something quickly on it what are the several alternative methods of subject searching which are not available on the Web that are usually much more efficient for that purpose than typing keywords into a blank search box with the results displayed by relevance ranking computer algorithms This book shows researchers how to do comprehensive research on any topic It explains the variety of search mechanisms available so that the researcher can have the reasonable confidence that s he has not overlooked something important This includes not just lists of resources but discussions of the ways to search within them how to find the best search terms how to combine the terms and how to make the databases and other sources show relevant material even when you don t know how to specify the best search terms in advance The book s overall structuring by nine methods of searching that are applicable in any subject area rather than by subjects or by types of literature is unique among guides to research Also unique is the range and variety of concrete examples of what to do and of what not to do The book is not about the Internet it is about the best alternatives to the Internet the sources that are not on the open Web to begin with that can be found only through research libraries and that are more than ever necessary for any kind of substantive scholarly research More than any other research guide available this book directly addresses and provides solutions to the serious problems outlined in recent studies documenting the profound lack of research skills possessed by today s digital natives Children's Books in Print, 2007 ,2006 **Metaphors of Confinement** Monika

Fludernik,2019-08-13 **Metaphors of Confinement** The Prison in Fact Fiction and Fantasy offers a historical survey of imaginings of the prison as expressed in carceral metaphors in a range of texts about imprisonment from Antiquity to the present as well as non penal situations described as confining or restrictive These imaginings coalesce into a carceral imaginary that determines the way we think about prisons just as social debates about punishment and criminals feed into the way carceral imaginary develops over time Examining not only English language prose fiction but also poetry and drama from the Middle Ages to postcolonial particularly African literature the book juxtaposes literary and non literary contexts and contrasts fictional and nonfictional representations of im prison ment and discussions about the prison as institution and experiential reality It comments on present day trends of punitivity and foregrounds the ethical dimensions of penal punishment The main argument concerns the continuity of carceral metaphors through the centuries despite historical developments that included major shifts in policy such as the invention of the penitentiary The study looks at selected carceral metaphors often from two complementary perspectives such as the home as prison or the prison as home or the factory as prison and the prison as factory The case studies present particularly relevant genres and texts that employ these metaphors often from a historical perspective that analyses development through different periods **Reference & User**
