The divine comedy, tr. by H.W. Longfellow Dante Alighieri,1890 Identity Politics Inside Out Lisel Hintz,2018-08-28 The trajectory of Turkey s Justice and Development Party AKP rule offers an ideal empirical window into puzzling shifts in Turkey s domestic politics and foreign policy The policy transformations under its leader Recep Tayyip Erdogan do not align with existing explanations based on security economics institutions or identity In Identity Politics Inside Out Lisel Hintz teases out the complex link between identity politics and foreign policy using an in depth study of Turkey Rather than treating national identity as cause or consequence of a state s foreign policy she repositions foreign policy as an arena in which contestation among competing proposals for national identity takes place Drawing from a broad array of sources in popular culture social media interviews surveys and archives she identifies competing visions of Turkish identity and theorizes when and how internal identity politics becomes externalized Hintz examines the establishment of Republican Nationalism in the wake of imperial collapse and examines failed attempts made by those challenging its Western oriented anti ethnic secularist values with alternative understandings of Turkishness She further demonstrates how the Ottoman Islamist AKP used the European Union accession process to weaken Republican Nationalist obstacles in Turkey thereby opening up space for Islam in the domestic sphere and a foreign policy targeted at achieving leadership in the Middle East By showing how the inside out spillover of national identity debates can reshape foreign policy Identity Politics Inside Out fills a major gap in existing scholarship by closing the identity foreign policy circle

The Complete Works of Friedrich Nietzsche: Thoughts out of season, tr. by A. M. Ludovici and Adrian Collins Friedrich Wilhelm Nietzsche,1910 *Organized Muslim Women in Turkey* Ayşe Dursun,2022-10-25 This book explores the politics of organized Muslim women in Turkey and analyzes their coalitions with other secular feminist Kurdish etc women s movements from an intersectional perspective It provides empirical evidence for significant changes in Muslim women s

politics under the ruling Justice and Development Party AKP and points to the increasing difficulty to build cross movement women s coalitions in the face of rising religious conservatism and authoritarianism under the AKP rule While feminist Muslim women who display an intersectional understanding of structural inequality and oppression are found to be more resilient in the face of political pressure conservative Muslim women dodge women s coalitions and align with the government s discourses and policies Empirical evidence based on interviews with organized Muslim women also shows that prospects for coalition building largely depends on the specific societal and institutional re configurations of patriarchy along with other relations of domination rather than mere ideological difference among women This book will be of interest to scholars and students across Gender Studies Sociology and Political Science particularly those whose research focuses on intersectionality and social movements

Zaytsev, 2019-05-10 This book examines the waves of protest that broke out in the 2010s as the collective actions of self organized publics Drawing on theories of publics counter publics and developing an analytical framework that allows the comparison of different country cases this volume explores the transformation from spontaneous demonstrations driven by civic outrage against injustice to more institutionalized forms of protest Presenting comparative research and case studies on e g the Portuguese Generation in Trouble the Arab Spring in Northern Africa or Occupy Wall Street in the USA the authors explore how protest publics emerge and evolve in very different ways from creating many small citizen groups focused on particular projects to more articulated political agendas for both state and society These protest publics have provoked and legitimized concrete socio political changes altering the balance of power in specific political spaces and in some cases generating profound moments of instability that can lead both to revolutions and to peaceful transformations of political institutions The authors argue that this recent wave of protests is driven by a new type of social actor self organized publics In some cases these protest publics can lead to democratic reform and redistributive policies while in others they can produce destabilization ethnic and nationalist populism and authoritarianism This book will help readers to better understand how seemingly spontaneous public events and protests evolve into meaningful well structured collective action and come to shape political processes in diverse regions of the globe İktisadi ve İdari Bilimler Alanında Uluslararası Araştırmalar - 4 Abdullah Soysal, 2021-05-27

Foreign Influence on Ancient India Krishna Chandra Sagar,1992 This is the first book dealing with the foreign influence on ancient India Discusses the foreign invasions of India by the Achaemenians Greeks Sakas Kushans Sassanians Pahlavas and the Hunas and also the peaceful impact of the Romans on India The book advances a theory that ancient India never provided any casus belli to the foreigners to attack her It was India s weakness and an implied confidence in future victories that kept the invaders coming to India one after another But these foreigners have also influenced India in the field of administration religion philosophy astronomy language script trade and commerce and above all the way of life of the people of India which is the main subject of the book This book suggests that after the partition of this sub continent the name India which continued to be used for this country is a misnomer when the river INDUS after which the country was so named went to Pakistan This book also finds is real nature the matrimonial alliance between Seleucus and Chandra Gupta Maurya and gives possible solutions to some riddles of Indian history The origin of the name of KIDAR has also been discovered for the first time The book tells us in a poetic language how the golden age of the Guptas was converted into a molten age of destruction and confusion by the Hunas What remained of our culture after so much turmoil and changes is before us

