Endspiel Revolution 1989 Beck Paperback Ebook:

End Game Ilko-Sascha Kowalczyk, 2022-12-09 The fall of the Berlin Wall and the chain of events leading up to it arguably constitute one of the most thoroughly documented episodes in recent history Nonetheless most accounts have focused predominantly on high level politics and diplomacy along with the most dramatic and photogenic public displays *End Game* a rich sweeping account of the autumn of 1989 as it was experienced on the ground in the German Democratic Republic powerfully depicting the desolation and dysfunction that shaped everyday life for so many East Germans in the face of economic disruption and political impotence Citizens frustration mounted until it bubbled over in the form of massive demonstrations and other forms of protest Following the story up to the first free elections in March 1990 the volume combines abundant detail with sharp analysis and helps us to see this familiar historical moment through new eyes

Revolutions in Modern German History Andrew G. Bonnell, 2025-05-29 Andrew G Bonnell s innovative survey examines the history of revolution in modern Germany by focusing on key revolutionary developments in the German states There is coverage of Germany and the French Revolution the 1848 revolutions the Industrial Revolution the 1918 19 revolution the Nazi revolution of 1933 the revolution from above in Eastern Germany 1945 49 and the revolution in East Germany in 1989 90 *Revolutions in Modern German History* sheds new light on the subject by stressing the continuity of conflicts between revolution and counter revolution in German history thereby restoring a sense of the dramatic social conflicts that punctuated the history of the country It also reveals the significance of wider European and transnational developments of revolutionary and counter revolutionary movements and events Bonnell even reconstructs a sense of the participants changing horizon of expectations during these events by looking in depth at the lives of men and women who lived and experienced these tumultuous times

A History Shared and Divided Frank Bösch, 2018-09-14 By and large the histories of East and West Germany have been studied in relative isolation And yet for all their differences the historical trajectories of both nations were interrelated in complex ways shaped by economic crises social and cultural changes protest movements and other phenomena so diffuse that they could hardly be contained by the Iron Curtain Accordingly *A History Shared and Divided* offers a collective portrait of the two Germanies that is both broad and deep It brings together comprehensive thematic surveys by specialists in social history media education the environment and similar topics to assemble a monumental account of both nations from the crises of the 1970s to and beyond the reunification era
