Eurasian Integration Challenges Of Transcontinental Regionalism Euro Asian Studiesv:

Eurasian Integration E. Vinokurov,A. Libman,2012-12-15 The Eurasian continent which has for over a century lagged behind in global markets is currently gaining economic and political momentum This book investigates emerging economic linkages in the area examining the factors shaping this integration the benefits and risks involved and the future of these states on the global stage Eurasian Integration E. Vinokurov,A. Libman,2012-12-15 The Eurasian continent which has for over a century lagged behind in global markets is currently gaining economic and political momentum This book investigates emerging economic linkages in the area examining the factors shaping this integration the benefits and risks involved and the future of these states on the global stage **The Russian Project of Eurasian Integration** Nataliya A. Vasilyeva,Maria L. Lagutina,2016-09-14 Modern trends in geopolitics have raised serious questions about the future global and regional architecture of the world system In the case of the Eurasian Economic Union these questions bring up important issues for debate What is the Eurasian Economic Union What theoretical concepts could be applied for modern Eurasian integration Why is the Eurasian Economic Union forming Most importantly what prospects does this Union have in the framework of the modern geopolitical situation This book explores the process of Eurasian integration in the modern global world The creation of the Eurasian Economic Union has become a topical issue in modern Russian foreign policy Neo Eurasianist ideas can be viewed as a geopolitical basis and rationale for the Eurasian Economic Union that may constitute an integrational structure consolidating the post Soviet area and neighboring regions This book argues that Eurasia is a region representing an organic integrity due to close mentality common and centuries long history common language of international communication a multitude of economic ties and an identical level of technological development across all countries within the post Soviet area Yet advancement of the Eurasian integration idea into practical implementation should have new objective suppositions as well These are defined by the contemporary economic political and ethno cultural processes in the post Soviet space *Beyond the Euromaidan* Henry E. Hale,Robert W. Orttung,2016-09-07 *Beyond the Euromaidan* examines the prospects for advancing reform in Ukraine in the wake of the February 2014 Euromaidan revolution and Russian invasion It examines six crucial areas where reform is needed deep internal identity divisions corruption the constitution the judiciary plutocratic oligarchs and the economy On each of these topics the book provides one chapter that focuses on Ukraine s own experience and one chapter that examines the issue in the broader context of international practice Placing Ukraine in comparative perspective shows that many of the country s problems are not unique and that other countries have been able to address many of the issues currently confronting Ukraine As with the constitution there are no easy answers but careful analysis shows that some solutions are better than others Ultimately the authors propose a series of reforms that can help Ukraine make the best of a bad situation The book stresses the need to focus on reforms that might not have immediate effect but that comparative experience shows can solve fundamental contextual

challenges Finally the book shows that pressures from outside Ukraine can have a strong positive influence on reform efforts inside the country

Eurasian Integration - The View from Within Piotr Dutkiewicz, Richard Sakwa, 2014-10-17 As Eurasia and the adjacent territories become more important to the world there is increasing interest from international powers accompanied by attempts to give institutional form to traditional economic and security links within the region This book includes a range of substantive work from scholars based in the region offering contrasting perspectives on the process of Eurasian integration and its place in the world Chapters consider economic political social and security developments with notable studies of the major countries involved in the development of the Eurasian Economic Union The work also examines the connections between the region and China greater Asia and the European Union It outlines the varying dynamics with populations growing in Central Asia while at best stagnant elsewhere The book discusses the increasing strategic significance of the region and explores how the new post Soviet states are growing in national cohesion and political self confidence Above all the book examines the concept of Eurasia outlining the debates about the concept and how various aspects of the legacy of Eurasianism contribute to contemporary plans for integration The book argues that although regional integration is very much a popular idea in our age with the potential for economic benefits and increased international influence in practice contemporary projects for Eurasian integration have been highly ambiguous and contested Nevertheless significant steps have been taken towards the creation of the Eurasian Economic Union The book analyses developments to date noting the achievements as well as the challenges

The Ukraine Conflict Derek Averre, Kataryna Wolczuk, 2018-10-19 It is not hyperbole to suggest that the foundations of post cold war security in Europe have been badly damaged by the conflict in Ukraine since 2014 Russia s annexation of Crimea and intervention in eastern Ukraine appear to have created a simmering conflict which may take years to resolve and have profound consequences for the European security environment This volume explores the various political economic and social aspects of these profound changes and their wider significance for Europe bringing together contributions by scholars from across the continent and in various disciplinary fields to offer an authoritative in depth examination of the complex causes of the Ukraine crisis and the consequences for Ukrainian statehood Ukraine s relations with Russia Russia s own domestic governance and Russia s relations with Europe This book was originally published as a special issue of Europe Asia Studies

