Reading Informational Text

Read the passages. Then answer the questions.

Gills from Trees

Can you imagine a world without trees? It is not a pleasant thought.

Humans imagine made of most instead of wood. You would have to pay for it with your blood to walk. And many of your favorite foods would be gone, too. It would be a world without chocolate, bananas, apples, and oranges. Some medicines are made from trees, so you wouldn't have those either.

People aren't the only ones who would lose trees. Birds build their homes in trees. Squirrels get nuts that come from them.

Even the land and air would lose trees. The roots of trees keep soil from washing away when it rains. The leaves of trees release oxygen. Oxygen is an invisible gas that people and animals breathe.

Trees give many gifts. It is important to protect them.

1. What is the main idea of this text?

☐ Humans should be made of wood.
 ☐ Medicines come from trees.
 ☒ Trees are important.
 ☐ Birds live in trees.

2. What evidence from the passage supports your answer?

Trees give us food, water, medicine, and oxygen. They also help Earth.

Davidson, Stacey Margarita Johnson, L. J. Randolph, 2023-05-01 *How We Take Action* brings together practical examples of social justice in language education from a wide range of contexts. Many language teachers have a desire to teach in justice oriented ways but perhaps also feel frustration at how hard it is to teach in ways that we did not experience ourselves as learners and have not observed as colleagues. As a profession we need more ideas, more examples and wider networks of allies in this work. This book includes the work of 59 different authors including teachers and researchers at every level from Pre K to postsecondary representing different backgrounds, languages and approaches to classroom practice. Organized into three sections, some of the chapters in this collection report on classroom research while others focus on key practices and experiences. Section I is entitled *Inclusive and Empowering Classrooms*. In this section authors take a critical approach to classroom practices by breaking with the status quo or creating spaces where students experience safety, access and empowerment in language learning experiences. Section II *Integration of Critical Topics* addresses a variety of ways teachers can incorporate justice oriented pedagogies in day to day instructional experiences. Social justice does not happen haphazardly; it requires careful critical examination of instructional practices and intentional planning as instructors hope to enact change. Section III *Activism and Community Engagement* explores how teachers can empower students to become agents for positive change through the study of activism and constructive community engagement programs at local and global levels.

ENDORSEMENTS This volume brings an important diversity of voices, contexts and collaborations to the ongoing conversations about social justice in language education. University experts in social justice in language education and nationally celebrated K-12 language teachers are included along with experienced practitioners whose voices are often not prioritized in scholarship. The volume serves as an invitation to the reader to engage, reflect, consider and examine different approaches to teaching for social justice. Chapters bring in feminist pedagogies, critical pedagogies, LGBTQ affirming pedagogies, anti-bias and anti-racist approaches, decolonial lenses, critical media literacies and more. Everyone who picks up this volume will find at least one piece that immediately resonates with them and then will be inevitably drawn in to the other engaging and thoughtful chapters.

Pamela M. Wesely, The University of Iowa: This book is a must read for those interested in social justice in language education. The range of authors, topics, languages, institutional contexts and pedagogies is staggeringly impressive and will provide any reader with ideas and inspiration for taking action in and out of the language classroom.

Kate Paesani, University of Minnesota: This excellent volume replete with thoroughly researched strategies for promoting social justice in PK-16 world language instruction could not have come at a more critical time in the United States when anti-democratic forces are mobilizing against equity and justice oriented education. We in the field of language education are very fortunate to have this collection of work from more than 50 language learning scholars and practitioners who remind us that making our classrooms more equitable, inclusive and grounded in justice is part of doing our jobs more effectively. What's more, the volume clearly demonstrates its prioritization for inclusivity by providing robust support for those

who teach young learners at the pre kindergarten through grade 3 levels a population woefully underrepresented in language teaching literature and for topics that have been unjustly ignored in language education such as racism sexism and the needs of LGBTQIA learners This is a clear demonstration of the volume s uniqueness in its vast breadth of scope and attention which is the book s most valuable feature and why it will serve our field wonderfully for many years to come Uju Anya Carnegie Mellon University

What works in early reading materials Ana Robledo, Amber Gove, 2019-02-25 Access to books is key to learning to read and sustaining a love of reading Yet many low and middle income countries struggle to provide their students with reading materials of sufficient quality and quantity Since 2008 RTI International has provided technical assistance in early reading assessment and instruction to ministries of education in dozens of low and middle income countries The central objective of many of these programs has been to improve learning outcomes in particular reading for students in the early grades of primary school Under these programs RTI has partnered with ministry staff to produce and distribute evidence based instructional materials at a regional or national scale in quantities that increase the likelihood that children will have ample opportunities to practice reading skills and at a cost that can be sustained in the long term by the education system In this paper we seek to capture the practices RTI has developed and refined over the last decade particularly in response to the challenges inherent in contexts with high linguistic diversity and low operational capacity for producing and distributing instructional materials These practices constitute our approach to developing and producing instructional materials for early grade literacy We also touch upon effective planning for printing and distribution procurement but we do not consider the printing and distribution processes in depth in this paper We expect this volume will be useful for donors policymakers and practitioners interested in improving access to cost effective high quality teaching and learning materials for the early grades
