

Drawing Barrier Games

Charlotte Lynch

Drawing Barrier Games:

R.E.A.D. Kimberly Kimbell-Lopez, Carrice Cummins, 2009-10-05 R E A D will help educators turn their students into strategic readers It presents a collection of strategies based on the 5 2 essential elements of literacy instruction oral language phonemic awareness phonics fluency vocabulary comprehension and writing Each section contains a brief conceptual overview as well as specific strategies that can be used to facilitate the development of that literacy process A graphic at the beginning of each strategy identifies when it should be used the most appropriate group size and the grade levels for which it would be most applicable Additional references and or other resources are also provided at the end of each strategy description to provide educators with more information Visualizing Mathematics Kelly S. Mix, Michael T. Battista, 2018-12-07 This unique volume surveys recent research on spatial visualization in mathematics in the fields of cognitive psychology and mathematics education The general topic of spatial skill and mathematics has a long research tradition but has been gaining attention in recent years although much of this research happens in disconnected subfields This volume aims to promote interaction between researchers not only to provide a more comprehensive view of spatial visualization and mathematics but also to stimulate innovative new directions in research based on a more coordinated effort It features ten chapters authored by leading researchers in cognitive psychology and mathematics education as well as includes dynamic commentaries by mathematics education researchers on cognitive psychology chapters and by cognitive psychologists on mathematics education chapters Among the topics included From intuitive spatial measurement to understanding of units Spatial reasoning a critical problem solving tool in children s mathematics strategy tool kit What processes underlie the relation between spatial skill and mathematics Learning with and from drawing in early years geometry Communication of visual information and complexity of reasoning by mathematically talented students Visualizing Mathematics makes substantial progress in understanding the role of spatial reasoning in mathematical thought and in connecting various subfields of research It promises to make an impact among psychologists education scholars and mathematics educators in the convergence of psychology and education **Teaching Reading and Phonics to Children with Language and Communication Delay** Charlotte Lynch, 2018-05-08 Teaching Reading and Phonics to Children with Language and Communication Delay is an accessible and jargon free book full of practical ideas for teaching the first stages of reading and phonics to children who have speech and language delay Written by a bestselling author this invaluable toolkit covers approaches to the teaching of reading for a variety of needs so that no child is left behind Features include a wide range of practical activities useful checklists at the end of each chapter for assessing progress and further planning links to example photo books to demonstrate how reading can be personalised and interactive tips for teaching reading and motivating children in their learning template material which can be photocopied and downloaded as eResources Packed with helpful illustrations and examples that can be used in lessons this book offers a variety of methods of teaching reading

including an emphasis on visual strategies which are well suited to children with language delay and complex communication needs Clear explanations and step by step instructions mean the book can be used by parents as well as non specialist teachers and teaching assistants and the book will be ideal reading for any educators working with young children to improve their literacy

Language Learning and Intercultural Understanding in the Primary School Wendy Cobb, Virginia Bower, 2021-11-29 Language Learning and Intercultural Understanding in the Primary School shows how to deliver a progressive and holistic embedded language curriculum It provides guidance on inclusive approaches for students with English as an additional language including native speakers in the target language as well as language awareness activities that maximise links with learning in English Practical and accessible it contains classroom examples plans resources and pedagogical approaches all underpinned by theory research and practice Each chapter examines specific themes relating to language culture identity and wellbeing providing rich discussions and a range of perspectives Case studies bring to life the examples provided and reflection points offer the reader the opportunity to pause and consider an idea resource or challenging concept before moving on Presenting a lived narrative of shared voices the authors invite readers to learn about their own cultural and linguistic identities and how these relate to their practice This is a must read for teachers language specialists and school leaders who wish for a clear rationale for the role of language culture identity and wellbeing within and beyond the curriculum

Social Communication Difficulties Resource Pack Lucy Prosser, 2017-07-05 Devised by members of the Speech and Language Therapy team in Portsmouth city teaching PCT this advice pack breaks down social communication difficulties into four key areas Language Conversation skills Social skills and Selecting and organising information The pack will facilitate identification and assessment of social

communication difficulties and provide suggested intervention strategies related to specific areas of communication. A range of photocopiable handouts have been created which address each feature identified. The handouts provide a description of the SCD feature, examples of how this might present in children and then a list of practical suggestions for teaching specific skills. It is an excellent practical resource.

