

BEST LASH STYLE FOR YOUR EYE SHAPE

BEST LASH STYLE FOR YOUR EYE SHAPE

Upturned Eyes

Upturned eyes can be paired with several different eye shapes, the almond shaped eye is the most common. There is a good rule of thumb, if you are going for the dramatic look that you want, that you can't afford the outer part of the eye, the outer 1/3 of the eye, by lifting that line, it will create the eye.

Close Set Eyes

Focus on accentuating the outer corner to lift and lengthen the eye. To increase the appearance of width, a natural look style should be used. The look style to help you achieve the lift and lengthen look, use lashes with longer lash lengths from inner to outer, that has shorter lashes in the inner corner, increasing to longer lashes toward the outer corner.

Downturned Eyes

For a look that will draw attention to the eye in the first row, the downturned eye is the perfect shape for a dramatic and voluminous eye look. Placing longer lashes in the inner corner will put the eye in a lifted appearance with more length along the lash line.

Monolid Eyes

Monolid eyes often naturally have straight lashes, choose a style with more flare for dramatic and length on the outer corner, this will create an illusion of elongated eyes.

(Page 1 of 4)

Wide Set Eyes

For the focus on the focus on the inner corner of the eye, the inner corner is the key. If it is a natural eye or a wide set eye, the inner corner is the key. If it is a natural eye or a wide set eye, the inner corner is the key. If it is a natural eye or a wide set eye, the inner corner is the key.

Round Eyes

For the forward looking eye, you want to have a strong eye starting as a look toward the outer corner. Use a look to create a slight effect, a natural eye giving them the illusion of length, lengthen eye, look "heavy", this will make the eye more defined and dramatic.

Protruding Eyes

It is best to use "W" or "U" curls as well as using the "cat eye shape". This will make the eye appear longer.

Round Eyes

All shapes and features have beautiful bright eyes. To maximize the eye in the picture, use a look to create a subtle look, voluminous effect, also known as the cat eye effect.

Almond Eyes

Almond Eye shape can carry off any eye shape style. Depending on the look and eye giving the eye shape is very versatile and eye style will complement your eye shape. (Page 2 of 4)
