shoulders from Michelangelo Rembrandt and Hokusai to Van Gogh K the Kollwitz and Yayoi Kusama as they work think and innovate as they scrutinise the world around them or escape into their imaginations The Story of Drawing loops around the established history of art sometimes staying close at other times diving into exhilarating and altogether less familiar territory

Art and Resistance in Germany Deborah Ascher Barnstone, Elizabeth Otto, 2018-11-01 In light of the recent rise of right wing populism in numerous political contexts and in the face of resurgent nationalism racism misogyny homophobia and demagoguery this book investigates how historical and contemporary cultural producers have sought to resist confront confound mock or call out situations of political oppression in Germany a country which has seen a dramatic range of political extremes during the past century While the current turn to nationalist populism is global it is perhaps most disturbing in Germany given its history with its stormy first democracy in the interwar Weimar Republic its infamous National Socialist Nazi period of the 1930s and 1940s and its split Cold War existence with Marxist Leninist Totalitarianism in the German Democratic Republic and the Federal Republic of Germany s barely hidden ties to the Nazi past Equally important Germans have long considered art and culture critical to constructions of national identity which meant that they were frequently implicated in political action This book therefore examines a range of work by artists from the early twentieth century to the present work created in an array of contexts and media that demonstrates a wide range of possible resistance

Remixing and Drawing Ellen Mueller, 2018-03-06 This succinct book articulates a clear framework for remixing in drawing at intermediate and advanced levels It begins by walking through the ideas of copyright and fair use providing context examples and advice Mueller directs students through building a collection of sources and influences leading to the development and analysis of style With a full chapter on techniques including approaches to brainstorming critique and reflection this book features over 50 exercises that are easily adapted to various approaches media and technologies as necessary Two sample syllabi are included for both a semester and a quarter system

An Introduction to the Making of Western Art Susan L. Green, 2024-03-29 This book is the first introduction to Western art that not only considers how choice of materials can impact form but also how objects in different media can alter in appearance over time and the role of conservators in the preservation of our cultural heritage The first four chapters cover wall and easel paintings sculpture drawings and prints from the late Middle Ages to the present day They examine with numerous examples how these works have been produced how they might have been transformed and how efforts regarding their preservation can sometimes be misleading or result in controversy The final two chapters look at how photography new techniques and modern materials prompted innovative ways of creating art in the twentieth century

and how the rapid expansion of technology in the twenty first century has led to a revolution in how artworks are constructed and seen generating specific challenges for collectors curators and conservators alike This book is primarily directed at undergraduates interested in art history museum studies and conservation but will also be of interest to a more general non specialist audience

The Art of Paper Caroline Fowler, 2019-11-05 The untold story of how paper revolutionized art making during the Renaissance exploring how it shaped broader concepts of authorship memory and the transmission of ideas over the course of three centuries In the late medieval and Renaissance period paper transformed society not only through its role in the invention of print but also in the way it influenced artistic production The Art of Paper tells the history of this medium in the context of the artist s workshop from the thirteenth century when it was imported to Europe from Africa to the sixteenth century when European paper was exported to the colonies of New Spain In this pathbreaking work Caroline Fowler approaches the topic culturally rather than technically deftly exploring the way paper shaped concepts of authorship preservation and the transmission of ideas during this period This book both tells a transcultural history of paper from the Cairo Genizah to the Mesoamerican manuscript and examines how paper became Europeanized through the various mechanisms of the watermark colonization and the philosophy of John Locke Ultimately Fowler demonstrates how paper as refuse and rags transformed into white surface informed the works for which it was used as well as artists thinking more broadly across the early modern world

Paper and Light Julian Brooks,Michelle Sullivan,2024-10-29 This volume looks at the techniques and materials that artists have utilized since the Renaissance to create spectacular light effects in drawings The treatment of light and shadow is one of the building blocks of drawing From techniques such as highlights and reserves to material selection and the creation of translucent tracing paper to the use of light as a medium for viewing artworks artists for hundreds of years have found innovative and dazzling ways to create light on a sheet of paper This publication examines the central relationship between paper and light in the world of drawings in western European art from the Renaissance to the twentieth century Focusing on drawings from the collection of the J Paul Getty Museum as well as works from the British Museum Mus e du Louvre and others and featuring masterful works by such artists as Parmigianino Leonardo da Vinci Nicolas Poussin Odilon Redon Edgar Degas and Georges Seurat Paper and Light will entice readers to look longer and more closely at drawings deriving an even deeper appreciation for the skill and labor that went into them This volume is published to accompany an exhibition on view at the J Paul Getty Museum at the Getty Center from October 15 2024 to January 19 2025 Insects and Colors between Art and Natural History ,2024-10-28 This book explores how European naturalists and artists perceived investigated and presented the relationship between insects and colors from the late sixteenth to the late eighteenth century The contributors to this volume examine the creative methods and strategies that were developed to record color related information about insects through studies on Hoefnagel s glazed metal and hand coloring practices the lepidochromy technique used in paintings by Marseus van Schrieck and later naturalists the representation of sexual dimorphism of color and variable color of caterpillars in the images of Goedaert Merian Albin and R sel von Rosenhof the painting by numbers technique applied to Sch ffer s bookplates on Regensburg insects Schifferm ller s watercolor originals of caterpillars and finally the color fading of exotic cabinet specimens and how this issue was tackled by Abbot and Smith The volume is lavishly illustrated with rare and unpublished images and offers new insights into the interrelation between natural history and visual practices concerning the color of insects with a special focus on butterflies and moths Contributors are Harald Bruckner Kay Etheridge Beth Fowkes Tobin Stefanie Jovanovic Kruspel Karin Leonhard V E Mandrij Kimberly Schenck Stacey Sell Giulia Simonini and Friedrich Steinle **Jan van Eyck within His Art** Alfred Acres,2023-06-26 A new assessment of the inventive and influential artist Jan van Eyck Jan van Eyck 1390 1441 was one of the most inventive and influential artists in the entire European tradition The realism of his paintings continues to astound observers more than six centuries on even though our world is saturated by high resolution images However viewers today are as like to be absorbed by Van Eyck s personality as his realism While he sometimes directly painted himself into his works he also suggested his presence through an array of inscriptions signatures and even a personal motto Incorporating a wealth of new research and recent discoveries within a

