Ettington, Giants have existed on the Earth for most of Earth s history We are talking about going back hundreds of millions of years There were also many giants on Earth in historical times when human civilization existed There are even credible stories of Giants existing on Earth in the present era such as one killed by US soldiers in the mountains of Afghanistan North America has had many sightings and there are stories of wars with Giants from the American Indians as well stories of cannibalistic giants who were killed by Indians in a cave Many historical figures such as King Og and Gilgamesh were also purported to be Giants Goliath from the Bible may also have been from a tribe of giants at the time Giants are much more involved in our history and the building of ancient megalithic structures than we give them credit for They probably originated from an Alien race You should read this book to learn more about this unusual aspect of human and world history

The Lost History of Ancient America Frank Joseph, 2016-10-24 The Lost History of Ancient America presents new evidence of transoceanic visitors to America hundreds even thousands of years before Christopher Columbus was born Its 20 eminent contributors are experts in a variety of fields from botany biology and prehistoric engineering to underwater

archaeology archaeo astronomy and Bronze Age warfare In ancient times the sea was not an impassable barrier separating our ancestors from the outside world but a highway taking them to every corner of it Never before and nowhere else has so much evidence proving the impact made on America by overseas visitors been assembled You will learn about A chain of stonewalls across southern Illinois that has stood for the last two millennia A profusion of plants flourishing throughout the United States and Canada that originated more than 20 centuries ago Underwater ruins recently found off the coast of Oregon Bronze Age oil wells in Pennsylvania And much much more The Lost History of Ancient America ends the debate between cultural diffusionists who have always known that our ancient ancestors did not consider the sea an impassable barrier and cultural isolationists who have been equally certain that humans lacked the know how and courage for global navigation until a little more than 500 years ago

[The Battle over America's Origin Story](#) Brian Regal, 2022-05-06 This book examines the legends of who really discovered America It argues that histories of America s origins were always based less on empirical evidence and more on social political and cultural wish fulfillment Influenced by a complex interplay of Nativist hatred of immigrants and Aboriginal people as well as distrust of academic scholarship these legends ebbed and flowed with changing conditions in wider American society The book focuses on the actions of a collection of quirky obsessed amateur investigators who spent their lives trying to prove their various theories by promoting Welsh princes Vikings Chinese admirals Neo lithic Europeans African explorers and others who they say arrived centuries before Columbus These myths acted as mitigating agencies for those who embraced them Along with recent scholarship this book makes extensive use of archival materials some of which have never been employed before It covers the period from the sixteenth century to the present It brings together separate historiographic ideas to create a unified history rather than focusing on one particular legend as most books on the subject do It shows how questions of who discovered

Advanced Civilizations of Prehistoric America Frank Joseph,2009-12-21 The examination of four great civilizations that existed before Columbus s arrival in North America offers evidence of sustained contact between the Old and New Worlds Describes the cultural splendor political might and incredibly advanced technology of these precursors to our modern age Shows that North America s first civilization the Adena was sparked by ancient Kelts from Western Europe and explores links between Hopewell Mound Builders and prehistoric Japanese seafarers Before Rome ruled the Classical World gleaming stone pyramids stood amid smoking iron foundries from North America s Atlantic seaboard to the Mississippi River On its east bank across from today s St Louis Missouri flourished a walled city more populous than London was one thousand years ago with a pyramid larger at its base than Egypt s Great Pyramid During the 12th century hydraulic engineers laid out a massive irrigation network spanning the American Southwest that if laid end to end would stretch from Phoenix Arizona to the Canadian border On a scale to match they built a five mile wide dam from ten million cubic yards of rock While Europe stumbled through the Dark Ages a metropolis of weirdly shaped multistory superstructures precisely aligned to the sun and moon sprawled across the New Mexico Desert Who was responsible for such colossal achievements Where did their mysterious builders come from and what became of them These are some of the questions investigated by Frank Joseph in his examination of ancient influences at work on our continent He reveals that modern civilization is not the first to arise in North America but was preceded instead by four high cultures that rose and fell over the past three thousand years the Adena Hopewell Mississippian and Anasazi Hohokam How they achieved greatness and why they vanished so completely are the intriguing enigmas explored by this unconventional prehistory of our country Advanced Civilizations of Prehistoric America *The Encyclopedia Americana* ,1927 **New International Encyclopedia** ,1916

and 130 B C is not 130 years before Christ Now turn off the lights and tell me what is white and what is black color is the refrection of light without light there is no color That s what Rome did they turned off the lights on the truth And the way we been taught to record time is not the only way it was done And that an ancient order set claim to the entire Western Hemisphere long before Columbus and possibly achieved it in 130 B C With B C possibly meaning before Columbus before the cycle or before the comet of 1492 becoming 1362 possible in this case B C stood for all three events 130 B C is not as it appears and the claim was not made for a mortal king or country but rather for a Supreme God Under God laws If you like riddles If you like enigmas If you would like to see history recorded and told differently or truer then you may be ready for this challenge If you are then you are ready to look at the clues that was left behind with an open mind If you like astronomy I ll show you how different groups of people each use different galactic events besides the Star of Bethlehem to mark the start of their time and all the different groups calendar are tied together We will be looking at the equivalent of several Stars of Bethlehem from here in the Americas I ll be taking you through a dating wormhole without leaving the planet making you scratch your head laugh and wonder what if he is right This book just maybe the start of the rest of the story If you read through this book the first time you will read it again and again And you will possibly come to the same conclusion So that s how they did that And you will never read things the same way all the time again Including the Book of Mormons with its three different voyages and possible dating enigmas truest account ever written about the Americas Sometimes it s not what is being said that s important it s what not being said that is You will be intrigued so if you are ready to start a journey that will give you a lot to think about then turn to page 1 Unravel the truth
