The Encyclopaedia of Liars and Deceivers Roelf Bolt, 2014-06-15 George Washington may never have told a lie but he may be the only person our history is littered with liars deceivers fraudsters counterfeiters and unfaithful lovers The Encyclopaedia of Liars and Deceivers gathers 150 of them each entry telling the intriguing tale of the liar s motives and the people who fell for the lies To collect these stories of deceit Roelf Bolt travels from ancient times to the present day documenting a huge assortment of legerdemain infamous quacks fraudulent scientists crooks who committed pseudocides by faking their own deaths and forgers of artworks design objects archaeological finds and documents From false royal claims fake dragon s eggs and bogus perpetual motion machines to rare books mermaid skeletons and Stradivari violins Bolt reveals that almost everything has been forged or faked by someone at some point in history. His short accessible narratives in each entry offer biographies and general observations on specific categories of deceit and Bolt captures an impressive number of famous figures including Albert Einstein Cicero Ptolemy Ernest Hemingway Fran ois Mitterand and Marco Polo as well as people who would have remained anonymous had their duplicity not come to light Funny shocking and even awe inspiring the stories of deception in this catalog of shame make The Encyclopaedia of Liars and Deceivers the perfect gift for all those who enjoy a good tall tale and those people who like to tell them Lying in Early Modern English Culture Andrew Hadfield, 2017-09-07 Lying in Early Modern English Culture is a major study of ideas of truth and falsehood in early modern England from the advent of the Reformation to the aftermath of the failed Gunpowder Plot The period is characterised by panic and chaos when few had any idea how religious cultural and social life would develop after the traumatic division of Christendom While many saw the need for a secular power to define the truth others declared that their allegiances belonged elsewhere Accordingly there was a constant battle between competing authorities for the right to declare what was the truth and so label opponents as liars Issues of truth and lying were therefore a constant feature of everyday life and determined ideas of individual identity politics speech sex marriage and social behaviour as well as philosophy and religion This book is a cultural history of truth and lying from the 1530s to the 1610s showing how lying needs to be understood in action as well as in theory Unlike most histories of lying it concentrates on a series of particular events reading them in terms of academic theories and more popular notions of lying The book covers a wide range of material such as the trials of Ann Boleyn and Thomas More the divorce of Frances Howard and the murder of Anthony James by Annis and George Dell works of literature such as Othello The Faerie Queene A Mirror for Magistrates and The Unfortunate Traveller works of popular culture such as the herring pamphlet of 1597 and major writings by Castiglione Montaigne Erasmus Luther and Tyndale Hoax: A History of Deception Ian Tattersall, Peter Névraumont, 2018-03-20 An entertaining collection of the most audacious and underhanded deceptions in the history of mankind from sacred relics to financial schemes to fake art music and identities World history is littered with tall tales and those who have fallen for them Ian Tattersall a curator emeritus at the American Museum of