EU and Russian Hegemony in the 'Shared Neighbourhood' Isabell Burmester, 2025-02-28 This open access book examines the EU s and Russia s policies in Eastern Europe and the South Caucasus through the prism of hegemony a concept that it applies to both regional actors The study cross fertilises the literatures on the EU neighbourhood policy Russia s foreign policy and the scholarship on power in international relations to arrive at an innovative conceptualisation of the mechanisms of hegemonic power The comparative lens of the analysis leads to novel findings that advance our understanding of the EU s and Russia s behaviour in the EU s Eastern neighbourhood In this book the existing separate theorisations are subsumed under more generic terms and

concepts thereby rendering EU and Russian modes of influence comparable for empirical analysis The comprehensive conceptual framework of hegemonic power in shared neighbourhoods is based on three ideal typical mechanisms of hegemonic influence coercion prescription and co optation To understand the nature of EU and Russian hegemony in the region the uses of the three mechanisms by Russia and the EU towards two neighbourhood countries are compared The focus is laid on EU and Russian actions towards Moldova and Armenia since the beginning of the 2000s and the local perceptions of these actions Thus the comparative case study provides insights into the longer developments in this regional order that led to Russia s full scale invasion of Ukraine on 24 February 2022 The book is intended for scholars and students interested in understanding the broader context of Russia s war in Ukraine Because of its contribution to the debate on regional powers in shared neighbourhoods it is particularly useful for researchers analysing the changing power dynamics and hegemonic behaviour in this regional order Furthermore it offers other scholars an analytical framework to work with when analysing the policies of different regional powers

The Routledge Handbook of Russian International Relations Studies Maria Lagutina,Natalia Tsvetkova,Alexander Sergunin,2023-02-27 This handbook examines the study of international relations IR in Russia giving a comprehensive analysis of historical theoretic conceptual geographical and institutional aspects It identifies the place and role of Russia in global IR and discusses the factors that facilitate or impede the development of Russian IR studies The contributors represent diverse Russian regions and IR schools and offer an overview of different intellectual traditions and key IR paradigms in the post Soviet era Filling the vacuum in international understanding of the Russian perspective on pivotal international issues they demonstrate the continuity and change in Russia s international policy course over the past three decades and explain how different foreign policy schools and concepts have affected Russian foreign policy making and the decision making process Providing a unique contribution to the discussion on non Western IR theory this handbook will appeal to scholars and students of international relations Russian studies world politics and international studies

Holding-Together Regionalism: Twenty Years of Post-Soviet Integration Alexander Libman,E. Vinokurov,2012-09-27 An in depth analysis of one of the most important and complex issues of the post Soviet era namely the re integration of this highly interconnected region The book considers the evolution of holding together groups since the collapse of the Soviet Union in 1991 looking at intergovernmental interaction and informal economic and social ties

The Elgar Companion to the Eurasian Economic Union Alexander Libman,Evgeny Vinokurov,2024-03-14 This insightful Companion provides an in depth systematic analysis of the Eurasian Economic Union EAEU an economic union of several post Soviet Eurasian states

The Law and Policy of New Eurasian Regionalization Anna Aseeva,Jędrzej Górski,2021-01-25 The Law and Policy of New Eurasian Regionalization Economic Integration Trade and Investment in the Post Soviet and Greater Eurasian Space edited by Anna Aseeva and J drzej G rski makes several unique contributions to the literature First and foremost most of the current literature is in either economics or politics with only a secondary focus on

legal and institutional matters Secondly and consequently the book is accessible and relevant to readers both inside and outside the boundaries of the Eurasian area not only geographical boundaries but also legal geopolitical geoeconomic cultural and indeed disciplinary boundaries Drawing on international transnational and comparative legal scholarship this rich volume offers the insights by a plethora of leading international scholars in economics institutional theory area studies international relations global political economy political science and sociology The contributors come from four corners of the globe including Asia Europe and North America

