Mochizuki, 2017-07-05 Debunking the myth of the stark white Protestant church interior this study explores the very objects and architectural additions that were in fact added to Netherlandish church interiors in the first century after iconoclasm In charting these additions Mia Mochizuki helps explain the impact of iconoclasm on the cultural topography of the Dutch Golden Age and by extension permits careful scrutiny of a decisive moment in the history of the image Focusing on the Great or St Bavo Church in Haarlem this interdisciplinary book draws on art history history and theology to look at the impact of iconoclasm and reformation on the process of image making in the early modern Netherlands The new objects that began to appear in the early Dutch Reformed Church signaled a dramatic change in the form function and patronage of church art and testified to new roles for church government guild and resident Each chapter in the book introduces a major theme of the nascent Protestant church interior the Word made material the Word made memorial and the Word made manifest which is then explored through the painting sculpture and architecture of the early Dutch Reformed Church The text is heavily illustrated with images of the objects under discussion many of them never before published A large number of these images are from the camera of prize winning photographer Tjeerd Frederikse with additional photography courtesy of E A van Voorden This book unveils defines and reproduces a host of images previously unaddressed by scholarship and links them to more familiar and long studied Dutch paintings It provides a religious art companion to general studies of Dutch Golden Age art and lends greater depth to our understanding of iconoclasm as well as the way in which cultural artifacts and religious material culture reflect and help to shape the values of a community Taking up the challenge of an unusual category of objects for visual analysis this **Shaping the Netherlandish Canon** Walter S. Melion, 1991 A treatise on Dutch art on par with Vasari's critical history of Italian art Karel van Mander's *Schilder Boeck* or *Book on Picturing* has long been recognized for its critical and historical influence and yet until now no comprehensive account of the book's conception aims and impact has been available In this in depth analysis of the content and context of Van Mander's work Walter S Melion reveals the *Schilder Boeck*'s central importance to an understanding of northern Renaissance and Baroque art By interpreting the terminology employed in the *Schilder Boeck* Melion establishes the text's relationship to past and

contemporary art theory Van Mander is seen here developing his critical categories and then applying them to Ancient Italian and Netherlandish artists in order to mark changes within a culture and to characterize excellence for each region Thus Melion demonstrates how Van Mander revised both the structure and critical language of Vasari's Lives to refute the Italian's claims for the superiority of the Tuscan style and to clarify northern artistic traditions and the concerns of Netherlandish artists A much needed corrective to the view that Dutch art of the period was lacking in theory Melion's work offers a compelling account of a sixteenth and seventeenth century theoretical and critical perspective and shows how this perspective suggests a rereading of northern art [Aspects of Art Forgery](#) H. van de Waal, 2014-11-14 **Recreating**

Carroll, 2017-07-05 A collection of original essays *Saints Sinners and Sisters* showcases the diverse questions currently being asked by gender scholars dealing with French Netherlandish and German art from the medieval and early modern periods Moving beyond the reclamation of personalities and oeuvres of lost female artists the contributors pose questions about gender and sex within specific historical contexts addressing such issues as intended audience use of the object and patronage These avenues of inquiry intersect with larger cultural questions concerning societal control of women The book's three sections *Saints Sinners and Sisters Wives Poets* are each preceded by a concise introductory essay detailing themes and offering reflective comparisons of theses and information In *Saints* contributors look at women who were positive

exemplar used by society to uphold standards In the second section the essays focus on the power of women's sexuality The third section expands beyond the customary dichotomous division of the first two to examine women in diverse roles not widely studied as positions of women in those times This final section expands our definitions of women's responsibilities and realigns them historically it argues that women and thus gender need to be understood within a much broader historical context and beyond simplistic approaches sometimes superimposed by present day readers on past times This volume answers an acute need for research on the art of Northern Europe prior to the 20th century and highlights the possibilities of new directions in the field The effect of the new scholarship presented here is to broaden the discursive field allowing fluidity of disciplinary boundaries resulting in a volume that is illuminating to historians of more than art alone [The Routledge Companion to Medieval Iconography](#) Colum Hourihane, 2016-12-19 Sometimes enjoying considerable favor sometimes less iconography has been an essential element in medieval art historical studies since the beginning of the discipline Some of the greatest art historians including M le Warburg Panofsky Morey and Schapiro have devoted their lives to understanding and structuring what exactly the subject matter of a work of medieval art can tell Over the last thirty or so years scholarship has seen the meaning and methodologies of the term considerably broadened This companion provides a state of the art assessment of the influence of the foremost iconographers as well as the methodologies employed and themes that underpin the discipline The first section focuses on influential thinkers in the field while the second covers some of the best known methodologies the third and largest section looks at some of the major themes in medieval art Taken together the three sections include thirty eight chapters each of which deals with an individual topic An introduction historiographical evaluation and bibliography accompany the individual essays The authors are recognized experts in the field and each essay includes original analyses and or case studies which will hopefully open the field for future research **The J. Central among the donors were King Philip II of Spain and Joris van Egmond Bishop of Utrecht who worked together to reform the Church. The inventor of the iconographic program a close associate to the bishop as well as the king strove to renew Catholic art by taking the words of Jesus as a starting point. Defining Catholic religion based on widely accepted biblical truths the ensemble shows that the Mother Church can accommodate all true Christians.

successful Batavian Revolution of 1795 For the United Provinces that age had begun after a series of crises in 1747 and resulted in the unprecedented establishment of a single individual in the office of chief executive in all of the component provinces The new form which emerged from the foreign and domestic threats of midcentury was that of a hereditary Stadhouder in the House of Orange That family had served the Dutch state in varying capacities and with disparate consequences from its inception in the Revolt of the sixteenth century through the triumphs of the Golden Era to the less glorious days of the Periwig Period The accession of William IV in 1747 his early death followed by a lengthy regency from 1752 and the accession of his son William V as eminent head of each province and chief officer of the Generality in 1766 all brought forth renewed scrutiny of the family and the offices of the Princes of Orange in the political life of the Republic Those who were most critical of the new powers of the Stadhouderate and most desirous of reducing the dangers they saw threatening the state from the aggrandizement of that office came to usurp the nearly exclusive use of the hoary title of Patriot
