Nobility and the Making of Race in Eighteenth-Century Britain Tim McInerney, 2023-09-07 Nobility and the Making of Race in Eighteenth Century Britain focuses on 18th century Britain and Ireland at a time when race theory as we know it today was steadily emerging in the realm of natural philosophy to examine the structural relationship between nobility and race This ground breaking book examines texts from the fields of naturalism political philosophy medicine and colonial venture as well as interrogating works of drama and literature in order to track how climate based understandings of human variety at this time became increasingly imbued with noble traditions of genealogical purity and hierarchies of descent This process the book argues allowed British naturalists and wider society to understand global populations according to an already familiar pattern of genealogical inequality and offered the proponents of race theory a ready made model of natural supremacy In this highly original and meticulously researched book Tim McInerney explains why nobility and race developed in the way they did and how the premise of each promoted a certain idea of superiority The result is a necessary in depth understanding of how genealogical exclusivity works as a power strategy vital to students and scholars alike

The Age of Cultural Revolutions Colin Jones, Dror Wahrman, 2002-01-08 This superb collection of essays brings together the most exciting new work in cultural and literary history Although the authors focus on the various cultural revolutions of the late 18th and early 19th centuries the significance of their investigations extends far beyond that moment They show how the major categories of modern social life took root in this era but they emphasize the surprising and often paradoxical ways those developments took place Nothing about the experience of class gender race nation sentiment or even death was pre ordained These essays will enable readers to take a fresh new look at the origins of modernity Lynn Hunt editor of The New Cultural History and coeditor of Beyond the Cultural Turn This is a valuable and provocative set of essays Differing markedly in subject matter they are linked by their intelligence and concern to re assess early modern English and French histories and the differences conventionally drawn between them in the light of current work on language class race and gender Linda Colley author of Britons Forging the Nation 1707 1837

Revising Women Paula R. Backscheider, 2002-10-21 A collection of essays from feminist critics each of which explores the

history of the English novel literature's place in cultural debate and women's studies. They begin with the fictions of the late 17th century and end with Maria Edgeworth and Jane Austen.

The Orders of Knighthood and the Formation of the British Honours System, 1660-1760 Antti Matikkala, 2008. Sheds considerable new light on the nature, development and functions of the orders in a key phase of their history and goes a long way to explaining how such archaic institutions could flourish in a culture that is commonly thought anti-traditional and especially hostile to the middle ages. Professor JONATHAN BOULTON, University of Notre Dame. This is the first comprehensive study to set the British orders of knighthood properly into the context of the honours system by analysing their political, social and cultural functions from the Restoration of the monarchy to the end of George II's reign. It examines the revival of the Order of the Garter and the proposals to establish the Orders of the Royal Oak and the Esquires of the Martyred King at the Restoration, the foundation 1687 and the revival 1703-4 of the Order of the Thistle as well as the foundation of the Order of the Bath 1725. It establishes just how central a part the orders played in the British high political life and its comprehensive and multidimensional approach carefully contrasts the idealistic discourse of virtue and honour to the real workings of the honours system; it also makes the case for the Chivalric Enlightenment. The orders over the water: the Garter and the Thistle conferred by the Jacobite claimants are discussed for the first time in the context of the established British honours system. Overall, the comparison between the socially very restricted British and the increasingly meritocratic Continental orders highlights the isolation of the British honours system from the European tendencies.

Queen of Fashion Caroline Weber, 2024-09-04. A thrilling frock by frock account, energetic and alive with Weber's own feminine pleasure at a beautiful dress or an outrageous pouf. Entertainment Weekly grade A. Marie Antoinette has always stood as an icon of supreme style, but surprisingly none of her biographers have paid sustained attention to her clothes. In *Queen of Fashion*, Caroline Weber shows how Marie Antoinette developed her reputation for fashionable excess and explains through lively, illuminating new research the political controversies that her clothing provoked. Weber surveys Marie Antoinette's Revolution in Dress, covering each phase of the queen's tumultuous life, beginning with the young girl struggling to survive Versailles's rigid traditions of royal glamour: twelve-foot-wide hoopskirts, whalebone corsets that crushed her organs. As queen, Marie Antoinette used stunning, often extreme costumes to project an image of power and wage war against her enemies. Gradually, however, she began to lose her hold on the French when she started to adopt unqueenly outfits: the provocative chemise that surprisingly would be adopted by the revolutionaries who executed her. Weber's queen is sublime, human and surprising: a sometimes courageous monarch unwilling to allow others to determine her destiny. The paradox of her tragic story, according to Weber, is that fashion—the vehicle she used to secure her triumphs—was also the means of her undoing. Weber's book is not only a stylish and original addition to Marie Antoinette scholarship but also a moving, revelatory reinterpretation of one of history's most controversial figures. A perceptive work of scholarship that helps to explain the transcendent importance of fashion to French culture. The New Yorker. As sociology, it's

