

Engelsk tentamen

-Mr. Lanton

Perspectives magazine

Perspective magazine gives us a different perspective on what life really is, take our country for example: Norway is practically bathing in wealth, we consume massive amounts of food and items through a year. Reading Dying with death on SA trains confirms this, young kids living in poverty and ghettos. While kids here in Norway got computers, ipods, cell phones, toys and expensive clothing, kids in Johannesburg have to find other means of "fun" because they use most of their incomes on what really matters like food and a place to live. That's what I like about the magazine, it tells us the raw truth. While politicians try to hide the poverty the best they can, there will always be someone who's interested in the truth.

Perspectives magazine tells us about living conditions in different places around the Earth but it does not tell us what's being done to resolve these problems. It would be interesting to see how Politicians see the situation and what they would do to support, I think it would be more interesting to read if they gave us different views of the situation.

As stated above I think it would be nice to see the situation from another view, preferably from a politician. There is too little information on this topic in the News for example, because this is such a important topic the Government should give us more information.