Filming in European Cities Ipek A. Celik Rappas,2025-03-15 Filming in European Cities explores the effort behind creating screen production locations Ipek A Celik Rappas accounts the rising demand for original and affordable locations for screen projects due to the growth of streaming platforms As a result screen professionals are repeatedly tasked with chores such as transforming a former factory in Istanbul to resemble a war zone in Aleppo or finding a London street that evokes Barcelona Celik Rappas highlights the pivotal role crew members play in transforming cities and locations into functional screen settings Examining five European media capitals Athens Belfast Berlin Istanbul and Paris the book delves into the overlooked aspects of location related screen labor and its ability to generate production value Filming in European Cities demonstrates that in its perpetual quest for authentic filming locations the screen industry extracts value from cities and neighborhoods their marginalized residents and screen labor enriching itself through this triple exploitation *Insight Turkey* 2021/04: *Turkey's Grand Strategy* ,2021-12-01 With extensive international changes taking place in the last three decades such as the collapse of the bipolar world system the dismemberment of the Soviet Union the declining hegemony of the U S the lack of global leadership and the rise of challenging global powers like any other regional power Turkey has initiated a comprehensive conceptual and theoretical transformation and a process of restructuring in its foreign policy

understanding Turkey has gone beyond the typical realist understanding and begun to develop a new foreign policy perspective that considers moral values. While some consider this new perspective as a civilizational approach others call it moral realism. While some consider this transformation as an axis shift others consider it as the normalization of Turkey. This large scale change in Turkish foreign policy during the governance of the AK Party has led the state leadership to search for reformulation of the Turkish grand strategy. To achieve an influential role in international politics Turkey has transformed its foreign policy orientation which can be analyzed within three complementary contexts namely national regional and international global. First Turkey has been experiencing groundbreaking changes in the national context. Under the leadership of Recep Tayyip Erdoğan there has been a long term political stability which allowed Turkey to take significant steps in foreign policy. The strong personality of President Erdoğan provided a convenient atmosphere to execute effective leadership diplomacy. Especially after the military coup attempt on July 15 2016 Erdoğan has reformed the state structure by ending the traditional bureaucratic tutelage and consolidating the civilian and political administration. After the reconciliation between the state and the people the greatest transformation was made in the redefinition of the responsibilities of Turkish security. The Turkish national intelligence and the armed forces have abandoned their inward looking perspective and begun to act as real foreign policy actors. This redefinition has increased Turkey's hard power in the execution of foreign policy. Furthermore newly established state institutions such as the Turkish Cooperation and Coordination Agency (T.C. Cumhurbaşkanlığı Kültür ve Dış İlişkiler Başkanlığı) for Turks Abroad and Related Communities (Yurtdışı Türkler ve Türk Özgüven Kurumu Başkanlığı) YTB Yunus Emre Institute and Disaster and Emergency Management Presidency (AFAD) have provided an enormous soft power capability for Turkey. During the last two decades Turkey has greatly developed its defense industry which is one of the preconditions of following a relatively independent foreign policy. Turkey has begun to produce most of the ammunition weapons and especially the unmanned combat aerial vehicles (UCAVs) required for its struggle against terrorism and for deterring external threats. The production of native UCAVs such as Bayraktar TB2 Bayraktar AKINCI TUSA ANKA and Vestel Karayel Turkey has increased its military effectiveness both in its struggle against terrorism and in different regional crises such as Syria Libya and Nagorno Karabakh and now has the capacity to act alone and to pursue an Ankara centered independent foreign policy. Second Turkey has been seeking effective leadership in the regional context and is determined to eliminate vital threats emanating from non state actors beyond their borders. Turkey has carried out four effective military interventions into the north part of Syria followed by efforts to improve its cooperation with both immediate and remote neighbors. It has established strategic relations with some regional countries such as Libya Qatar and Somalia while starting to take initiatives and thus has emerged as a regional game changer in the region. It effectively reacts to regional projections of regional and global powers Iranian and Israeli expansionism destabilization efforts of Saudi Arabia and the United Arab Emirates on the one hand and develops its own regional projects on the other. One of the most important priorities of Turkey is regional stabilization. Therefore it has been following an active