Understanding Learning Difficulties in Maths: Dyscalculia, Dyslexia or Dyspraxia? Judy Hornigold, 2017-10-16

Why do some pupils experience maths learning difficulties? How can you determine whether there is a specific learning difficulty such as dyscalculia, dyspraxia or dyslexia? What teaching strategies can help overcome maths anxiety and specific maths learning difficulties? Without doubt, maths is one of the most important subjects taught in schools and yet it is the one subject that can strike fear and dread in children from the very start of their education. In this book, Judy Hornigold explores potential causes of maths learning difficulties and particularly the specific difficulties that learners with dyscalculia, dyslexia and/or dyspraxia experience. It considers how general maths anxiety impedes mathematical development and then examines whether this or a more fundamental and specific difficulty with maths such as dyscalculia is the real root of difficulties. The book then looks in detail at a wide range of strategies to help overcome general maths anxiety and more specific learning difficulties. It addresses four distinct areas: core number reasoning, memory and visual spatial awareness as the main areas of difficulty for learners with dyscalculia; core number and reasoning, dyslexia; memory and dyspraxia; visual spatial awareness.

100 Ideas for Primary Teachers: Numeracy Difficulties and Dyscalculia Patricia Babbie, 2017-04-20

100 Ideas for Primary Teachers: Numeracy Difficulties and Dyscalculia provides specially designed games and activities to help build firm foundations in basic number concepts. All the ideas have been tried and tested in specialist and mainstream schools and are designed to encourage children to talk about numbers in a natural way using everyday contexts. The book begins with a focus on counting skills before moving on to place value, structure, multiplication and division. As well as teaching key facts, the ideas in this book will develop pupils' understanding so that they become flexible thinkers who can use numbers to solve a variety of mathematical problems. The ideas require minimum preparation and resources and are perfect for use in mainstream and specialist classrooms, individual tuition sessions or as homework assignments.

The Teacher's Guide to SEN Natalie Packer, 2017-03-03

In *The Teacher's Guide to SEN*, Natalie Packer outlines what all teachers need to know about SEN and provides a range of practical tips and ideas that can be applied in the classroom. One of the key messages of the Special Educational Needs and Disability Code of Practice first introduced in 2014 is that every teacher is responsible and accountable for every pupil in their class, including those with SEN. So what does this mean in practice for you as a class or subject teacher? Essentially, it requires you to understand every individual's needs, have a range of relevant knowledge and skills, and have the confidence to try out some new approaches. This book is your essential guide to meeting these requirements. *The Teacher's Guide to SEN* details the areas of need teachers are most likely to encounter, including speech, language and communication needs, SLCN, autism or ASD, moderate

learning difficulties MLD specific learning difficulties SpLD including dyslexia dyspraxia and dyscalculia social emotional and mental health needs and physical needs including visual impairment VI hearing impairment HI and physical disability It also provides a useful overview of the many potentially unfamiliar acronyms used in SEN Special educational needs and disability SEND is an umbrella terms which covers a varied array of different needs They may impact upon learning and cognition behaviour social interactions or an individual s ability to access the curriculum and certain activities in the same way as their peers With the appropriate support these needs need not be a barrier to learning as this book demonstrates The Teacher s Guide to SEN offers practical hands on strategies to ensure high quality teaching for all together with key facts real life case studies and questions for reflection The comprehensive advice includes defining special educational needs understanding your responsibilities identifying pupils with SEN and putting support in place as part of the graduated approach contributing to SEN reviews and education health and care plans EHC plans making reasonable adjustments in the classroom delivering inclusive high quality teaching for all raising expectations classroom strategies focused on feedback planning questioning modelling and scaffolding learning developing relationships with pupils and their families effective partnership working with teaching assistants parents and outside agencies and tracking and reviewing progress and provision Relevant to all primary and secondary practitioners this is an essential point of reference for busy teachers including trainees NQTs or indeed any practitioner who would like to refresh their knowledge or gather some new ideas to try in the classroom **Maths**
