immediate And it was a long term success thanks to a combination of years of great styling and a vast array of driveline combinations Accomplished racing author Doug Boyce takes a celebratory look at those years of success with a focus on the first 25 years 1955 through 1980 Chevrolets gave rise to such stars as Bill Grumpy Jenkins Jungle Jim Liberman Sneaky Pete Robinson Dyno Don Nicholson Sox Martin Dick Harrell Dave Strickler and many more World champs and fan favorites all drove Chevys The success showed in the record books No brand has won more races and events or has set more national records than Chevrolet And unlike the other manufacturers Ford and Chrysler it was done with little to no factory support Whether you are a hardcore Chevy fan or just love catching up on the history of drag racing during the golden age this nostalgic look at Chevy racing history is sure to entertain for hours on end **Match Race Mayhem** Doug

Dyno Don Doug Boyce,2018-07-16 Many fans of drag racing consider the most interesting era to be from the 1950s through the 1970s the years when the sport really took off During that period so much changed from a speed and technology standpoint that people often refer to this time as the golden age of drag racing Drivers often became associated with a particular manufacturer such as Chevy Ford or Chrysler through sponsorship factory team rides or sometimes simply their own preference The more successful drivers became household names in the drag racing community Chevy had Grumpy

Jenkins Pontiac had Arnie the Farmer Beswick Mopar had Sox Martin and Dandy Dick Landy and Ford's most successful driver of the era was the legendary Dyno Don Nicholson. Nicholson's first wins on a national level were actually in the early 1960s in Chevrolet products. He became extremely successful on the match race circuit. Then in 1964 he switched over to Mercury with the new Comet after General Motors enacted a factory ban on racing activities. He won 90 percent of his match races that year. He stuck with Ford and Mercury products and won throughout the 1960s and 1970s even after Ford also pulled the plug on factory team sponsorship. He made it to the final rounds in nearly 50 national events during that period in addition to winning championships awards and match races along the way. If you are a fan of a certain era of racing a Ford fan or certainly a Dyno Don fan this book will be a welcome addition to your library. [Drag Racing in the 1960s](#) Doug Boyce, 2021-03-15

The 1960s were a fascinating decade on the race scene. Relive the memories today through this wonderful new book. Drag racing has a long and storied history. Many have said that the first drag race happened shortly after the second car was made. While that may or may not be true racing prior to World War II was mostly centered around dry lake activities and top speed runs. After the war drag racing became organized with the formation of the NHRA and during the 1950s many tracks were built across America to accommodate the racers. Technology in the 1950s centered on the manufacturers updating old flathead designs into newer overhead valve designs and the horsepower race really started to heat up. In many forms of racing the 1960s brought technological evolution. The decade began with big engines in even bigger stock chassis and ended with purpose built race only chassis fiberglass bodies fuel injection nitro methane and blowers. Quarter mile times that were in the 13 second range in the beginning of the decade were in the 7 second range by the end. New classes were formed dedicated cars were built for them and many racers themselves became recognized names in the sports landscape. In [Drag Racing in the 60s](#) The Evolution in Race Car Technology veteran author Doug Boyce takes you on a ride through the entire decade from a technological point of view rather than a results based one. Covered are all the classes including Super Stocks Altered Wheelbase cars which led to Funny Cars Top Fuelers Gassers and more. [Drag Racing in the 1970s](#) Doug Boyce, 2025-01-15

Relive the 1970s with this book that covers a sensational and unique decade of drag racing history. In the 1950s drag racing was in its infancy. The sport made incredible technological advancements in the 1960s and that technology was streamlined and refined with a sense of professionalism in the 1970s. It became more difficult for a local homebuilt shoestring budget team to compete at the national level. These teams were priced out of the top classes by larger teams that had more sponsorship money. So the low budget teams dropped to less expensive classes or simply sold their gear and stopped competing. However drag racing in the 1970s was fascinating in its own right. There was still a significant amount of development as well as new classes to celebrate. Funny Cars morphed from altered wheelbase doorslammers in the early 1960s to full blown tube chassis flip top fiberglass bodied beasts by 1970. This led to the creation of the Pro Stock class which was a popular child of the 1970s with its rivalries and connections to the Detroit manufacturers.

In the interest of safety Top Fuel cars became mid engine beasts and they turned out to be faster as well By the end of the decade Funny Cars nearly became full bodied versions of the Top Fuel cars Many of these developments are still evident in NHRA racing today In Drag Racing in the 1970s veteran racing author Doug Boyce takes you chronologically through the entire exciting decade covering the cars the classes and the future hall of fame drivers who raced them The transition to professionalism the big money sponsors the many sanctioning bodies the rivalries and even the lower classes such as Modified Eliminator and Super Stock are chronicled in this illustrated tribute Add a copy to your drag racing library today