and non sectarian regional policy Third Turkey has been seeking a high level of autonomy and global status The country has been asking for the restoration and reformation of the global system On the one hand it invites the West to respect its own values and principles On the other hand it demands a more just and more inclusive international system for example asking for the reformation of international institutions such as the United Nations One of the main indications of Turkey s new political discourse is the motto crafted by Turkish President Erdoğan The World Is Bigger than Five Turkey desires more autonomy in international relations and therefore it developed a multi dimensional sectoral and diversified foreign policy orientation For this reason it tries to improve its relations with all global powers representing different political perspectives such as the U S Russia and China In order to extend its outreach to and initiate new openings in other parts of the world Turkey has been providing humanitarian and developmental aid to many countries and thus is increasing its soft power worldwide In other words it is trying to be one of the global players and to set the global agenda Therefore Turkey has been trying to be active in all related regional and global international organizations All in all Turkey has been working to materialize its grand strategy at three different layers namely the quest for an independent and Ankara centered based foreign policy understanding the quest for regional leadership and the quest for an autonomous and effective global status Turkey has recently taken many critical measures by increasing its soft power through which it provides humanitarian and developmental aid worldwide its hard power by developing its national defense industry and military interventions to regional crises and its productivity power with the successes in industrial and technological sectors Taking all these developments into consideration this new issue of Insight Turkey focuses on the transformation of Turkey s grand strategy Three commentaries and six articles will help the readers to understand better Turkey s current position at a regional and global level In the light of the changes the international system has gone through Hasan Ykselen s article explores the ill suited features of mainstream debates and theorizing from a Turkish perspective Ykselen argues that Turkey has a long pursued grand strategy but new concepts can enhance its ability to strategize and can enrich the recently emerged vibrant debates exploring Turkey s grand strategy How compatible is Turkey s grand strategy with the grand strategies of global great powers A crucial question Ender Aktürk s study seeks to answer The article provisionally concludes that the Turkish grand strategy seems to be most compatible or least incompatible with the British grand strategy followed by the U S whereas Turkish and French and especially Russian grand strategies seem particularly incompatible By claiming that the international order significant transformation enforced Turkey to relocate its international position Murat Yeiltepe and Ferhat Pirinç analyze how Turkey should adjust its grand strategy under the changing international order and protect its important interests by developing a comprehensive grand strategy The analysis of Turkey s grand strategy would be incomplete if no special focus was put on its bilateral relations with global or regional actors such as Russia Middle East North Africa MENA and African countries Alperen Kırdaç Zengin and İlyas Topsakal explain the common aspects of the grand strategies of Turkey

and Russia This piece evaluates the policies of both countries in Syria Libya and the South Caucasus where the interests of both intersect and occasionally conflict Today soft power plays an important role in advancing states foreign policy goals and Turkey pays special attention to the development and maintenance of its soft power Ali Omid s commentary uses a descriptive analysis approach to address the components of Turkey s soft power in the MENA region in the years 2011 2020 the second decade of AK Party governance Turkish African relations have consistently exhibited strong growth since Ankara declared 2005 as the year of Africa In this regard Abdinor Dahir s commentary argues that Turkey s growing footprint in Africa will likely continue to produce positive results for both sides Within the same scope Abdenmour Toumi examines how Algeria Turkey s ambitious strategic rapprochement will affect France s Sahel policy The commentary reviews the ongoing diplomatic tensions between Algiers and Paris following President Emmanuel Macron s cutting back on visas granted to Maghreb citizens and his comments on the existence of an Algerian nation before the French invasion and later colonization in 1832 In terms of economic diplomacy Kaan Yi eno lu investigates the Turkey UK free trade agreement which came into force in 2021 Yi eno lu analyzes the economic relations between the two countries and examines the details of the agreement in the context of the changes that it provides This issue of Insight Turkey through off topic pieces covers very significant issues related to Karabakh War Gulf rivalry and developments in the Balkans Examining the attitudes of international actors during the 44 day Karabakh war is important as they affected the international balances in the Caucasus Nazim Jafarov and Araz Aslanl focus on Russia s attitude as it was of special importance The article carefully examines the policy followed by Russia during and after the 44 day Karabakh war and its main and parallel pillars By focusing on Turkey as a rising drone power the role and impact of Turkey s military support especially its drones on Azerbaijan s Nagorno Karabakh victory is highlighted by H ly a K n k and Sinem elik This article argues that Turkey s political diplomatic and military contributions to Azerbaijan will likely be discussed on the global agenda for years to come With regard to the recent developments in the Gulf Mustafa Menshawy and Simon Mabon s commentary argues that the Saudi Qatari tensions lie in conflicting perspectives about the role of political Islam within the fabric of both states and their actions regionally Menshawy and Mabon believe that the rivalry stems from contrasting relations between political and religious elites in each country which has taken on increasing political importance in tensions between Riyadh and Doha Meanwhile Mehmet Rakipo lu s commentary focuses on another dimension as he provides an analysis of the role of the Gulf over the Sudanese transition period concluding that the UAE and Saudi Arabia using petrodollars as a tool are directly engaging in Sudan s transition period Kemal nat and Melih Y ld z in their article discuss the rise of China in the light of economic and military data and what the challenge from China means for the global leadership of the U S In this context an answer has been sought to the question of what will be the consequences of the rise of China in terms of the international political system The last off topic article written by Andrej Semenov analyzes the Washington Agreement WA in the context of EU efforts to facilitate the dialogue between Kosovo and

Serbia Semenov claims that the agreement commits Kosovo to the mini Schengen and brings a novelty into the dynamics of the Belgrade Pristina relationship With one more year coming to an end we are pleased to present to our readers yet another insightful issue of Insight Turkey that has attempted to bring a comprehensive analysis of Turkey s grand strategy and highlight its current regional and international role and status Hopefully this issue will provide the foothold for all those interested in defining Turkey s grand strategy We are looking forward to providing you with more next year
