Drawing Space Form And Expression:

Drawing Wayne Enstice, Melody Peters, 2003 This highly readable book describes the basic fundamentals of drawing in terms of spatial organization three dimensional form and expressive value Its portfolio of old and new masterworks allows the reader to compare and contrast these exemplary visual models and the accompanying written descriptions clearly explain the works presented This book covers such topics as three dimensional drawing and the picture plane two dimensional drawing positive and negative shape and ambiguous space shape proportion and layout the interaction of drawing and design linear perspective form in space form in light subject matter expression using color drawing the human figure and visualization For creatives in the field of fine arts graphic artists and illustrators *Drawing* Wayne Enstice, Melody Peters, 1996 For art departments offering freshman level courses in Basic Drawing sophomore courses in Drawing II junior courses in Drawing III and Figure Drawing This text addresses the needs of the absolute beginner in drawing but will continue to serve students as they progress toward more sophisticated matters of technique style expression and art historical knowledge Drawing Wayne Enstice, Melody Peters, 2011 For undergraduate courses in Drawing and Figure Drawing An easy to read comprehensive text for drawing students of all levels This highly readable text is designed to address the needs of undergraduate drawing students from beginning through advanced levels Arranged in three sections that reflect the essential aspects of the process of drawing it addresses spatial and compositional organization strategies for depicting three dimensional form and light and it features an extended look at the way subject matter and form interact to produce content This text combines comprehensive coverage of traditional approaches to observational drawing with advanced theory based on the premise that drawing is an art form in its own right This Books la Carte Edition is an unbound three hole punched loose leaf version of the textbook and provides students the opportunity to personalize their book by incorporating their own notes and taking only the portion of the book they need to class all at a fraction of the bound book price *Drawing* Keith Micklewright, 2005 Contrary to assumptions that drawing is a gift that cannot be learned this book demonstrates that it is a highly teachable skill As well as instructing the student how to draw the book also serves as a visual handbook for artists and designers who need to express ideas through drawing Each chapter addresses a key topic in drawing method and theory in order to improve technique and understanding Issues such as perspective and the manipulation of tones and marks to make 3 D forms are tackled in a simple and direct way with a wealth of drawings by the great masters of the medium in addition to diagrams and tables Each section also offers ways for the student to put into practice the ideas and concepts discussed These Ideas to Explore range from practical exercises in drawing to the selection of drawing surfaces such as paper and subjects to discovering ways of thinking *Researching the Teaching of Drawing* Raymond M. Klein, 2022-08-02 The Drawing Laboratory at NSCAD University was founded with funding from the Social Sciences and Humanities Research Council of Canada in 2005 as a collaboration between psychological scientists from

Dalhousie and drawing instructors at NSAD The Drawing Lab is thus a unique place where scientists and artists collaborate on interdisciplinary research about the complex intellectual and practical act of drawing from observation By bringing the scientific method to bear on how drawing processes unfold those involved seek to improve drawing education while furthering research on the cognitive processes involved in drawing The chapters in this book describe that research Perceptual and Cognitive Processes in Drawing from Observation will hold much interest for drawing instructors and students psychologists and neuroscientists with a specialism in art as well as those with a general interest in art and science Authors of this volume are Amanda Burk John Christie Tim Fedak Raymond Klein Geniva Liu Bryan Maycock Mathew Reichertz and Jack Wong

Assessing Expressive Learning Charles M. Dorn, Robert Sabol, Stanley S. Madeja, F. Robert Sabol, 2014-04-04 Assessing Expressive Learning is the only book in the art education field to date to propose and support a research supported teacher directed authentic assessment model for evaluating K 12 studio art and to offer practical information on how to implement the model This practical text for developing visual arts assessment for grades 1 12 is based on and supported by the results of a year long research effort primarily sponsored by the National Endowment for the Arts involving 70 art teachers and 1 500 students in 12 school districts in Florida Indiana and Illinois The purpose of the study was to demonstrate that creative artwork by K 12 students can be empirically assessed using quantitative measures that are consistent with the philosophical assumptions of authentic learning and with the means and ends of art and that these measures can reliably assess student art growth A further goal was to provide a rationale for the assessment of student art as an essential part of the K 12 instructional program and to encourage art teachers to take responsibility for and assume a leadership role in the assessment of art learning in the school and the school district Assessing Expressive Learning reports on current assessment methods but also stresses a time tested portfolio assessment process that can be used or adapted for use in any K 12 art classroom includes the assessment instruments used in the study and several case studies of art teachers using electronic portfolios of student work a bibliography of major art assessment efforts and a critical review of current methods is designed to be teacher and system friendly unlike many other art assessment publications that provide only a review of information on assessment and both documents an experiment where artistic values and aesthetic issues were considered paramount in the education of K 12 students in the visual arts and also serves as a guide for the conduct of similar experiments by art teachers in the nation s schools the research methodology and results are reported in an appendix in a format that will enable educational researchers to duplicate the study This volume is ideal as a text for upper division undergraduate and graduate classes in visual arts education assessment and highly relevant for college art education professors researchers and school district personnel involved in the education and supervision of art teachers and researchers interested in performance measurement
