*to Teach in Primary Schools* Jane Medwell, 2015-03-19 Full of practical help and guidance this is a must have for primary  
 trainees on school experience whether they are in a school based or university based teacher training programme It begins  
 by helping trainees to plan their own journey through training and beyond Taking control of their own training in this way  
 supports student teachers to approach the course with confidence and secure their first teaching job The book provides  
 guidance on adapting to working in school observing planning and evaluating in school teaching on placement assessing  
 monitoring and reporting on children s progress self evaluation and how to pre empt and resolve issues securing the first  
 teaching job and succeeding in the NQT year For student teachers the experience of school based training is exciting but also  
 challenging this book supports them throughout and prepares them for the journey ahead Student feedback on this book  
 Having been on a variety of teaching placements myself I know just how daunting and overwhelming experiences in school  
 can be at times even with a supportive mentor by your side Hence I felt that this book can smooth out and rectify those  
 worries one may face during a school placement and offers the reader a realistic insight into school experiences In my

opinion the most useful chapter by far is the Moving On chapter near the end of the book This explains how to conclude a school placement what to expect from an interview and even how to set out a CV for a teaching position This was not something I expected to find in this book however it was very much welcomed and is in fact a very important valuable part of the book This is the type of book you can buy on your very first day of teacher training and use well into your days as a newly qualified teacher Jasmin Primary Teacher Trainee University of Northampton
