Equations From God Equations From God:

The God Equation Michio Kaku, 2022-03-29 1 NEW YORK TIMES BESTSELLER The epic story of the greatest quest in all of science the holy grail of physics that would explain the creation of the universe from renowned theoretical physicist and author of *The Future of the Mind* and *The Future of Humanity* When Newton discovered the law of gravity he unified the rules governing the heavens and the Earth Since then physicists have been placing new forces into ever grander theories But perhaps the ultimate challenge is achieving a monumental synthesis of the two remaining theories relativity and the quantum theory This would be the crowning achievement of science a profound merging of all the forces of nature into one beautiful magnificent equation to unlock the deepest mysteries in science What happened before the Big Bang What lies on the other side of a black hole Are there other universes and dimensions Is time travel possible Why are we here Kaku also explains the intense controversy swirling around this theory with Nobel laureates taking opposite sides on this vital question It is a captivating gripping story what is at stake is nothing less than our conception of the universe Written with Kaku's trademark enthusiasm and clarity this epic and engaging journey is the story of **The God Equation**

The Love=God Equation Johan H. F. Van Raay, 2006-02 Neither atheist nor religionist van Raay a cancer researcher brings to this discussion of religious hypocrisy Bible misinterpretation and the rise of fundamentalism the calmly reasoned perspective and understated tone of a neutral observer The result Scintillating reading for both skeptic and devout alike [The God Equation](#) Mike Hockney, 2013-08-26 Euler's Formula is the most beautiful equation in mathematics Yet it's much more It governs the universe and defines the soul Euler's Formula perfectly complements Leibniz's Monadology They form the most powerful intellectual combination ever capable of establishing a true grand unified theory of everything including religion It provides a rational explanation of near death and out of body experiences and homeopathy It overturns Einstein's principle of relativity providing the same results via an absolute framework that restores the reality principle In this groundbreaking book we provide the solution to the Cartesian mind body problem via the Fourier transform which has the Euler Formula as its engine We present the Riemann sphere which works in perfect harmony with the Euler Formula as the ideal working model of the human soul And we give the first ever technical explanation of the process of reincarnation The Euler equation is everything you thought and more It's divine

Coining The God Equation Oswald Eakins, How far will you follow a passion which could end up as a wild goose chase A child's inquisitiveness turned life mission that gifted sleepless nights to Michio Kaku is going to rule the world of Physics This book enraptures the essence and beauty of the world of physics through Michio Kaku's life He was obstinate and dedicated his entire life in quest of a unified theory which ultimately led to the discovery of string field theory Superstring theory and string field theory are the most discussed topics in scientific field now To make public a part of it is one of the most revolutionized thoughts Michio Kaku is striving his best to convey the ideas and new innovations in this field in simple and elegant way to the general public through his books and talk shows Michio Kaku is the co-founder of

String field theory that has the potential to rock the foundations of modern physics that could rapidly overturn the cherished but obsolete notions about our universe It could replace the fundamentals of physics with new mathematics of breathtaking beauty and elegance

Summary of The God Equation Alexander Cooper, 2021-06-13 Summary of The God Equation Chapter 1 The same year Galileo Galilei died a broken man in his prison cell another legend was born in London For Kaku Isaac Newton is the greatest scientist who has ever lived and the modern dream of a unified theory began with him At a time when the church had taught only two laws on Earth and in the heavens Newton's idea proposed a unification that encompassed both The results of his experiments allowed him to conclude that terrestrial and heavenly physics work the same opening the world's eyes to the concept of forces Another remarkable characteristic of Newton's laws was its symmetry An equation is said to be symmetric when it stays invariant even after its parts are rearranged Newton's laws allowed for science to advance at unimaginable levels and his masterpiece Principia is considered one of the field's greatest scriptures Decades after Newton came Michael Faraday and James Clerk Maxwell who unified the concepts of electricity and magnetism laying the foundations of electromagnetism Faraday discovered the existence of magnetic fields which since then have been used to express all known forces in the universe His work laid the foundation for Maxwell's equations who made astonishing developments in physics In 1886 Heinrich Hertz achieved a scientific milestone using Maxwell's equations and To be continued Here is a Preview of What You Will Get A Full Book Summary An Analysis Fun quizzes Quiz Answers Etc Get a copy of this summary and learn about the book

