## Connecting to server

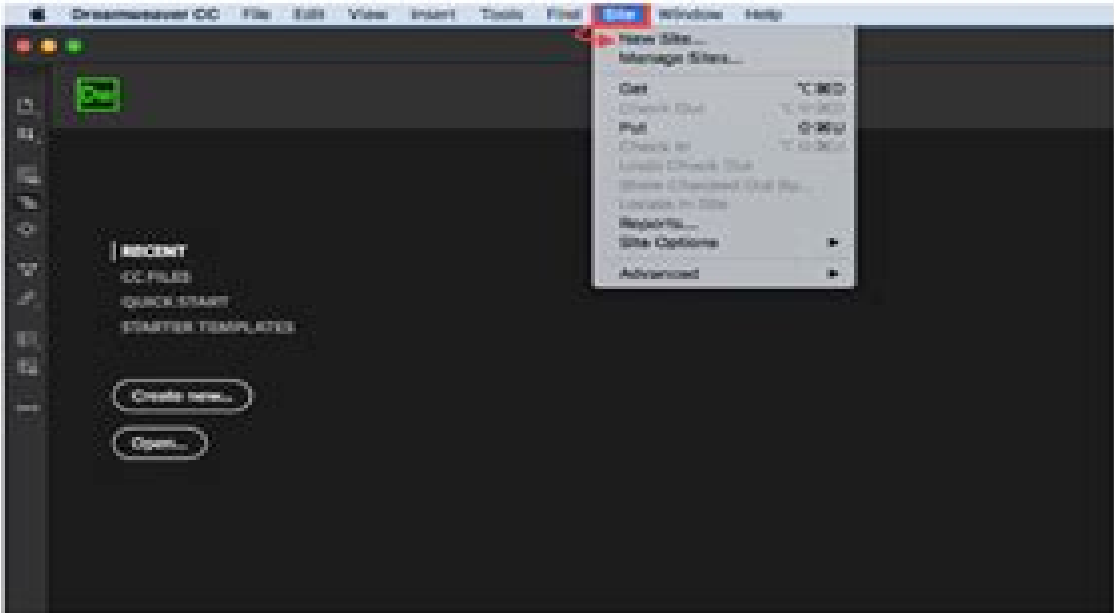

### Step 1: Making a local folder

This process depends on which Operating System you are using. The folder can be made wherever you want in your computer. Be sure to remember the location to be used in further steps. The folder can also be called whatever you decide. I recommend to call it "tbh\_local".

### Step 2: Making a New Site

Open Dreamweaver. On the topmost toolbar select "Site" and then "New Site".
