Dreams Of Earth And Sky:

Dreams of Earth and Sky Freeman Dyson, 2015-04-21 In this sequel to *The Scientist as Rebel* 2006 Freeman Dyson whom The Times of London calls one of the world's most original minds celebrates openness to unconventional ideas and the spirit of joyful dreaming in which he believes that science should be pursued Throughout these essays which range from the creation of the Royal Society in the seventeenth century to the scientific inquiries of the Romantic generation to recent books by Daniel Kahneman and Malcolm Gladwell he seeks to break down the barriers that separate science from other sources of human wisdom Dyson discusses twentieth century giants of physics such as Richard Feynman J Robert Oppenheimer Paul Dirac and Steven Weinberg many of whom he knew personally as well as Winston Churchill's pursuit of nuclear weapons for Britain and Wernher von Braun's pursuit of rockets for space travel And he takes a provocative often politically incorrect approach to some of today's most controversial scientific issues global warming the current calculations of which he thinks are probably wrong the future of biotechnology which he expects to dominate our lives in the next half century as the tools to design new living creatures become available to everyone and the flood of information in the digital age Dyson offers fresh perspectives on the history the philosophy and the practice of scientific inquiry and even on the blunders the wild guesses and wrong theories that are also part of our struggle to understand the wonders of the natural world

The Dialogue of Earth and Sky Timothy J. Knab, 2022-07-12 In Mexico's Sierra Norte de Puebla beliefs that were held before the coming of Europeans continue to guide the lives of modern Aztecs For residents of San Mart n Zinacapan life in and on the earth is animated by the same forces through which people seek to maintain a cohesive view of the relationship of mankind the cosmos and the natural world This delicate balance of the human spirit maintains the health and well being of villagers and is an essential part of the social and ideological framework that makes a person's life whole This book describes the basic elements of a belief system that has survived the onslaught of Catholicism colonialism and the modern world Timothy Knab has spent thirty years working in this area of Mexico learning of the Most Holy Earth and following what its people there call the good path He was initiated as a dreamer learned the prayers and techniques for curing maladies of the human soul and from his long association with the Sanmartinos has constructed a thorough account of their beliefs and practices Learning to recount dreams forming a dreamtale and carrying it on one's back to the waking world is the first part of the practitioner's labor in curing But dreamtales are shown to be more than parables in this world for they embody the ethos and cosmovision that link Sanmartinos with their traditions and the Most Holy Earth Building on this background Knab describes how the open ended interpretation of dreams is the practitioner's primary instrument for restoring a client's soul to its proper equilibrium thus providing a practical approach to finding and resolving everyday problems Many anthropologists hold that such beliefs have long since disappeared into the nebulous past but in San Mart n they remain alive and well The underworld of the ancestors talocan or Tlalocan for the Aztecs is still a vital part of everyday life for the people of the Sierra Norte de

Puebla The Dialogue of Earth and Sky is an important record of a culture that has maintained a precolumbian cosmovision for nearly 500 years revealing that this system is as resonant today with the ethos of Mesoamerican peoples as it was for their ancestors

When They Severed Earth from Sky Elizabeth Wayland Barber, Paul T. Barber, 2012-01-02 Why were Prometheus and Loki envisioned as chained to rocks What was the Golden Calf Why are mirrors believed to carry bad luck How could anyone think that mortals like Perseus Beowulf and St George actually fought dragons since dragons don't exist Strange though they sound however these myths did not begin as fiction This absorbing book shows that myths originally transmitted real information about real events and observations preserving the information sometimes for millennia within nonliterate societies Geologists interpretations of how a volcanic cataclysm long ago created Oregon's Crater Lake for example is echoed point for point in the local myth of its origin The Klamath tribe saw it happen and passed down the story for nearly 8 000 years We however have been literate so long that we've forgotten how myths encode reality Recent studies of how our brains work applied to a wide range of data from the Pacific Northwest to ancient Egypt to modern stories reported in newspapers have helped the Barbers deduce the characteristic principles by which such tales both develop and degrade through time Myth is in fact a quite reasonable way to convey important messages orally over many generations although reasoning back to the original events is possible only under rather specific conditions Our oldest written records date to 5 200 years ago but we have been speaking and mythmaking for perhaps 100 000 This groundbreaking book points the way to restoring some of that lost history and teaching us about human storytelling *Earth & Sky*

Finding Home: Earth, Sky, Ocean, Spirit Carol Thomas, 2012-01-30 About The Book Finding Home Earth Sky Ocean Spirit This book of poems new and selected has been years in the making Nearing a seventieth decade one is reminded of Leonard Cohens admonition to make a record of one's life Adrienne Rich suggests that one finds the deepest truths of a woman's life in her poetry poetry that draws from and illuminates her autobiography Its language is precocious and uncanny in its efforts to explicate the nature of her lived experience I have taught creative writing in a

number of contexts with troubled adolescents in colleges and universities in a womens prison and with patients and clients in my own private practice in New London Connecticut It was always the journaling that revealed and explicated the individuals trauma and allowed them to move to what might be called a quotidian delight which they had not been able to find before that life might hold a quotidian ecstasy was a new and wondrous idea to them and one they could find access to The earth sky ocean spirit and their own embodied and ensouled selves were the means to their own connectedness to the universe Human language began with womans singing her music her natural response to giving life and perceiving the plenitude around her A mother murmuring vowels and consonants soft language of warmth comfort and tenderness There is reason to believe that at one time on the island of Crete long ago there was a woman centered culture in which the values of nurturing living in harmony with the natural world using a language that emerged from this matrix Warriors came the earlier culture was destroyed and the language reflected the new and violent warring culture The new patriarchal lexicon focused on the lived experience of the men It concerned power victory defeat and death It was literal denotative as opposed to connotative it was didactic hierarchical and dismissive of the language and life of the womans perspective It would seem that in contemporary American culture the exclusion of what we might call poetic language that is language that expresses the truth and affects of the human being has become obsolete replaced by patriarchal language ubiquitous in the political violence of the day and the seeming waning of what we thought was an American way of life These poems attempt to illuminate a womans experience of her world They further attempt to suggest the need for Whitmans notion of the need for an increasingly capacious imagination Perhaps men are not from Mars and women from Venus Adrienne Rich suggests there is hope for a common language more in harmony with the truth reality and ambiguity of the natural world And perhaps after all even with the angst and anxiety of living in this world we are all poets soul searching people all of whom experience quotidian ecstasies moments of the pure joy of living mystery and incomprehensibility bringing delight and clarity affirming and confirming the wondrous miracle of our lives

Earth and Sky Jenny H. Stickney Lansing, 1904 Earth and Sky, History and Philosophy Galen A. Johnson, 1989 This book is a philosophical inquiry into historical meaning and narrative understanding Interpreting selected writings of Husserl and Merleau Ponty and stories of Kafka Rilke Sartre and Camus the author defends the narrative coherence of life and the irreducibility of narrative understanding and truth The island imagery uncovered in these authors provides the parameters for a contemporary philosophy of history properly mingling earth and sky as natality and mortality remembering and forgetting wandering and homecoming waking and dreaming wealth and poverty Johnson has pushed the life world theme of Husserls phenomenology out toward the wild flowering world where it seems to have been headed