Lucy and David and the God Equation Alan McKenzie, 2011 Lucy a first year physics undergraduate joins forces with David a final year postgraduate student in theoretical physics to crack the ultimate problem why do laws exist that allow the creation of the universe and even the whole multiverse On the journey they confront their own beliefs but the gap between them may be too great for them to admit their growing attraction for each other

[The Conversion of Words to Family Names of God's Hidden Equal Equation](#) Una Mae Watkins Finch-Davis, 2021-08-05 The documents in this book proves peoples daily communication skills oral words or written can be converted to religious Family Names of God's Hidden Equal Equation There are nine conversion words applied to convert words They are Angel Christ Father God Jesus Lord Man Messiah and Son There are people that say I do not believe in God These are people that say religion and states should not be related associated connected with one another because of the religious nature Although people's daily words of communication conversion equal equation have the religious Family Names of God's Hidden Equal Equation King James Version of the Holy Bible 1 Corinthians 2:13-14 stated Which things also we speak not in the words which man's wisdom teacheth but which the Holy Ghost teacheth comparing spiritual things with spiritual But the natural man receiveth not the things of the spirit of God for they are foolishness unto him Neither can he know them because they are spiritually discerned Revelation 1:8-11 Jesus stated I am Alpha and Omega the beginning and ending I am Alpha and Omega the first and the last Jesus's statement can relate to people's daily words of communication

and does when the words are spelled using the English Alphabet Letters and their located number of the English Alphabet Plus one can employ the mathematic expectation of symbolic logic to achieve Family Names of God s Hidden Equal Equation For example Good morning Equal 131 14 145 The Family Names of God s Hidden Equal Equation are Father Lord Christ Man Father 6 18 24 Lord 12 4 16 Christ 3 8 18 9 19 20 77 Man 13 1 14 28 24 16 77 28 145

One Simple Equation David N. Heizer, 2020-03-17 The book One Simple Equation will take the reader on an inventive journey exploring Christian faith by introducing a revolutionary mathematical equation An equation that helped the author a devout atheist for forty two years discover and understand with complete clarity the truth of the Gospel and the power of God s love After coming to the realization that some of the greatest most promising theories in modern science share the same narrative as the Biblical description of creation God placed on author David Heizer s heart an equation that would ultimately bring him to Jesus Christ The equation $F \cdot T \cdot L^3$ is a simple expression of Christian faith It is of profound importance that this book is rooted in God s love and His greatest expression of that love Jesus Christ The reader will learn why a mathematical expression of Christian faith illustrates our belief in God and Christ as our saviour so concisely All people understand Mathematics making it a universal language understood by all regardless of race nationality ethnicity or language $1 + 1 = 2$ is the same for all human beings Math is also the language of God as all things in the universe God s creation can be expressed mathematically from the swirling motion of the planets and stars and the human genome to the computer programs and phone apps we use every day This fascinating equation will reveal to the reader Biblical truth and understanding Inspired by Einstein s theory of relativity and God himself the equation is broken down into three simple terms F representing Faith what we are solving for T representing Trust which is a variable that changes from one day to the next and L representing God s Love a steadfast never changing never failing constant we can all rely on Raising God s love to the power of three represents the Trinity the Father Son and Holy Spirit The more Trust we apply to God s love the greater our faith becomes Read the testimonies of people getting through life s most difficult challenges by placing their trust in God s love The reader will then be taken through a series of chapters that replace the constant love of God with other idolatrous terms such as money material possessions addictions and the self and how these temporary corruptible terms fail at producing a sound faith on which to build life giving principles This one simple equation unlocks the meaning of life and answers one of the most difficult questions facing Christians today How can a loving God allow bad things to happen to good people This simple yet profound illustration of our faith reveals all this and much more

The God Factory Mike Hockney, 2011-10-23 Illumination the religion of the Ancient Order of the Illuminati began with Pythagoras and is the world s only Logos religion i e a rational religion founded on mathematics science and philosophy It has no connection with Mythos religions such as Judaism Christianity and Islam Illumination is the Grand Unified Theory of Everything linking science religion psychology philosophy and even the paranormal It does so via the only medium of truth and absolute knowledge mathematics which Pythagoras

enigmatically declared to be the arche the fundamental substance of existence Whereas science is based on mathematical materialism Illumination uses Leibnizian mathematical idealism This is one of a series of books providing the ultimate answers to the nature of existence **Equations from God** Daniel Jared Cohen,2007 Cohen captures the origins of the rebirth of abstract mathematics in the intellectual quest to rise above common existence and touch the mind of the deity

