Care for the Sorrowing Soul Duane Larson, Jeff Zust, 2017-10-26 Moral Injury is now recognized as a growing major problem for military men and women. Operant conditioning can overwhelm moral convictions and yet the question of whether to shoot or not to shoot often will never have a settled answer. Certain theories and treatment models about MI have been well developed but too often overlook root issues of religious faith. The authors propose a new model for understanding moral injury and suggest ways to mitigate its virtually inevitable occurrence in pre-combat training and ways to resolve MI post-trauma with proven spiritual resources. People outside the military too, among whom the incidence of MI also is a growing threat, will benefit from this analysis. The stories of the injured, their shaping and their telling are the key, and there are many illuminating stories of moral injury and recovery. Those who suffer MI, their families and caregivers including counselors, pastors and faith communities will find hope giving first steps toward the healing of MI in this book. MKTG4

The Multidisciplinary Nature of Morality and Applied Ethics David Steinberg, 2020-06-26 Most people intuitively understand the nature of morality; this tends to belie the fact that morality is more complex, controversial and interesting than generally appreciated. This book provides a comprehensive overview of morality from various disciplines and perspectives. These include ethics and evolution, moral psychology, morality and culture, morality and religion, and morality and the law. A chapter on evil illustrates the vulnerability of morality. The book also provides a description and critique of various ethical theories, the difference between a moral obligation and a moral ideal, and the views of venerable moral philosophers who argue over issues such as whether objective moral truth exists. A number of practical ethical dilemmas are discussed. The book is written in language accessible to the general reader and will be of interest to members of organizational, governmental and professional ethics committees, students in ethics fellowships or ethics degree programs, philosophers and others who want to learn more about morality.

Sustainable History and Human Dignity Nayef R.F. Al-Rodhan, 2022-01-27 Sustainable History and the Dignity of Man is a new philosophy of history. This volume outlines how sustainable history is propelled by good governance, which balances the tension between the attributes of human nature, emotionality, amorality and egoisms and human dignity needs such as reason, security, human rights, accountability, transparency, justice, opportunity, innovation and inclusiveness. The author proposes minimum criteria for good governance that are sensitive to local cultures and histories but meet certain common global values to ensure maximum and sustainable moral and political cooperation. Using an ocean

model of a single collective human civilisation the author argues that we should think in terms of a common human story that is comprised of multiple geo cultural domains and sub cultures with a history of mutual borrowing and synergies The author argues that today all geo cultural domains must succeed if humanity as a whole is to triumph This collective triumph will also depend on reason and a recognition that a great deal of knowledge is indeterminate and may be temporally spatially and perhaps culturally constrained as is outlined in the author s new theory of knowledge Neuro rational Physicalism Dr Nayef R F Al Rodhan is Senior Scholar in Geostrategy and Director of the Programme on the Geopolitical Implications of Globalisation and Transnational Security at the Geneva Centre for Security Policy Geneva Switzerland This book is an exceptionally wide ranging examination of past and present approaches to the securing of a qualitatively adequate social life on the planet The need for intercultural dialogue is pressing and stated as a matter of urgency in the text That argument is well presented and it is helpfully accompanied by a large amount of empirical evidence The book is also a strong and ethically attractive humanist statement about the value of human interaction that incorporates a vision of mutual respect based on a mixture of scientific arguments and normative aspirations Those features are very impressive Professor Michael Freeden Professor of Politics Director of the Centre for Political Ideologies Professorial Fellow Mansfield College University of Oxford United Kingdom
