Vroegmoderne geschiedenis in actuele debatten Jasper van der Steen,Hans Cools,2023-12-02 De vroegmoderne periode kan de laatste jaren rekenen op

grote belangstelling in Nederland en Vlaanderen In maatschappelijke discussies over nationale identiteit onderwijs en de erfgoedsector wijzen opiniemakers bijvoorbeeld graag op de economische politieke sociale en culturele verworvenheden van de periode voor 1800 Deze interesse in het verleden is uiteraard toe te juichen maar het politieke gebruik van historische verwijzingen staat ook op gespannen voet met wetenschappelijke geschiedbeoefening Beleidsmakers lijken geschiedenis te zien als een grabbelton waaruit ze naar believen kunnen putten Vele vroegmodernisten staan dan ook eerder sceptisch tegenover de maatschappelijke benutting van academische inzichten Hoe gaan historici van de vroegmoderne tijd best om met deze praktijk Deze vraag staat centraal in dit nummer van Nieuwe Tijdingen De bijdragen besteden onder andere aandacht aan het gebruik van vroegmoderne geschiedenis in discussies over canonvorming post kolonialisme nationalisme en historische vergelijkingen Het jaarboek werpt daarmee nieuw licht op de vraag hoe en waarom onderzoek over de vroegmoderne periode wordt geïnstrumentaliseerd en gerepresenteerd in actuele maatschappelijke debatten en welke rol vroegmoderne historici daarbij zouden kunnen spelen

Archievenblad, 2005 **Erasmus en het poldermodel** Herman Pleij, 2005 Monumenten van beleid Sjoerd Keulen, 2014 Monumenten van Beleid laat zien hoe topambtenaren politici en sociale wetenschappers vanaf de wederopbouw tot de opkomst van Pim Fortuyn gezamenlijk het rijksoverheidsbeleid ontwikkelden De grote veranderingen in de Nederlandse verzorgingsstaat worden aan de hand van ideaaltypes van beleid op het gebied van landbouw ontwikkelingssamenwerking gevangenzorg en milieubeleid geduid Gebaseerd op omvangrijk archiefonderzoek biedt deze studie een inkijk in de besloten burelen van de overheid en de achterkamertjes van de politiek Zo wordt duidelijk hoe tijdens de wederopbouw boerenorganisaties met behulp van economische modellen koehandel met de melkprijs bedreven We zien ook hoe ambtenaren van ontwikkelingssamenwerking in hun poging het jongerenprotest buiten het departement te houden het lid op de neus kregen waarom gevangenen in de jaren zeventig geen tralies kregen en het milieubeleid in de jaren tachtig werd geïnspireerd door managementgoeroes Deze vier casestudies leggen de tijdgebonden en ideologische context van het beleid bloot

Trends in EU Health Care Systems Winfried de Gooijer, 2007-03-20 For decades the nations of the European Union wrote the book on universal health coverage Recent economic developments however have created problems ranging from widening inequities of care to growing numbers of

uninsured a progression expertly described by Win de Gooijer in Trends in EU Health Care Systems De Gooijer's dual background as an economist and the CEO of Dutch health care corporations together with his broad international experience give him a unique understanding of his subject He traces world economic currents that have affected quality of and access to health care throughout the EU trends that took years to develop but are coming to rapid fruition Comparative illustrations from Europe and the US show national interests at odds with global ones as governments transfer social responsibilities to market driven agencies Included in his discussion Expansion versus reform a forty year analysis of Europe's health care systems Why governments cannot completely control the always evolving dynamics of health care Ethical and medical issues arising from the continent's changing politics Predictions on future directions in EU health care how much change is possible how much is necessary Some may find De Gooijer's ideas startling and the book is bound to be the subject of controversy But it is critical reading for health care managers and policymakers politicians and insurers advanced students of public health in short anyone looking to Europe for the next phase of this far reaching evolution This book is a very important contribution to the debate about the future direction of health policy in Europe It captures the economic and social trends that underpin health systems with a keen and objective eye and poses some very challenging questions about the future It will not be a comfortable read for politicians but it is a book that must be read

Brian Edwards President of the European Hospital and Health Care Federation HOPE The concept of subsidiarity is prohibitive to a sound discussion of health care systems on a European level Economic principles dominate the debate and their consequences for health care are hardly understood The author bridges the gap between economic and health care developments and wrote a book that is essential reading for policy makers and health care managers who really care Rob Koning Past President of the European Health Management Association EHMA The future development of European health policy should not be an exclusively political affair Hospital managers should also be actively involved particularly as regards the design and organization of present and future European hospitals For this purpose this book is a useful and well founded manual It not only clarifies the dangers but also points to the challenges and possible alternative policy options Therefore this book should be in the boardroom of each and every European hospital Willy Heuschen Secretary General of the European Association of Hospital Managers EAHM Win de Gooijer brings immense clarity to a complex issue In this book he draws major and new conclusions and raises many challenging questions We hope this book will draw the attention it deserves
