Lvl. 2)** Marion Hindes, 2006 *ENC Focus*, 2001 Doing History Linda S. Levstik, Keith C. Barton, 2022-09-06 Now in its sixth edition Doing History offers a unique perspective on teaching and learning history in the elementary and middle grades Through case studies of teachers and students in diverse classrooms and from diverse backgrounds it shows children engaging in authentic historical investigations often in the context of an integrated social studies curriculum The book is grounded in the view that children can engage in valid forms of historical inquiry asking questions collecting and analyzing evidence examining the varied perspectives and experiences of people in the past and creating evidence based historical accounts and interpretations Grounded in contemporary sociocultural theory and research the text features vignettes in each chapter showing communities of teachers and students doing history in environments rich in literature art writing and discussion The authors explain how these classrooms reflect contemporary principles of teaching and learning and thus the descriptions not only provide specific examples of successful activities but also place them in a context that allows teachers to adapt and apply them in a wide range of settings Doing History emphasizes diversity in two ways Readers encounter students from a variety of backgrounds and see how their diverse experiences can form the foundation for learning and they also see examples of

how teachers can engage students with diverse experiences and perspectives in the past including those that led to conflict and oppression The book also discusses principles for working with English learners and newcomers and it provides guidance in using multiple forms of assessment to evaluate the specifically historical aspects of children s learning Updates to this edition include updated historical and instructional examples to ensure currency new suggestions for children s literature to support good teaching expanded attention to teaching about oppressed groups in history and greater attention to when historical perspective taking is and is not appropriate

Empowered Educators in China Mistilina Sato,2017-02-23 BEST PRACTICES FROM CHINA S HIGH PERFORMING SCHOOL SYSTEM Empowered Educators in China is one volume in a series that explores how high performing educational systems from around the world achieve strong results The anchor book Empowered Educators How High Performing Systems Shape Teaching Quality Around the World is written by Linda Darling Hammond and colleagues with contributions from the author of this volume Empowered Educators in China describes the nation s policy reforms that built the modern Chinese educational system and the educational practices that are considered typical in China The book spotlights Shanghai s system which is distinctive and superior Shanghai offers a clear illustration of an educational system that continually invests in educating a diverse student population and by measures of international comparison tests is achieving outstanding results Many factors contribute to the Shanghai system s ongoing success including the students motivation toward strong performance the parental support for education that is culturally ingrained throughout the country the focus that teachers place on high expectations for students and the individual tutoring they provide The author argues that these factors are only a partial explanation of Shanghai s success and then closely describes educational policies that support teachers preparation hiring ongoing development and opportunities for awards and leadership These policies are based on the assumption that teachers are key to the nation s future and must be appropriately supported in order to contribute to student performance and achievement an assumption that is also explicitly stated within Chinese law This volume offers specific descriptions of how these national policies are translated adapted and enacted in Shanghai

Resources in Education ,2001-04 [Integrative Strategies for the K-12 Social Studies Classroom](#) Timothy Lintner,2013-03-01 While the concept of integration or an interdisciplinary curriculum has been around for decades the purposeful practice of integration is a relatively new educational endeavor Though classroom teachers often say they integrate there generally seems to be a lack of understanding of what this thing called integration is theory and what it is supposed to look like in the classroom practice Arguably no other discipline has felt the pressure to integrate more than social studies Marginalized by federal initiatives such as No Child Left Behind and suffering from a general crisis of credibility social studies has been pushed further and further to the proverbial back burner of educational importance Yet regardless of perspective or position social studies remains ripe for integration The crux of this book is to provide educators insights and strategies into how to integrate social studies with other discipline areas Calling upon national experts in their

respective fields each chapter chronicles the broad relationship between individual content areas and social studies Multiple examples of integrative opportunities are included At the end of each chapter is a series of grade specific integrative lesson plans ready for implementation This book was purposefully designed as a how to hands on ready reference guide for educators at all stages and all levels of teaching
