Developing Early Comprehension Skills Through Picture Book Talk Donna Thomson, 2023-12-13 Developing Early Comprehension Skills Through Picture Book Talk demonstrates how strategic picture reading and playful sensory learning can develop young children's explicit and implicit comprehension skills regardless of their decoding ability. Offering an inclusive teaching and assessment approach that aligns with the Early Years Foundation Stage (EYFS) framework and supports the early adopter school initiative, it will help readers to guide children's use of picture reading for meaning strategies in preparation for more complex comprehension instruction in Year 1. The book also contains useful resources such as colour picture booklets and downloadable family workshop sessions to help guide parents in more effective picture book talk at home. It offers corresponding steps for planning teaching and assessing children's picture book talk, multisensory learning, self-questioning skills, and early reading for meaning. The methods and activities within this book specifically help to develop vocabulary, setting vocabulary, character vocabulary, general vocabulary, communication and language skills, critical thinking, and inference skills, metacognition, personal learning awareness, self-confidence, and self-regulation skills. Providing examples of practice, photocopiable resources, and step-by-step guidance for teaching key comprehension strategies and early self-regulation skills, this book is essential reading for all those who work with young children and wish to encourage a love of reading.

Retelling Scripture Ruth Sheridan, 2012-01-06 The last century of scholarship on the Old Testament citations in the Gospel of John has concentrated almost exclusively upon source-critical or redaction-critical issues with the aim of determining the Christological import of the citations. The current book brings a narrative-rhetorical methodology to bear upon the seven explicit Scriptural citations in the Gospel's Book of Signs (1:19-12:50) that are prefaced by a distinct introductory formula (1:19-12:15). These citations are each addressed to or imply a particular textual audience, namely the Jews. This book argues that as such the citations do not merely have Christological significance but function at the narrative level to encourage an ideal reader to construct a particularly negative characterization of the Jews.

Handbook of Communication Disorders Amalia Bar-On, Dorit Ravid, Elitzur Dattner, 2018-04-23 The domain of Communication Disorders has grown exponentially in the last two decades and has come to encompass much more than audiology, speech impediments, and early language impairment. The realization that most developmental and learning

disorders are language based or language related has brought insights from theoretical and empirical linguistics and its clinical applications to the forefront of Communication Disorders science The current handbook takes an integrated psycholinguistic neurolinguistic and sociolinguistic perspective on Communication Disorders by targeting the interface between language and cognition as the context for understanding disrupted abilities and behaviors and providing solutions for treatment and therapy Researchers and practitioners will be able to find in this handbook state of the art information on typical and atypical development of language and communication dis abilities across the human lifespan from infancy to the aging brain covering all major clinical disorders and conditions in various social and communicative contexts such as spoken and written language and discourse literacy issues bilingualism and socio economic status **Science with Storytelling**
