physicians practice there What challenges do health care workers face in remote locations What are the differences between rural and urban health care practices What particular ethical issues arise in treating residents of small communities Craig M Klugman and Pamela M Dalinis gather philosophers lawyers physicians nurses and researchers to discuss these and other questions offering a multidisciplinary overview of rural health care in the United States Rural practitioners often practice within small tight knit communities socializing with their patients outside the examination room The residents are more likely to have limited finances and to lack health insurance Physicians may have insufficient resources to treat their patients who often have to travel great distances to see a doctor The first part of the book analyzes the differences between rural and urban cultures and discusses the difficulties in treating patients in rural settings The second part features the personal narratives of rural health care providers who share their experiences and insights The last part introduces unique ethical challenges facing rural health care providers and proposes innovative solutions to those problems This volume is a useful

resource for bioethicists members of rural bioethics committees and networks policy makers teachers of health care providers and rural practitioners themselves      **Rethinking Rural Health Ethics** Christy Simpson,Fiona McDonald,2017-08-13 This book challenges readers to rethink rural health ethics Traditional approaches to health ethics are often urban centric making implicit assumptions about how values and norms apply in health care practice and as such may fail to take into account the complexity depth richness and diversity of the rural context There are ethically relevant differences between rural health practice and rural health services delivery and urban practice and delivery that go beyond the stereotypes associated with rural life and rural health services This book examines key values in the rural context that have not been fully explored or taken into account when we examine health ethics issues including the values of community and place and a need to revalue relationships It also advocates for a greater attention to meso and macro level analysis in rural health ethics as being critical to ethical analysis of rural health care This book is essential reading for those involved in health ethics rural health policy and governance and for rural health providers      **Ethical Issues in Women's Healthcare** Lori d'Agincourt-Canning,Carolyn Ells,2019-04-02 Numerous issues confront women s healthcare today among them the medicalization of women s bodies cosmetic genital surgery violence against women HIV perinatal mental health disorders This volume uniquely explores such difficult topics and others at the intersection of clinical practice policy and bioethics in women s health care through a feminist ethics lens With in depth discussions of issues in women s reproductive health it also broadens scholarship by responding to a wider array of ethical challenges that many women experience in accessing health care Contributions touch on many themes previously tackled by feminist ethics but in new contemporary ways Some chapters expand into new fields in the bioethics literature such as the ethical issues related to the care of Indigenous women uninsured refugees and immigrants women engaged in sex work and those with HIV at different life stages and perinatal mental health disorders Authors seek to connect theory and practice with users of the health system by including women s voices in their research Bringing to bear their experience in active clinical practice in medicine nursing and ethics the authors contemplate new conceptual approaches to important issues in women s healthcare and make ethical practice recommendations for those grappling with these issues Topical and up to date this book provides a valuable resource for physicians nurses clinical ethicists and researchers working in some of the most critical areas of women s health and applied ethics today      *Hospice Ethics* Timothy W. Kirk,Bruce Jennings,2014 This book is the first comprehensive collection devoted to analyzing distinctive ethical issues arising in the delivery of hospice care and designed to promote best ethical practices for hospice care professionals and organizations in the United States      **Encyclopedia of Aging and Public Health** Sana Loue,Martha Sajatovic,2008-01-16 Americans are living longer and the elder population is growing larger To meet the ongoing need for quality information on elder health the Encyclopedia of Aging and Public Health combines multiple perspectives to offer readers a more accurate and complete picture of the aging process The book takes a biopsychosocial

approach to the complexities of its subject In depth introductory chapters include coverage on a historical and demographic overview of aging in America a guide to biological changes accompanying aging an analysis of the diversity of the U S elder population legal issues commonly affecting older adults and the ethics of using cognitively impaired elders in research From there over 425 entries cover the gamut of topics trends diseases and phenomena Specific populations including ethnic minorities custodial grandparents and centenarians Core medical conditions associated with aging from cardiac and pulmonary diseases to Parkinson s and Alzheimer s Mental and emotional disorders Drugs vitamins alternative medicine Disorders of the eyes feet and skin Insomnia and sleep disorders malnutrition and eating disorders Sexual and gender related concerns And a broad array of social and political issues including access to care abuse neglect veterans affairs and assisted suicide Entries on not quite elders concerns e g midlife crisis menopause are featured as well And all chapters and entries include references and resource lists The Encyclopedia has been developed for maximum utility to clinicians social workers researchers and public health professionals working with older adults Its multidisciplinary coverage and scope of topics make this volume an invaluable reference for academic and public libraries

