Teaching Social Studies in the Early Childhood Classroom Jean Kirshner, Jenny Pettit, 2025-01-23 This textbook develops early childhood teachers' capacity to effectively instruct democratic principles to our youngest citizens. As our world experiences political polarization, pandemics heightened racial tension, and the evolving awareness of gender and LGBTQ issues, this textbook addresses those topics as they show up in the early childhood classroom, offering research-informed practical guidance for pre- and in-service teachers. The book is organized around 12 themes, 10 of which are based on the National Council for Social Studies (NCSS) themes, in addition to the anti-racist, anti-bias curriculum and gender-expansive principles from the National Association for the Education of Young Children (NAEYC), closely following social studies content standards from across the United States. The themes covered are culture and cultural diversity, history, geography, identity, gender roles, and gender identity, institutions, power and authority, economics, science and technology, global citizenship, and civic ideals and practice. Throughout each chapter, you will come to know 5 early childhood classrooms, including profiles of the teachers, students, and communities. These five spaces represent a variety of early childhood teachers, different age groups of students, and diverse communities, and show how the lesson learned in each chapter can be applied in classroom settings. This book provides developmentally appropriate ways to teach relevant and current social studies content to our very youngest learners, emphasizing the fact that these very children will grow to be the next stewards of our global community.

Classroom Management Ambar Wulan Sari, 2024-12-05 This book discusses the essence of classroom management, which starts from analyzing the class, managing conflicts that occur, efforts to create a good, active, and productive class, and various ways of managing students.

Prisoners of Time Research United States. National Education Commission on Time and Learning, Cheryl M. Kane, 1994 The Education Council Act of 1991 established the National Education Commission on Time and Learning as an independent advisory body and called for a comprehensive review of the relationship between time and learning in American schools. The commission's report released in May 1994 found that school reform is destined to founder unless programs provide time for learning. This document is a supplementary volume to the first report summarizing research and suggesting an agenda for further research. Section I comprised of four chapters summarizes research findings considered by the commission. These chapters review research regarding four of the commission's substantive recommendations: 1. reclaim the academic day, 2. fix the design flaw, 3. keep schools open to meet the needs of children and communities, and 4. give teachers professional time and opportunities.

The second section outlines a number of critical questions asked by the commission for which little or inadequate information was available. It returns to the four major concerns of the preceding chapters and specifies further information needed in these areas. Two figures are included. Contains 116 references. LMI *Failure Before Success* Julie Warner, 2021-06-13 Even the best most accomplished teachers make sometimes big mistakes. But as the experts and authority figures in their classrooms, teachers face myriad pressures to have all the answers and in some cases to work miracles. This book brings together first hand stories from classrooms across the globe of hard won lessons stemming from teachers' mistakes and failures, both small and colossal, to show how becoming expert actually necessitates failure. It is through their mistakes that the most successful people arrive at greatness. *Failure Before Success* brings together accounts from everyone from a world renowned Finnish education scholar and global policy advisor to distinguished professors of education to veteran teachers with decades of experience working in the complex field of teaching. While there are silver bullet books for teachers on the market, none match the comfort *Failure Before Success* offers by telling the stories of how some of the most accomplished in the field got it wrong and turned their mistakes into their greatest lessons on teaching excellence. **The Distance**

Learning Playbook, Grades K-12 Douglas Fisher, Nancy Frey, John Hattie, Corwin, 2020-06-15 Effective teaching is effective teaching, no matter where it occurs. The pandemic teaching of mid 2020 was not really distance learning but rather crisis teaching. But starting now, teachers have the opportunity to prepare for distance learning with purpose and intent, using what works best to accelerate students' learning all the while maintaining an indelible focus on equity. Harnessing the insights and experience of renowned educators Douglas Fisher, Nancy Frey, and John Hattie, *The Distance Learning Playbook* applies the wisdom and evidence of VISIBLE LEARNING research to understand what works best with distance learning. Spanning topics from teacher-student relationships, teacher credibility, and clarity, instructional design, assessments, and grading, this comprehensive playbook details the research and evidence-based strategies teachers can mobilize to deliver high impact learning in an online, virtual, and distributed environment. This powerful guide includes Learning Intentions and Success Criteria for each module to track your own learning and model evidence-based teacher practices for meaningful learning. A diversity of instructional approaches, including direct instruction, peer learning, and independent work, that foster student self-regulation and move learning to deep and transfer levels. Discussion of equity challenges associated with distance learning, along with examples of how teachers can work to ensure that equity gains that have been realized are not lost. Special guidance for teachers of young children who are learning from a distance. Videos of the authors and teachers discussing a wide variety of distance learning topics. Space to write and reflect on current practices and plan future instruction. *The Distance Learning Playbook* is the essential hands-on guide to preparing and delivering distance learning experiences that are truly effective and impactful.
