Drafting Contracts How And Why Lawyers Do What They Do:

Drafting Contracts Tina L. Stark, 2007 A perfect fit for the upper level legal drafting course *Drafting Contracts How and Why Lawyers Do What They Do* teaches the key practices of contract drafting with particular emphasis on how to incorporate the business deal into the contract and add value to the client's deal. By providing many solid examples of quality writing, the book helps students to master the basics and to incorporate similar techniques into their own drafting. This text is also appropriate for use in transactional simulation courses, transactional clinics, advanced writing courses, first year writing courses, first year contracts courses, and interviewing, negotiating, and counseling courses. Many great features ensure the value and reliability of this text. PART I introduces the building blocks of contracts and teaches the analytic skill of translating the business deal into contract concepts so that students learn how and why a drafter chooses a specific contract concept. PART II sets out the framework of an agreement and works through it from the preamble to the signature lines, discussing the business, legal, and drafting issues that occur in each part of a contract. PART III turns to drafting rules for good writing and to techniques for enhancing clarity and avoiding ambiguity. PART IV details how to look at the contract from the client's perspective: what does the client want to achieve and what risks does it want to avoid in order to find and resolve business issues? PART V shows students how to integrate everything they have learned: how to organize a contract, how to use precedents, and how to review and comment on a contract. PART VI addresses ethical issues that arise in drafting. PART VII provides additional exercises, presents a five-prong framework for considering business issues that appear in almost every transaction, money, risk, control, standards, and endgame. Chapter 17, *Adding Value to the Deal*, includes plentiful examples of well-drafted provisions, many based on commercial agreements, provides exercises for use in or out of class individually or collaboratively, including contract mark-ups, new drafting, and both combined into a single exercise. Integrates a single fact pattern throughout many exercises in the book: the purchase of a jet by a never-do-well with significant financial problems and varying fact patterns relating to employment relationships and to assignment and delegation provisions, accompanied by a Teacher's Manual that includes notes explaining the answers to each exercise and answers to questions that students commonly ask, also accompanied by a website that provides all mark-up exercises that can be projected and walked through during class, a template for formatting, and multiple versions of one of the culminating exercises so that professors can use the version best suited to their classes. Public Management in Transition Niels Åkerstrøm Andersen, Justine Grønbæk Pors, 2016-02-17. In the debate over how best to manage public administration and welfare institutions, there exists a great tension between calls to control and calls to generate change. Public Management in Transition takes on this tension, providing an overview of important pathways for implementing innovation in public organization and through it the management of governments. Following an analysis of large scale societal changes, chapters explore the effects these changes have on central public administrations, individual welfare institutions, the management of individuals themselves, both as employees and citizens, and finally how these effects might foment transformations of the form of the state. With text boxes highlighting examples, key concepts, and reflection points from the fields of education, health care, social work, ecology, foreign aid, and political science, Public Management in Transition will appeal to academics, practitioners, and students across a range of disciplines.