Equations from God Daniel J. Cohen,2007-04-08 Throughout history application rather than abstraction has been the prominent driving force in mathematics From the compass and sextant to partial differential equations mathematical advances were spurred by the desire for better navigation tools weaponry and construction methods But the religious upheaval in Victorian England and the fledgling United States opened the way for the rediscovery of pure mathematics a tradition rooted in Ancient Greece In Equations from God Daniel J Cohen captures the origins of the rebirth of abstract mathematics in the intellectual quest to rise above common existence and touch the mind of the deity Using an array of published and private sources Cohen shows how philosophers and mathematicians seized upon the beautiful simplicity inherent in mathematical laws to reconnect with the divine and traces the route by which the divinely inspired mathematics of the Victorian era begot later secular philosophies *God* Jean Paul Corriveau,2021-07-31 Drawing on fundamental notions from quantum physics this book uses logic and careful reasoning to prove that God exists but not in the way most think Jean Paul Corriveau who earned degrees in mathematics and computer science explains how long held beliefs about God are all wrong After reading you ll know God is neither the source of intelligence nor consciousness and not the least involved in life and its evolution Nature has no design and intelligence is a product of evolution God is nowhere in the universe but He is its energy source There is no heaven hell or afterlife The author argues that the evolution of nature and life from the Big Bang onward is from randomness and luck There was never an intent God is the only nonphysical entity so prayers don t reach Him The relationships between God humans the universe and Earth aren t what the Bible tells us or what people think Join the author as he explores how we know God exists and what that really means *God's Formula for Success and Prosperity* Oral Roberts,2018-12-01 Here are eleven personal biographies gathered and edited by G H Montgomery Editor of Oral Roberts magazine HEALING to dramatically illustrate GOD S FORMULA FOR SUCCESS AND PROSPERITY and to prove what the power of God will do for those who use their faith in Him and live according to His laws These eleven people tried to out give God and failed for the more they gave of their substance and themselves the more God prospered them Here are eleven inspiring stories which are true You will read them and enjoy them and when you are discouraged and feel that you have been passed by you will read them again and be encouraged For this is the proof of what Oral Roberts preaches shown in his lives of men who are unusual only because they believed they trusted and they gave what they had without thought of reward and were prospered GOD S REAL ESTATE MAN GOD S PLOWMAN GOD S DAIRY MAN GOD S TOOL AND DIE MAKER GOD S AUTOMOBILE MAN GOD S CONTRACTOR GODS POULTRY MAN GOD S

MINISTERING SERVANT GOD S BANKER GOD S KEEPER OF THE TOMB GOD S MAN FOR THIS HOUR **Equation of God** Rocky Cosmo Manu,2010-04-13 Throughout early and modern history many men have pondered the questions how why and what created the universe Of course most of these questions in early history were simply answered by appealing to the notion of a God or Gods However modern culture has progressed to a stage where these notions of God or Gods and their definitive meanings have to be questioned For example who exactly is God What is God Where does God exist in relation to the universe What role did God play in the creation of the universe Mans relationship to God must also be questioned his mind his thoughts his soul where is the connection Life death life after death where does it fit in to Gods big picture because for us to truly understand Gods purpose for existence we must first understand Gods method of creation For Gods method of creation will unlock mans mind and spirit from its physical boundary of isolation This book is a philosophical approach to the reality of creation evolution and the paradox of the universe it deals with Gods spiritual entity This is an answer to a question and an observation which forms a mental as well as visual understanding that climaxes into an equation of God *The Mathmos* Mike Hockney,2014-09-12 The universe is nothing like how it appears to us So what s it really like What is it in itself Neither our senses nor any experiments can reveal the ultimate truth of existence Fortunately one thing can reason We inhabit the Mathmos the mathematical cosmos This book reveals the compelling secrets of the hidden reality that we will never once see but we can surely know thanks to mathematics Do we live in a rational universe or a random universe This is the choice between a mathematical universe and a scientific universe The mathematical universe has a rational ultimate answer the scientific universe does not The scientific universe is magicked out of non existence as if out of a magician s top hat Are you a member of the magicians cult of science Nothing is more alchemical than modern science You can generate a cosmos out of randomness in nothingness which is a much greater trick than merely manufacturing gold from lead **The God of Science** Arvid Reuterdaahl,1928 **Eerdmans Commentary on the Bible** James D. G. Dunn,John William Rogerson,2003-11-19 2ND COPY AVAILABLE FOR LOAN **Causation and the Principle of Sufficient Reason** Mike Hockney,2015-02-09 The cleverest people in the world are those most capable of making the least expected connections between apparently disparate things This book explains how light life mind souls causation motion energy ontological mathematics and ontological reason are all synonymous Are you one of the rare few capable of seeing the light Can you see the hidden mathematical order beneath the Grand Illusion presented to our senses Only those on the verge of Enlightenment have any hope of understanding ontological mathematics the science of the soul the science of the unseen light of the Universal Mind It s all in the math If then you do not make yourself equal to God you cannot apprehend God for like is known by like Hermes Trismegistus The Internet Revolution in the Sciences and Humanities Alan G. Gross,Joseph E. Harmon,2016-05-10 The Internet Revolution in the Sciences and Humanities takes a new look at C P Snow s distinction between the two cultures a distinction that provides the driving force for a book that contends that the Internet revolution

