medical collections and glosses Overall it demonstrates how an understanding of this important body of textile metaphors alters and shapes the ways in which we read the literature of this period **Anglo-Saxon Micro-Texts** Ursula Lenker, Lucia Kornexl, 2019-12-02 In this volume scholars from different disciplines Old English and Anglo Latin literature and linguistics palaeography history runology numismatics and archaeology explore what are here called micro texts i e very short pieces of writing constituting independent self contained texts For the first time these micro texts are here studied in their forms and communicative functions their pragmatics and performativity **A Cultural History of Dress and Fashion in the Medieval Age** Sarah-Grace Heller, 2018-11-01 During the medieval period people invested heavily in looking good The finest fashions demanded careful chemistry and compounds imported from great distances and at considerable risk to merchants the Church became a major consumer of both the richest and humblest varieties of cloth shoes and adornment and vernacular poets began to embroider their stories with hundreds of verses describing a plethora of dress styles fabrics and shopping experiences Drawing on a wealth of pictorial textual and object sources the volume examines how dress cultures developed often to a degree of dazzling sophistication between the years 800 to 1450 Beautifully illustrated with 100 images A Cultural History of Dress and Fashion in the Medieval Age presents an overview of the period with essays on textiles production and distribution the body belief gender and sexuality status ethnicity visual representations and literary representations The Lost Art of the Anglo-Saxon World Alexandra Lester-Makin, 2019-11-01 This latest title in the highly successful Ancient Textiles series is the first substantial monograph length historiography of early medieval embroideries and their context within the British Isles The book brings together and analyses for the first time all 43 embroideries believed to have been made in the British Isles and Ireland in the early medieval period New research carried out on those embroideries that are accessible today involving the collection of technical data stitch analysis observations of condition and wear marks and microscopic photography supplements a survey of existing published and archival sources The research has been used to write for the first time the story of embroidery including what we can learn of its producers their techniques and the material functions and metaphorical meanings of embroidery within early medieval Anglo Saxon society The author presents embroideries as evidence for the evolution of embroidery production in Anglo Saxon society from a community based activity based on the extended family to organized workshops in urban settings employing standardized skill levels and as evidence of changing material use from small amounts of fibers produced locally for specific projects to large batches brought in from a distance and stored until needed She demonstrate that embroideries were not simply used decoratively but to incorporate and enact different meanings within different parts of society for example the newly arrived Germanic settlers of the fifth century used embroidery to maintain links with their homelands and to create tribal ties and obligations As such the results inform discussion of embroidery contexts use and deposition and the significance of this form of material culture within society as well as an evaluation of the status of embroiderers within early medieval society The results contribute

significantly to our understanding of production systems in Anglo Saxon England and Ireland

Textiles, Text, Intertext Maren Clegg Hyer, Jill Frederick, 2016 The theme of weaving a powerful metaphor within Anglo Saxon studies and Old English literature itself unites the essays collected here They range from consideration of interwoven sources in homiletic prose and a word weaving poet to woven riddles and iconographical textures in medieval art and show how weaving has the power to represent textiles texts and textures both literal and metaphorical in the early medieval period They thus form an appropriate tribute to Professor Gale R Owen Crocker whose own scholarship has focussed on exploring woven works of textile and dress manuscripts and text and other arts of the Anglo Saxon peoples

Medieval Hostageship c.700-c.1500 Matthew Bennett, Katherine Weikert, 2016-09-13 This volume explores the issues of taking using and being hostages in the Middle Ages It brings together recent research in the areas of hostages and hostageships looking at the act of hostage taking and the hostages themselves through the lenses of political and social history Building upon previous work this volume in particular critically examines not only the situations of hostages and hostageships but also the broader social and political context of each situation developing a more complete picture of the phenomenon

The Bayeux Tapestry Gale R. Owen-Crocker, 2023-05-31 This collection of fifteen papers ranges from the author s initial interest in the Tapestry as a source of information on early medieval dress through to her startling recognition of the embroidery s sophisticated narrative structure Developing the work of previous authors who had identified graphic models for some of the images she argues that not just the images themselves but the contexts from which they were drawn should be taken in to account in reading the messages of the Tapestry In further investigating the minds and hands behind this the largest non architectural artefact surviving from the Middle Ages she ranges over the seams the embroidery stitches the language and artistry of the inscription the potential significance of borders and the gestures of the figures in the main register always scrutinising detail informatively She identifies an over riding conception and house style

Arbuckle,Sue Ann McCarty,2015-01-15 Animals and Inequality in the Ancient World explores the current trends in the social archaeology of human animal relationships focusing on the ways in which animals are used to structure create support and even deconstruct social inequalities The authors provide a global range of case studies from both New and Old World archaeology a royal Aztec dog burial the monumental horse tombs of Central Asia and the ceremonial macaw cages of ancient Mexico among them They explore the complex relationships between people and animals in social economic political and ritual contexts incorporating animal remains from archaeological sites with artifacts texts and iconography to develop their interpretations Animals and Inequality in the Ancient World presents new data and interpretations that reveal the role of animals their products and their symbolism in structuring social inequalities in the ancient world The volume will be of interest to archaeologists especially zooarchaeologists and classical scholars of pre modern civilizations and societies *Medieval Clothing and Textiles 19* Melanie Schuessler Bond,Cordelia Warr,2025-06-03 The best new research on medieval clothing and textiles drawing from a range of disciplines The essays collected here continue to showcase the Journal s wide ranging and eclectic tradition The topics addressed are the sensory perceptions of textiles in Early Medieval Britain evidence of the global textile trade as reflected in church facades in Lucca Italy the ways in which spinning and weaving in late medieval Cologne influenced the presentation of the cult of the Eleven Thousand Virgins within the city sumptuary legislation in thirteenth century Montauban in the Occitan region of Southern France visual representations of male underwear in northern European art and the late sixteenth and early seventeenth century trade in knitted jersey stockings in Norwich and Yarmouth *Textiles of the Viking North Atlantic* Alexandra Lester-Makin,Gale R.
