INITIATION SCIENCE Rudolf Steiner,2016-11-14 In an astonishing series of lectures on the science of spiritual knowledge Rudolf Steiner begins by addressing an audience in Dornach Switzerland where only months earlier his architectural masterpiece the first Goetheanum had been destroyed by fire He discusses the nature of our planetary system revealing the planets that are characterised by freedom and those that determine destiny The spirits of the moon live in seclusion preserving original wisdom and reflecting powers connected to sexuality whereas the sun creates harmony Jupiter is the thinker whilst the spirits on Saturn act as living memory Speaking in London Steiner states that the things that happen to people in sleep are more important than anything that occurs during waking hours Human beings he says must learn to see themselves as an image of spirits and spiritual activities on earth In a break from the theme and returning to Dornach Rudolf Steiner reports on his recent visit to England and Wales where he attended an educational conference in Ilkley a Summer School in Penmaenmawr and a school for the disadvantaged in the East End of London Steiner speaks of the particular atmosphere he experienced in West Yorkshire and North Wales where remnants of Druid spirituality live in the surroundings The latter theme emerges strongly in the next lectures which examine the Druid priest s sun initiation and perception of moon spirits The Druids investigated the secrets of the universe influencing both social and religious life Steiner also describes the mythic being of Woden who signified the birth of intellectuality and the subsequent fear of death which he asserts can be healed by the Mystery of Golgotha In the final section Rudolf Steiner discusses The past present and future development of the human mind Again he references the importance of Druid culture noting that the ground plans of the stone circles in Penmaenmawr are similar to that of the first Goetheanum He also points to the crucial roles of the ancient Mysteries and Christ s deed in human development     **Dream Reader** Anthony Shafton,1995-01-01 A

William Shakespeare,1907

**Dreams - The Magic of the Night** Kenneth K. Gray,2019-07-22 Dreams The Magic of the Night is for people who want to understand their dreams It shows the reader how to do this through examples from the author s dream journals A framework for understanding dreams is presented in the first few chapters illustrated by examples After that any chapter may be read in any order The first chapter is a short autobiography so that readers will understand where the author is coming from This is important because a basic principle in dream interpretation is that the best interpreter of a dream is the dreamer We know ourselves better than anyone else The goal of dreamwork is always greater self understanding and self awareness The world of dreams is a vast inner universe From physical health to divine revelations dreams give us much that we simply would not understand without them By working with dreams the dreamer gradually uncovers more and more of his her true identity Some dreams make us very uncomfortable as we begin to see where we have maintained a destructive attitude and so have deprived ourselves of fuller richer living Other dreams bring us new insights accompanied by joy and exaltation In the final analysis dreams are a means to an end There is no benefit in just remembering your dreams but never understanding them The goal is to live a wonderful life in our waking hours Dreams The Magic of the Night will put you on a path to the full realization of this