has sown the seeds for transformative changes in both the sciences and the humanities It is because of this common situation that the humanities can learn from the sciences as well as the sciences from the humanities in matters central to both generating evaluating and communicating knowledge on the Internet In a succession of chapters the authors deal with the state of the art in web based journal articles and books web sites peer review and post publication review In the final chapter they address the obstacles the academy and scientific organizations face in taking full advantage of the Internet outmoded tenure and promotion procedures the cost of open access and restrictive patent and copyright law They also argue that overcoming these obstacles does not require revolutionary institutional change In their view change must be incremental making use of the powers and prerogatives scientific and academic organizations already have

Putting God Into Einstein's Equations Marcia Pollock, 2012-04 Putting God Into Einstein's Equations Energy of the Soul is the direct outcome of an unusual and unique collaboration by soul mates Marcia and Jerry Pollock spanning the spiritual and physical worlds Marcia is deceased and her contributions come from the powerful intelligent energy of her Divine soul which is without her physical body in the spirit world Jerry is alive with his Divine soul which is constrained within his physical body on planet Earth Communicating through thought energy telepathy or channeling the authors have written this exquisitely simply explained book in their humble attempt of gratitude to bring new knowledge to the understanding of God's Essence and our world The Creator Himself has endorsed our book TRUTH LOVE AND WISDOM LIE WITHIN THESE PAGES Putting God Into Einstein's Equations Energy of the Soul is a provocative book that will stay with you long after you finish reading it Have you ever wondered about how a psychic contacts a spirit or where God comes from The book answers questions about God the big bang Einstein's Relativity Equations and how they fit in with God's energy soul mates and love the spirit world of souls past lives telepathic thought energy communication channeling removing negative body soul energy intelligence of the soul independent and combined functions of the soul versus the human brain acquiring spirituality miracles resurrection and reincarnation the Devil good and evil science and spirituality Creation and Evolution and how a new soul that God will give us in the future Messianic Age at the End of Days will allow us to live for the eternity according to Einstein's Equations God is energy and so is our Divine soul Each of us receives a tiny piece of God's virtually infinite energy and the difference between our energy and that of God is simply the enormous difference in order of magnitude when comparing God's energy to ours The behavior of this energy mirrors the equations brilliantly originated and described by Albert Einstein with two exceptions the mass m referenced in Einstein's famous equation $E = mc^2$ is a special Mass M originating in God's energy particles and God's and our soul energy travels at one million times the speed of light c or 186 billion miles per second In fact this Mass is the source of the independent intelligence and sensory properties found in the soul of all human brains Putting God Into Einstein's Equations Energy of the Soul is a provocative and compelling book that weaves together empirical scientific observation academic research and theoretical and theological considerations bolstered by revelatory first hand

testimony bearing witness to the existence of the Divine soul in both the physical and spirit worlds Contained in the pages of Putting God Into Einstein s Equations are moving personal reflections on the authors life experiences from the thrill of discovering one s true soul mate to both traumatic and joyous events like a descent into bipolar depression Divine miracles and the pain and loss associated with the death of a loved one Equally explored and discussed are practical first hand experiential techniques for hypnotic spiritual world regression and directing spiritual energy and using light to alleviate negative forces Above all else Putting God Into Einstein s Equations seeks to advance an awareness and comprehension of God drawing upon points of reference as diverse as Qigong and yoga to the word of rabbinical scholars
