

An abstract artwork featuring a textured background of warm, earthy tones (browns, oranges, and yellows). In the foreground, there are several overlapping, translucent red geometric shapes, possibly representing petals or leaves, which are layered over a lighter, more textured area. The overall composition is dynamic and layered.

The Invention of Monotheist Ethics Hillel I. Millgram, 2009-12-04 The Invention of Monotheist Ethics Volume I presents a comprehensive analysis of the Biblical Book of Samuel Usually taken to be a socio political history of ancient Israel during a turbulent century of change The Invention of Monotheist Ethics contends that beneath this surface level the true focus of Samuel is a profound appraisal of power its seductive appeal and its drastic limitations Thus Samuel emerges as a radical critique of our power based world and the way we its inhabitants order our lives Taken together with the contention that the Book of Samuel was written by a woman the Biblical book emerges as a woman s critique of a man s world This assessment concludes by proposing an alternative to the world we know a world based on care and concern Relying on recent sociological studies this work explores the ramifications of an ethic based on care rather than justice The Expositor Samuel Cox, 2024-04-11 Reprint of the original first published in 1882 **A New English Dictionary on Historical**