The History and Bioethics of Medical Education Madeleine Mant,Chris Mounsey,2021-04-20 The History and Bioethics of Medical Education You ve Got to Be Carefully Taught continues the Routledge Advances in the History of Bioethics series by exploring approaches to the teaching of bioethics from disparate disciplines geographies and contexts Van Rensselaer Potter coined the phrase Global Bioethics to define human relationships with their contexts This and subsequent volumes return to Potter s founding vision from historical perspectives and asks how did we get here from then The patient practitioner relationship has come to the fore in bioethics this volume asks is there an ideal bioethical curriculum Are the students being carefully taught and in turn are they carefully learning This volume will appeal to those working in both clinical medicine and the medical humanities as vibrant connections are drawn between various ways of knowing

**Building Health Sciences Library Collections** Megan Inman,Marlena Rose,2023-07-03 Selected as a 2025 Doody s Core Title Collection development is a cornerstone of librarianship and with the rapid pace that library materials are produced a thorough knowledge of collection development is more important than ever before However with the myriad of choices available creating a meaningful collection can be a daunting task Building and maintaining a health sciences library collection can be a challenge especially in scenarios where there is no dedicated collection services department or collection development librarian Often in library school curriculum collection development strategies are discussed but specific examples of bibliographic sources may not be covered in detail particularly for health sciences resources Many collection development books often discuss the creation of policies budgeting practices and usability This book is a comprehensive reference guide for those who will be creating and curating their library health sciences collections Moving beyond a traditional list of titles this guide will focus on several formats and areas It features specific bibliographic information for top resources for a variety of subject areas and in a variety of formats This

book is designed for all librarians whether new or experienced Each chapter of this title does a deep dive into an area of health sciences library collection building as well as covering how to maintain a current collection This book is designed to provide readers with a resource to lean on in determining the best bets in providing their users with health sciences resources to support curriculum practice and other user needs Readers who are interested in gleaning techniques for maintaining their health sciences library collection will also benefit from this how to guide as it details the deselection process Every health sciences librarian no matter their experience can benefit from this reference guide

*African Traditional Medicine: Autonomy and Informed Consent* Peter Ikechukwu Osuji, 2014-07-18 This book focuses on informed consent in African Traditional Medicine ATM ATM forms a large portion of the healthcare systems in Africa WHO statistics show that as much as 80% of the population in Africa uses traditional medicine for primary health care With such a large constituency it follows that ATM and its practices should receive more attention in bioethics By comparing the ethics of care approach with the ATM approach to Relational Autonomy In Consent RAIC the authors argue that the ATM focus on consent based on consensus constitutes a legitimate informed consent This book is distinctive insofar as it employs the ethics of care as a hermeneutic to interpret ATM The analysis examines the ethics of care movement in Western bioethics to explore its relational approach to informed consent Additionally this is the first known study that discusses healthcare ethics committees in ATM

Changing the U.S. Health Care System Ronald M. Andersen, Thomas H. Rice, Gerald F. Kominski, 2011-02-15 The third edition of *Changing the U S Health Care System* is a thoroughly revised and updated compendium of the most current thought on three key components of health care policy improving access ensuring quality and controlling costs Written by a panel of health care policy experts this third edition highlights the most recent research relevant to health policy and management issues New chapters address topics such as the disparities in health and in health care information systems and performance in the area of nursing Revisions to chapters from the previous edition emphasize the most recent developments in the field

