showing just how effective the compounds found in cannabis can be in treating a wide range of illnesses and conditions It also examines the laws that continue to prevent its use in the United States While more and more states are now legalizing medical marijuana as a safe and effective treatment method the controversy continues to block its use for the majority of the population in spite of the relief it can provide For those who may be unable to obtain medical marijuana to treat their individual conditions this book is designed to provide options that can offer the much needed help they are seeking *The 9 Steps to Keep the Doctor Away* Rashid A. as the normal muscle and nerve function steady heart rhythm normal blood pressure healthy immune system and strong bones It also helps maintain the blood sugar at normal levels It plays a vital role in preventing heart disease diabetes cancer osteoporosis and a whole range of other dangerous and debilitating diseases Magnesium deficiency is more common than we realise It can be explained by a number of factors with the main reasons being depletion of soil in minerals worldwide due to intensive agriculture Another factor is a compromised digestive tract which includes a large number of people young and old According to American nutritionists an average adult needs 200mg more magnesium per day than what is obtained from a diet The fact is that the dietary magnesium is not sufficient in providing the body with this important mineral Dr Carolyn Dean lists the following conditions which develop in cases of magnesium deficiency or and require magnesium supplementation Acid reflux Adrenal fatigue Alzheimer s disease Angina Anxiety and panic attacks Arthritis Asthma Atherosclerosis Blood clots Bowel disease Brain dysfunction Bruxism or teeth grinding Cholesterol elevation cystitis Depression Detoxification Diabetes Fatigue Headaches Heart disease Hypertension Hypoglycemia Indigestion Inflammation Insomnia IBS Kidney disease Kidney stones Migraine Musculo skeletal conditions muscle cramps fibrositis fibromyalgia GI spasms tension headaches muscle spasms or muscle contractions in any muscle of the body chronic neck and back pain jaw tension Nerve problems Neuralgia Neuritis Neuropathy burning pain muscle weakness numbness paralysis pins and needles seizures and convulsions tingling twitching vertigo confusion Obstetrical and gynecological problems PMS dysmenorrhea female infertility premature contractions preeclampsia and eclampsia cerebral palsy sudden infant death syndrome male infertility Osteoporosis Parkinson s disease Raynaud s syndrome Sports injuries Sports recovery Tongue biting Tooth decay <http://drCarolynDean.com> While there are a number of excellent magnesium supplements on the market oral supplementation is not always effective due to our body inefficiency in absorbing it through the digestive tract One of the reasons is that our intestinal tract gets covered by mucus as we grow older or for other reasons This means that we need to find other ways to bring sufficient magnesium to the body on a regular basis There is a fast way of doing it through intravenous injections but it is not an option for most people since it needs a professional to do it However there is another quick and simple method to supplement this very important mineral This method involves applying magnesium salts through the skin The reason it is a hugely effective method is that our skin has the ability to absorb so ions of magnesium penetrate through the skin into the bloodstream and get delivered to the cells needing it This course gives a very detailed explanation of various aspects of magnesium its role in health symptoms and consequences of magnesium deficiency for health and ways to supplement it through the skin The course is for therapists and members of the public However if you want to learn it in more detail or for professional use with an option to get certified you will need to do the online course You will be able to find information on how to enrol at the end of the book Alternatively feel free to contact me for more details or if you have any questions at <https://purenaturecures.com> get in touch
