Rethinking Inclusive Education: The Philosophers of Difference in Practice Julie Allan, 2007-11-07 With Warnock the so called architect of inclusion now pronouncing this her big mistake and calling for a return to special schooling inclusion appears to be under threat as never before This book takes key ideas of the philosophers of difference Deleuze Foucault and Derrida and puts them to work on inclusion The book offers new challenges for those involved with education to invent new ways of tackling the problem of inclusion

The Intersubjective Turn Olen Gunnlaugson, Charles Scott, Heesoon Bai, Edward W. Sarath, 2017-10-11 A first of its kind this book maps out current academic approaches in higher education to second person contemplative education which addresses contemplative experience from an intersubjective perspective Until recently contemplative studies has emphasized a predominantly first person standpoint but the expansion and embrace of second person methods provides a distinctive learning context in which collective wisdom and shared learning can begin to emerge from dialogue among students and groups in the classroom The

contributors to this volume leading researchers and practitioners from a variety of institutions and departments examine the theoretical and philosophical foundations of second person contemplative approaches to instruction pedagogy and curricula across various scholarly disciplines

A Magna Carta for Children? Michael Freeman,2020-10 This book highlights the importance of law policy and rights in improving children s lives combining historical analysis and human rights law

Inclusive Education in Italy Simona D'Alessio,2012-01-01 This book provides an innovative and thought provoking analysis of the policy of integrazione scolastica from an inclusive perspective Drawing on historical and empirical research methods the book arises out of an ethnographic study which investigates the extent to which the policy of integrazione scolastica can be considered an inclusive policy The author poses two fundamental questions why are there episodes of micro exclusion and discrimination against disabled pupils still taking place in regular schools after more than 30 years have passed since the enactment of such a progressive policy Can the policy of integration lead to the development of inclusion in Italy The research findings presented in the book indicate that exclusion and discrimination towards disabled pupils in education do not result from a lack of implementation of the policy at a school level rather from the perpetuation of dominant discourses which construct disability as an individual deficit The book does not deny the progress made in the country following the application of this anti discriminatory policy rather it challenges the hegemonic abilist culture and the traditional perspectives of disability and schooling that undermine the development of inclusive education After having investigated the theoretical premises of the policy of integration the author argues that this progressive policy is still rooted in a special needs education paradigm and that what was once a liberating policy has been transformed into a hegemonic tool which still manages controls and normalizes disability leaving school settings and teaching and learning routines unchanged She finally argues for a human rights approach for the development of an inclusive school for the 21st century The book is an essential reading for academics policy makers researchers and students involved in education as it links ideological pressures to practical analyses

Exploring children's learning The Open University,2011-07-28 This 20 hour free course explored four theories of child development each taking a different view which underpin research into children s learning