Foundations of Rural Public Health in America Joseph N. Inungu, Mark J. Minelli, 2021-02-03 *Foundations of Rural Public Health in America* spans a wide variety of important issues affecting rural public health including consumer and family health environmental and occupational health mental health substance abuse disease prevention and control rural health care delivery systems and health disparities Divided into five sections the book covers understanding rural communities public health systems and policies for rural communities health disparities in rural communities and among special populations and advancing rural health including assessment planning and intervention Written by a multidisciplinary team of experienced scholars and practitioners this authoritative text comprehensively covers rural health issues today

**Health Progress**, 2010 *Advanced Practice Palliative Nursing* Constance Dahlin, Patrick J. Coyne, Betty R. Ferrell, 2016-02-25 *Advanced Practice Palliative Nursing* is the first text devoted to advanced practice nursing care of the seriously ill and dying This comprehensive work addresses all aspects of palliative care including physical psychological

social and spiritual needs Chapters include symptoms common in serious illness pediatric palliative care spiritual and existential issues issues around the role and function of the advanced practice nurse APN reimbursement and nursing leadership on palliative care teams Each chapter contains case examples and a strong evidence base to support the highest quality of care The text is written by leaders in the field and includes authors who have pioneered the role of the advanced practice nurse in palliative care This volume offers advanced practice content and practical resources for clinical practice across all settings of care and encompassing all ages from pediatrics to geriatrics

**Medical-surgical Nursing** Lois White, Gena Duncan, 2002 Medical Surgical Nursing An Integrated Approach 2E examines all aspects of this nursing field from how and where the health care delivery system is set up to the nurse's role in care related to IV therapy and diagnostic testing to legal and ethical responsibilities communication and cultural diversity This revised edition also includes new chapters covering alternative therapies and responding to emergencies Case studies critical thinking questions and exercises developing care plans encourage students to think beyond the classroom Full color illustrations cross referencing between chapters and suggested resources are among the many features that will appeal to students Diagnostic tests are listed alphabetically in chart form making important information about the test normal values and nursing responsibilities easy to find Chapter end critical thinking questions help students apply chapter content Web Flash box suggests Internet sites students can consult for additional information Text includes a glossary a list of abbreviations and acronyms a listing of the latest NANDA nursing diagnoses and Standard Precautions

The Cambridge Textbook of Bioethics Peter A. Singer, A. M. Viens, 2008-01-31 Medicine and health care generate many bioethical problems and dilemmas that are of great academic professional and public interest This comprehensive resource is designed as a succinct yet authoritative text and reference for clinicians bioethicists and advanced students seeking a better understanding of ethics problems in the clinical setting Each chapter illustrates an ethical problem that might be encountered in everyday practice defines the concepts at issue examines their implications from the perspectives of ethics law and policy and then provides a practical resolution There are 10 key sections presenting the most vital topics and clinically relevant areas of modern bioethics International interdisciplinary authorship and cross cultural orientation ensure suitability for a worldwide audience This book will assist all clinicians in making well reasoned and defensible decisions by developing their awareness of ethical considerations and teaching the analytical skills to deal with them effectively

APAIS 1994: Australian public affairs information service , **Cumulated Index Medicus** , 1977 **Arctic Research of the United States** , 1997 Ethical Issues in Neurology James L. Bernat, 2008 Written by an eminent authority from the American Academy of Neurology's Committee on Ethics Law and Humanities this book is an excellent text for all clinicians interested in ethical decision making The book features outstanding presentations on dying and palliative care physician assisted suicide and voluntary active euthanasia medical futility and the relationship between ethics and the law New chapters in this edition discuss how clinicians resolve ethical

dilemmas in practice and explore ethical issues in neuroscience research Other highlights include updated material on palliative sedation advance directives ICU withdrawal of life sustaining therapy gene therapy the very low birth weight premature infant the developmentally disabled patient informed consent organizational ethics brain death controversies and fMRI and PET studies relating to persistent vegetative state      **Ethical Challenges in Managed Care** Karen Grandstrand Gervais,1999 Through twenty case studies that illustrate a wide range of ethical challenges this book explores the goals methods and practices of managed care and offers practical guidance for addressing the ethical and policy issues inherent in such a system