Rebels Doug Boyce, 2023-11-06 Learn the entire fascinating story of the American Hot Rod Association AHRA in this wonderfully illustrated color history When the National Hot Rod Association NHRA was formed in 1951 by Wally Parks the reasoning for the formation was to create order from chaos by instituting safety rules and performance standards that helped legitimize the sport of drag racing Some organization was certainly necessary A postwar boom in automotive enthusiasm was reaching new heights and Hot Rod magazine and the NHRA were right in the thick of it The NHRA hosted its first drag racing event in 1953 and in 1955 the organization staged its first national event which was simply called The Nationals The AHRA formed in 1956 as an alternative to the NHRA where the drivers voted on the rules rather than sanctioning bodies and tracks and their influence on the sport was felt almost immediately When the NHRA denied the use of nitromethane in 1957 the AHRA approved it When the NHRA banned aircraft powered dragsters in 1961 the AHRA welcomed them When the NHRA said no to the emerging Funny Car in 1965 the AHRA said yes When fans and racers screamed for a heads up Super Stock category in 1968 the AHRA delivered The AHRA was called a rebel association Some say that it was more of an association that got things done to the delight of fans and racers The AHRA was on equal ground with the NHRA by the 1970s drawing enormous crowds and racer entries In this fascinating history veteran author Doug Boyce tells the story of the AHRA the rise the competition the events and the eventual downfall of the organization After AHRA President Jim Tice passed away in 1982 internal fighting for control of the association resulted in its doom Get the whole story here and add this wonderful volume to your drag racing library **1001 Drag Racing Facts** Doug Boyce, 2015

The Dawn of Pro Stock Steve Reyes, 2013-01-18 Pro Stock is a unique class of racing and one that has changed considerably over the years In its early years Pro Stock was similar to the Super Stock era from a decade before in that it featured cars that seemed to be a lot like a hot rod version of what people were driving on the street While the engines were a little bigger and nastier than most street versions they were not that far removed and fans could really relate to cars like Cudas Mustangs Camaros Mavericks and Vegas going at it on Sunday afternoon These mostly stock bodied cars were after all what most fans wanted their own street version to be Over the years as always seems to happen in racing the original vision morphs into something completely different and in the case of Pro Stock that meant tube frames and flip up fiberglass bodies that resemble nothing seen on the street And in that there becomes a little bit of a disconnect with the fans whose interest in Pro Stock originated in the relative stock appearance of the cars For this reason *The Dawn of Pro Stock* by Steve Reyes is a celebration of the early years when fans could really connect with the cars and brand rivalries were intense Legendary drag racing photographer Reyes was trackside at the biggest and best NHRA events from the mid 1960s throughout the 1990s He had a unique perspective on the development of Pro Stock as he was able to document the evolution of both the cars and drivers as he observed them throughout the season For a genuine insider's view Steve has gotten together his very best shots and supplemented them with some great images from his contemporaries to offer this new collection Steve's own observations punctuate the outstanding images to give the reader a trackside view of Pro Stock's early days unlike any offered before

Mopar Factory Drag Cars 61-72 Steve Holmes, 2022-11 Blast down the quarter mile in your favorite 413 Long Ram 426 Max Wedge and 426 Hemi in Mopar Factory Drag Cars Dodge Plymouth's Quarter Mile Domination 1962 1972 Stock based drag racing throughout the 1960s demanded that the cars competing on the track be genuine production models and that they could be purchased by anyone The strict regulations dictated total commitment from the manufacturers if they were to be successful No one was more committed than Chrysler Chrysler attacked Stock Super Stock drag racing in the 1960s with the same fervor as it did the NASCAR Grand National which itself spawned the reintroduction of the Hemi engine Its engineers designed and produced a new factory Super Stock turnkey race car most years throughout the decade and enjoyed absolute success on the track forever cementing its legendary performance status The introduction of Pro Stock in 1970 brought with it exciting heads up racing

with the expectation of producing multiple winners from a variety of brands. Instead, it resulted in total Mopar supremacy as Hemi-powered Chrysler cars won 12 of the 15 national races throughout the first two years, prompting the NHRA to introduce weight breaks to scupper the Chrysler domination. The new 1972 regulations favored small block-powered compact cars and were the first major step toward Pro Stock spiraling away from its roots and into the tube frame silhouette formula seen today. Racing historian Steve Holmes delves into this fascinating period, capturing the careers of the Ramchargers, Melrose Missile, Bud Faubel, Dick Landy, Sox Martin, Herb McCandless, Don Grotheer, Motown Missile, and countless others, providing a blow-by-blow account of Chrysler's factory drag car programs and the incredible cars it produced to trounce its rivals during the most epic era in Stock drag racing history. *Fire, Nitro, Rubber, and Smoke* Bob McClurg, 2007-02. This book looks back fondly on drag racing's greatest era with 300 of the best drag racing photos ever taken. Tells the stories of the cars, the racers, and the events that made drag racing such a great sport. Photos cover dragsters, funny cars, gassers, altered pro stocks, and exhibition cars, bringing the sights, smells, and sounds of the golden age of drag racing to life.
