Drawn To Nature Through The Journals Of Clare Walker Leslie:

Drawn to Nature Clare Walker Leslie, 2005-01-01 Reveling in the wonders of nature doesn't have to be reserved for vacation. By simply taking a few minutes to look up and observe the hawks hovering over their nest at the top of a city building or to look down and note the variety of weeds growing in a small patch of earth or just to glance through the window and appreciate the shapes of the clouds moving by, anyone can connect with nature anywhere anytime. Clare Walker Leslie, author of the bestselling book *Keeping a Nature Journal*, has spent 25 years teaching and showing people how simple and rewarding it is to notice and record local nature. Nothing is more inspiring than the pages of her nature journals which feature her daily recordings of small but amazing natural events she's seen while walking the dog, sitting in a park with her children or driving around city streets. *Drawn to Nature* features a selection of Leslie's journal pages arranged to inspire the reader to do as she does: look up, look down, look out, and around; bring bits of nature indoors to observe and study or take your eyes for a walk around the neighborhood. Using a combination of quick impressionistic watercolors with more detailed pen and pencil drawings along with the written word, Leslie invites readers to share in the pleasure of her nature watching and to experience the joy of seeing and connecting with nature wherever they live amidst the whirl of daily life. For journal keepers, nature lovers, birdwatchers, artists, and anyone interested in using nature as a source for self-reflection or meditation, this book will be a welcome companion and source of inspiration.

Wilson and Jane Goodall, Clare Walker Leslie's *Keeping a Nature Journal* was at the forefront of the nature observation and journaling movement. Leslie's approach has long been acclaimed for its accessible style of teaching people to see, witness, and appreciate the wonders of nature, and her classic guide is still used by individuals, groups, and educators ranging from elementary school teachers to college-level instructors. The third edition features more of Leslie's step-by-step drawing techniques, a new selection of pages from her own journals which she's kept for 40 years, and an expanded range of prompts for observing particular aspects of the natural world in any location. With an emphasis on learning to see and observe, Leslie shows how drawing nature doesn't require special skills, artistic ability, or even nature knowledge, and it is a tool everyone can use to record observations and experience the benefits of a stronger connection to the natural world.
