**Center Will Hold** Michael Pemberton, 2003-12-01 In *The Center Will Hold* Pemberton and Kinkead have compiled a major volume of essays on the signal issues of scholarship that have established the writing center field and that the field must successfully address in the coming decade The new century opens with new institutional demographic and financial challenges and writing centers in order to hold and extend their contribution to research teaching and service must continuously engage those challenges Appropriately the editors offer the work of Muriel Harris as a key pivot point in the emergence of writing centers as sites of pedagogy and research The volume develops themes that Harris first brought to the field and contributors here offer explicit recognition of the role that Harris has played in the development of writing center theory and practice But they also use her work as a springboard from which to provide reflective descriptive and predictive looks at the field

*Humane Infrastructures* Patrik Svensson, 2025-04-29 How we can work together to understand imagine and build humane infrastructures and a better world *Humane Infrastructures* is a deep journey into humanistic and humane knowledge and how it can be engaged to help us collaboratively respond in ethical and sustainable ways to our current global challenges Patrik Svensson takes the reader through a series of examples case studies experiments and lively dialogues to reconsider infrastructure He brings people ideas and perspectives in through a set of documents and documented experiences some of which draw from the author's practice in Ume Stockholm New York City and Los Angeles And he proposes frameworks such as the idea of an infrastructure clinic exploring them in staged dialogues and thought experiments Imagining and building humane infrastructures require us to challenge the very nature of infrastructure not necessarily all at once but rather step by step The author consequently engages with infrastructure as a concept and frames it historically critically and creatively with research infrastructure as a central case study He also considers integrative niches for humanities related work such as environmental humanities and disability studies as sites for critical and constructive engagement with infrastructures including the university itself In the end the exploration leads to a reimagination of the humanities and more generally higher education as part of a capacious public facing effort of world rebuilding The book will appeal to scholars in the humanities and a range of intersecting fields such as infrastructure studies critical computing and design

*Or Words to That Effect* Daniel F. Chamberlain, J. Edward Chamberlin, 2016-01-27 This volume raises questions about why oral celebrations of language receive so little attention in published literary histories when they are simultaneously recognized as fundamental to our understanding of literature It aims to prompt debate regarding the transformations needed for literary historians to provide a more balanced and fuller appreciation of what we call literature one that acknowledges the interdependence of oral storytelling and written expression whether in print pictorial or digital form Rather than offering a summary of current theories or prescribing solutions this volume brings

together distinguished scholars conventional literary historians and oral performer practitioners from regions as diverse as South Africa the Canadian Arctic the Roma communities of Eastern Europe and the music industry of the American West in a conversation that engages the reader directly with the problems that they have encountered and the questions that they have explored in their work with orality and with literary history

*Interface Fantasy* Andre Nusselder, 2009-09-11 Behind our computer screens we are all cyborgs through fantasy we can understand our involvement in virtual worlds Cyberspace is first and foremost a mental space Therefore we need to take a psychological approach to understand our experiences in it In *Interface Fantasy* Andr Nusselder uses the core psychoanalytic notion of fantasy to examine our relationship to computers and digital technology Lacanian psychoanalysis considers fantasy to be an indispensable screen for our interaction with the outside world Nusselder argues that at the mental level computer screens and other human computer interfaces incorporate this function of fantasy they mediate the real and the virtual *Interface Fantasy* illuminates our attachment to new media why we love our devices why we are fascinated by the images on their screens and how it is possible that virtual images can provide physical pleasure Nusselder puts such phenomena as avatars role playing cybersex computer psychotherapy and Internet addiction in the context of established psychoanalytic theory The virtual identities we assume in virtual worlds exemplified best by avatars consisting of both realistic and symbolic self representations illustrate the three orders that Lacan uses to analyze human reality the imaginary the symbolic and the real Nusselder analyzes our most intimate involvement with information technology the almost invisible affective aspects of technology that have the greatest impact on our lives *Interface Fantasy* lays the foundation for a new way of thinking that acknowledges the pivotal role of the screen in the current world of information And it gives an intelligible overview of basic Lacanian principles including fantasy language the virtual the real embodiment and enjoyment that shows their enormous relevance for understanding the current state of media technology

Shah, 2020-05-15 Winner of the IARSLCE 2021 Publication of the Year Award and the Coalition for Community Writing Outstanding Book Award Community members are rarely tapped for their insights on engaged teaching and research but without these perspectives it is difficult to create ethical and effective practices *Rewriting Partnerships* calls for a radical reorientation to the knowledges of community partners Emphasizing the voices of community members themselves the adult literacy learners secondary students and youth activists who work with college students the book introduces Critical Community Based Epistemologies a deeply practical approach to knowledge construction that centers the perspectives of marginalized participants Drawing on interviews with over eighty community members *Rewriting Partnerships* features community knowledges in three common types of community engaged learning youth working with college students in a writing exchange program nonprofit staff who serve as clients for student projects and community members who work with graduate students Interviewees from each type of partnership offer practical strategies for creating more ethical collaborations including how programs are built how projects are introduced to partners and how graduate students are educated The book also explores three approaches to partnership design that create space for community voices at the structural level advisory boards participatory evaluation and community grading Immediately applicable to teachers researchers community partners and administrators involved in community engagement *Rewriting Partnerships* offers concrete strategies for creating more community responsive partnerships at the classroom level as well as at the level of program and research design But most provocatively the book challenges common assumptions about who can create knowledge about community based learning demonstrating that community partners have the potential to contribute significantly to community engagement scholarship and program decision making **My Word!** Susan D. Blum, 2011-06-15 Classroom Cheats Turn to Computers Student Essays on Internet Offer Challenge to Teachers Faking the Grade Headlines such as these have been blaring the alarming news of an epidemic of plagiarism and cheating in American colleges more than 75 percent of students admit to having cheated 68 percent admit to cutting and pasting material from the Internet without citation Professors are reminded almost daily that many of today's college students operate under an entirely new set of assumptions about originality and ethics Practices that even a decade ago would have been regarded almost universally as academically dishonest are now commonplace Is this development an indication of dramatic shifts in

education and the larger culture In a book that dismisses hand wringing in favor of a rich account of how students actually think and act Susan D Blum discovers two cultures that exist often uneasily side by side in the classroom Relying extensively on interviews conducted by students with students My Word presents the voices of today s young adults as they muse about their daily activities their challenges and the meanings of their college lives Outcomes based secondary education the steeply rising cost of college tuition and an economic climate in which higher education is valued for its effect on future earnings above all else These factors each have a role to play in explaining why students might pursue good grades by any means necessary These incentives have arisen in the same era as easily accessible ways to cheat electronically and with almost intolerable pressures that result in many students being diagnosed as clinically depressed during their transition from childhood to adulthood However Blum suggests the real problem of academic dishonesty arises primarily from a lack of communication between two distinct cultures within the university setting On one hand professors and administrators regard plagiarism as a serious academic crime an ethical transgression even a sin against an ethos of individualism and originality Students on the other hand revel in sharing in multiplicity in accomplishment at any cost Although this book is unlikely to reassure readers who hope that increasing rates of plagiarism can be reversed with strongly worded warnings on the first day of class My Word opens a dialogue between professors and their students that may lead to true mutual comprehension and serve as the basis for an alignment between student practices and their professors expectations