Work, Regulation, and Identity in Provincial France D. Heimmermann, 2014-08-07 The 18th century French leather industry was a strategically important manufacturing sector one vital to both civilian and military life This study examines the production of leather in the Bordeaux trades during the 18th and 19th centuries illuminating the realities of a craft economy and its relation to the wider French political economy

Painting the Cannon's Roar Thomas Tolley, 2017-07-05 From c 1750 to c 1810 the paths of music history and the history of painting converged with lasting consequences The publication of Newton's *Opticks* at the start of the eighteenth century gave a scientific basis to the analogy between sight and sound allowing music and the visual arts to be defined more closely in relation to one another This was also a period which witnessed the emergence of a larger and increasingly receptive audience for both music and the visual arts an audience which potentially included all social strata The development of this growing public and the commercial potential that it signified meant that for the first time it became possible for a contemporary artist to enjoy an international reputation Nowhere is this better illustrated than in the career of Joseph Haydn Although this phenomenon defies conventional modes of study the book shows how musical pictorialism became a major creative force in popular culture Haydn the most popular living cultural personality of the period proved to be the key figure in advancing the new relationship The connections between the composer and his audiences and leading contemporary artists including Tiepolo Mengs Kauffman Goya David Messerschmidt Louthembourg Canova Copley Fuseli Reynolds Gillray and West are examined here for the first time By the early nineteenth century populism was beginning to be regarded with scepticism and disdain

Mozart was the modern Raphael Beethoven the modern Michelangelo Haydn however had no clear parallel in the accepted canon of Renaissance art Yet his recognition that ordinary people had a desire to experience simultaneous aural and visual stimulation was not altogether lost finding future exponents in Wagner and later still in the cinematic arts A Cultural History of Hair in the Age of Enlightenment Margaret K. Powell, Joseph Roach, 2020-12-10 Hair or lack of it is one the most significant identifiers of individuals in any society In Antiquity the power of hair to send a series of social messages was no different This volume covers nearly a thousand years of history from Archaic Greece to the end of the Roman Empire concentrating on what is now Europe North Africa and the Near East Among the key issues identified by its authors is the recognition that in any given society male and female hair tend to be opposites when male hair is generally short women's is long that hair is a marker of age and stage of life children and young people have longer less confined hairstyles adult hair is far more controlled hair can be used to identify the other in terms of race and ethnicity but also those who stand outside social norms such as witches and mad women The chapters in A Cultural History of Hair in Antiquity cover the following topics religion and ritualized belief self and society fashion and adornment production and practice health and hygiene gender and sexuality race and ethnicity class and social status and cultural representations Fashioning Society in Eighteenth-Century British Jamaica Chloe Northrop, 2024-03-20 White women who inhabited the West Indies in the eighteenth century fascinated metropolitan observers In popular prints novels and serial publications these women appeared to stray from proper British societal norms Although many women who lived in the Caribbean island of Jamaica might have fit the model extant writings from Ann Brodbelt Sarah Dwaris Margaret and Mary Cowper Lady Maria Nugent and Ann Appleton Storrow show a longing to remain connected with metropolitan society and their loved ones separated by the Atlantic Sensibility and awareness of metropolitan material culture masked a lack of empathy towards subordinates and opened the white women in these islands to censure Novels and popular publications portrayed white women in the Caribbean as prone to overconsumption but these women seem to prize items not for their inherent value They treasured items most when they came from beloved connections This colonial interchange forged and preserved bonds with loved ones and comforted the women in the West Indies during their residence in these sugar plantation islands This book seeks to complicate the stereotype of insensibility and overconsumption that characterized the perception of white women who inhabited the British West Indies in the long eighteenth century This book will appeal to students and researchers alike who are interested in the social and cultural history of British Jamaica and the British West Indies more generally **Jefferson on Display** G. S. Wilson, 2018-06-26 When we think of Thomas Jefferson a certain picture comes to mind for some of us combining his physical appearance with our perception of his character During Jefferson's lifetime this image was already taking shape helped along by his own assiduous cultivation In Jefferson on Display G S Wilson draws on a broad array of sources to show how Jefferson fashioned his public persona to promote his political agenda During his long career his image

shifted from cosmopolitan intellectual to man of the people As president he kept friends and foes guessing he might appear unpredictably in old worn and out of date clothing with hair unkempt yet he could as easily play the polished gentleman in a black suit as he hosted small dinners in the President s House that were noted for their French inspired food and fine European wines Even in retirement his image continued to evolve as guests at Monticello reported being met by the Sage clothed in rough fabrics that he proudly claimed were created from his own merino sheep leading Americans by example to manufacture their own clothing free of Europe By paying close attention to Jefferson s controversial clothing choices and physical appearance as well as his use of portraiture architecture and the polite refinements of dining grooming and conversation Wilson provides invaluable new insight into this perplexing founder