The Making of Eurasia Moritz Pieper,2021-09-09 The Making of Eurasia investigates the multi layered spectrum of China and Russia s Eurasian policies towards each other ranging from competition to cooperation as well as the role of regional actors in between The book examines the impact of and responses to the dynamic Sino Russian interaction in the wake of China s Belt and Road initiative focusing on the selected case studies of Kazakhstan Mongolia and Uzbekistan but also on inter regional implications across the Eurasian space With China s imprint on inter regional politics and ambition to make a distinctive Chinese contribution to globalization and Russia s vision of a Greater Eurasia in which Moscow stakes out a place for itself as an indispensable power other regional actors adopt policies that respond to and co shape the resulting centrifugal forces Meanwhile power shifts are underway on a global plane as the normative divide between Russia and the West has widened and as the Sino American rivalry is intensifying The book therefore also sheds light on the effects of Eurasian power shifts on global governance in a context where global leadership is contested and in which the US and Europe are re defining their relationship not only towards a self confident China but also towards each other As such this study will provide valuable insight for students and scholars of Eurasian Asia Studies Foreign Policy Analysis and International Relations at large

Re-Evaluating Regional Organizations Evgeny Vinokurov,Alexander Libman,2017-05-22 This book re evaluates the regional organizations landscape and discusses how organizations with similar mandates can exercise strikingly different goals Even economic organizations which do not produce any outcomes in terms of economic cooperation can be valuable for their members or individual stakeholders The book s argument is supported by a combination of quantitative and qualitative methods It employs a novel dataset of 60 regional organizations to establish correlations between members goals and their characteristics More than a dozen case studies in Latin America Africa Middle East Southeast Asia and post Soviet Eurasia illustrate the theoretic arguments of how particular types of regional organizations come into existence and evolve Finally the book examines the remarkable resilience of regional organizations and considers the conditions under which the stakeholders are willing to abandon support

Energy Security along the New Silk Road Anatole Boute,2019-06-13 Guaranteeing energy security is one of the most complex challenges of energy law and policy Energy insecurity threatens economic development social peace and stability This book focuses on energy security in the strategically important region of Central Asia The region holds huge energy reserves but its energy systems are highly inefficient and unreliable and thus require urgent reform However

endemic corruption discrimination and the strong centralization of power have so far blocked initiatives to reorganize energy supply The case of Central Asia is uniquely relevant for understanding the informal constraints on energy law and policy In addition Central Asian energy insecurity illustrates the impact of geopolitics on the regulation of energy markets The region is strategically located in Russia's sphere of influence and along China's New Silk Road Its energy situation highlights the complex interactions amongst energy law geopolitics and institutions

Regionalism and Multilateralism Thomas Meyer, José Luís de Sales Marques, Mario Telò, 2020-07-22 This book discusses the impact of cultural diversities and identities on regional and interregional cooperation as well as on multilateralism Employing a comparative approach to organizations such as ASEAN MERCOSUR SAARC and the African and European Unions this volume seeks to understand their distinctive features and patterns of interaction It also explores the diffusion of multidimensional interregional relations including but not limited to the field of trade Scholars from several disciplines and four continents offer insights concerning the consequences of both multiple modernities and the rise of authoritarian populism for regionalism interregionalism and multilateralism The Covid 19 pandemic confirmed the decline of hegemonic multilateralism Among alternative possible scenarios for global governance the new multilateralism receives special attention This book will be of key interest to European EU studies economics history cultural studies international relations international political economy security studies and international law

Eurasia on the Edge Richard Sakwa, 2018-10-15 Eurasia wherever one draws the boundaries is very much at the centre of discussions about today's world Security across Eurasia is a global concern and has been subject to a range of discussions and debate However the current tensions over security and world order with the growing challenges from Eurasia and Asia require more intense scrutiny The goals of the book are to explore the challenges facing the region and to assess how to achieve economic social and political stability in the Eurasian core The book's chapters are written by prominent experts in the field and together contribute to the continuing debate by providing policy advice for managing crises in the region Conflicts inevitably arise in the Eurasian space as global powers regional powers and individual states jockey for positions and influence These conflicts need not reach a crisis state provided the foundations of conflict and the surrounding frameworks can be better understood To do this it is necessary to examine the issue of security in Eurasia from a multi dimensional perspective that challenges any and all assumptions about Eurasia and global order This volume has two overarching goals The first is to come to a better understanding of key security threats in the Eurasian region from a multi dimensional social political economic and institutional perspective The second is to discuss policies directed to increase mutual security in and around the Eurasian core Although the crisis of security affects the whole continent the area covered by the former Soviet Union and its neighborhood is at the epicenter of the current crisis On the one side the Atlantic community is consolidating and extending On the other various greater Asia ideas are in the making All of Eurasia is in danger of becoming an extended shatter zone a vast new shaky borderland trapped between two great systems of power and