fresh exploration of the paintings themselves this book reveals how profoundly Jan van Eyck transformed the very idea of what an artist could be **Albrecht Dürer and the Epistolary Mode of Address** Shira Brisman, 2017-01-20 Art historians have long looked to letters to secure biographical details clarify relationships between artists and patrons and present artists as modern self aware individuals This book takes a novel approach focusing on Albrecht Dürer Shira Brisman is the first to argue that the experience of writing sending and receiving letters shaped how he treated the work of art as an agent for communication In the early modern period before the establishment of a reliable postal system letters faced risks of interception and delay During the Reformation the printing press threatened to expose intimate exchanges and blur the line between public and private life Exploring the complex travel patterns of sixteenth century missives Brisman explains how these issues of sending and receiving informed Dürer's artistic practices His success she contends was due in large part to his development of pictorial strategies an epistolary mode of address marked by a direct intimate appeal to the viewer an appeal that also acknowledged the distance and delay that defers the message before it can reach its recipient As images often in the form of prints coursed through an open market and artists lost direct control over the sale and reception of their work Germany's chief printmaker navigated the new terrain by creating in his images a balance between legibility and concealment intimacy and public address *The Renaissance Nude* Thomas Kren, Jill Burke, Stephen J. Campbell, 2018-11-20 A gloriously illustrated examination of the origins and development of the nude as an artistic subject in Renaissance Europe Reflecting an era when Europe looked to both the classical past and a global future this volume explores the emergence and acceptance of the nude as an artistic subject It engages with the numerous and complex connotations of the human body in more than 250 artworks by the greatest masters of the Renaissance Paintings sculptures prints drawings illuminated manuscripts and book illustrations reveal private sometimes shocking preoccupations as well as surprising public beliefs the Age of Humanism from an entirely new perspective This book presents works by Albrecht Dürer Lucas Cranach and Martin Schongauer in the north and Donatello Raphael and Giorgione in the south it also introduces names that deserve to be known better A publication this rich in scholarship could only be produced by a variety of expert scholars the sixteen contributors are preeminent in their fields and wide ranging in their knowledge and curiosity The structure of the volume essays alternating with shorter texts on individual artworks permits studies both broad and granular From the religious to the magical and the poetic to the erotic encompassing male and female infancy youth and old age *The Renaissance Nude* examines in a profound way what it is to be human Unzeitgemäße Techniken Magdalena Bushart, Henrike Haug, Stefanie Stallschus, 2019-03-11 Künstlerische Verfahren entstehen und verschwinden Dieser historische Wandel gilt als wesentlicher Motor für eine Entwicklung der Kunst Nicht selten jedoch wird ein altes Wissen um frühere Herstellungsprozesse wiederentdeckt bewusst reaktiviert und dadurch erneuert Mit dem Interesse an unzeitgemäßen Techniken bilden sich historische Narrative heraus die die Wahrnehmung und Deutung von Kunst beeinflussen Ausgehend vom frühen Mittelalter

bis in die Gegenwartskunst widmet sich dieser Band den technischen Anachronismen durch die Traditionen gebildet aber auch durchkreuzt werden **Northern European Metalpoint Drawings** Joanna Russell, Judith Rayner, Jenny Bescoby, 2017

This volume presents the results of a comprehensive non invasive technical examination of 30 northern European metalpoint drawings in the collection of the British Museum most of which were included in the exhibition Drawing in Silver and Gold Leonardo to Jasper Johns shown at the British Museum London and the National Gallery of Art Washington in 2015

Metalpoint is a drawing technique closely associated with the linear aesthetic of the 15th century but its unique qualities were still being explored by artists such as Hendrick Goltzius throughout the following century Using an approach developed for previous research on Italian Renaissance drawings the authors of this study combined visual examination methods with technical imaging and chemical analysis in order to uncover new information on the materials used by different artists and explore the variations in their drawing techniques The resulting data is used to make comparisons and associations between various works and also shows how northern European artists particularly those from the Netherlands differed profoundly from their counterparts south of the Alps in the innovative way they used incised lines to emphasise certain details in their drawing The detailed discussion and documentation presented in this study complements an earlier volume on Italian Renaissance drawings and will be of great interest to anyone engaged in studying or caring for old master drawings