world order Culture, Political Economy and Civilisation in a Multipolar World Order Ray Silvius, 2016-10-04 This book seeks to understand how Russia's multifaceted rejection of American unipolarity and de-territorialised neo-liberal capitalism has contributed to the gestation of the present multipolar moment in the global political economy. Analysing Western world order precepts via the actions of a powerful albeit precarious national political economy and state structure situated on the periphery of Western world order, Silvius explores the manner in which culture and ideas are mobilised for the purposes of national, regional and international political and economic projects in a post-global age. The book explains and analyses the tensions of post-Soviet Russia's integration into and simultaneous partial rejection of the capitalist global political economy. Provides an overview of the social, political and historical origins of Russian samobytnost uniqueness after the fall of the Soviet Union and demonstrates their significance to contemporary understandings of world order. Explores how structures of cultural difference and practices of cultural differentiation interact with the normative legacies of American hegemonic aspirations in contemporary world order structures. Evaluates how cultural and civilisational representations are mobilised for state projects and their corresponding regional and international dimensions within the global political economy. This book will be of great interest to students and scholars of Russian Foreign Policy, IPE and comparative political economy.

Rethinking the Silk Road Maximilian Mayer, 2017-11-05 Focused on the Belt and Road Initiative, this book discusses China's opportunities to translate economic leverage into political outcomes. The central question is how China's expanding economic influence will transform the Eurasian political landscape. Proposed in late 2013 by President Xi Jinping, the Belt and Road is the most ambitious foreign policy approach adopted thus far and represents the culmination of China's search for a grand strategic narrative. Comparative methods and diverse conceptual frameworks are applied to contextualize and explore the political, economic and cultural ramifications of the Belt and Road in order to shed light on its transformative significance, risks and opportunities.

The Oxford Handbook of Comparative Regionalism Tanja A. Börzel, Thomas Risse, 2016-02-04 The Oxford Handbook of Comparative Regionalism, the first of its kind, offers a systematic and wide-ranging survey of the scholarship on regionalism, regionalization and regional governance. Unpacking the major debates, leading authors of the field synthesize the state of the art, provide a guide to the comparative study of regionalism and identify future avenues of research. Twenty-seven chapters review the theoretical and empirical scholarship with regard to the emergence of regionalism, the institutional design of regional organizations and issue-specific governance, as well as the effects of regionalism and its relationship with processes of regionalization. The authors explore theories of cooperation, integration and diffusion, explaining the rise and the different forms of regionalism. The handbook also discusses the state of the art on the world regions: North America, Latin America, Europe, Eurasia, Asia, North Africa and the Middle East, and Sub-Saharan Africa. Various chapters survey the literature on regional governance in major issue areas such as security and peace, trade and finance, environment, migration, social and gender policies, as well as democracy and human rights. Finally, the handbook

engages in cross regional comparisons with regard to institutional design dispute settlement identities and communities legitimacy and democracy as well as inter and transregionalism

China, Russia and Central Asian Infrastructure

Peter Krasnopolsky, 2022-08-17 This book evaluates Central Asian regionalism by analyzing the impact of Russia and China on physical infrastructure in the region The narrative builds a picture of the nature of the two powers influence on the development of regional connectivity in Central Asia The study covers the 30 year period since the dissolution of the Soviet Union with a focus on the last decade preceding the global pandemic Qualitative research methods i e documentary analysis media analysis and elite interviews are implemented to explore how activities of Russia and China impact regional cooperation among Central Asian states Multiple case studies of projects in the networked sectors of infrastructure i e transportation energy and telecommunications are used to build the argument and demonstrate the ways in which Russia s and China s engagement influence regional connectivity The book is of interest to the scholars who study international relations in Eurasia major power relations Sino Russian relations China foreign policy international institutions in Asia multilateralism and regionalism The empirical depth of the book attracts attention of area studies scholars who focus on Central Asia Central Eurasia and any of the five Central Asian states Additionally the scholars who analyze the roles of hard infrastructure find the book particularly important The in depth cases on multilateral financial institutions and regional networks particularly energy transportation and telecommunication are of great value to those interested in these respective sectors
