

Question 1 (10 points)

1. Which of the following is a valid Java statement?

- ☐ A. `int x = 10; x = 20; x = 30;`
- ☐ B. `int x = 10; x = 20; x = 30;`
- ☐ C. `int x = 10; x = 20; x = 30;`
- ☐ D. `int x = 10; x = 20; x = 30;`

Correct Answer: B (10 points)

Each of the four choices is a valid Java statement. The only difference between the four choices is the order of the statements. The only valid statement is the one that has the statements in the correct order. The correct order is: `int x = 10; x = 20; x = 30;`

Teaching-Learning Contemporary Physics Beata Jarosievitz, Csaba Sükösd, 2021-09-15 This book presents research contributions focussing on the introduction of contemporary physics topics mainly but not exclusively quantum physics into high school curricula Despite the important advances and discoveries in quantum physics and relativity which have revolutionized our views of nature and our everyday lives the presence of these topics in high school physics education is still lacking In this book physics education researchers report on the teaching and learning of quantum physics from different perspectives and discuss the design and use of different pedagogical approaches and educational pathways There is still much debate as to what content is appropriate at high school level as well what pedagogical approaches and strategies should be adopted to support student learning Currently there is a greater focus on how to teach modern physics at the high school level rather than classical physics However teachers still lack experience and availability of appropriate teaching and learning materials to support the coherent integration of Quantum Physics in high school curricula All of the 19 papers presented in this book discuss innovative approaches for enhancing physics education in schools

The Learning Rainforest: Great Teaching in Real Classrooms Tom Sherrington, 2017-10-23 The Learning Rainforest is an attempt to capture various different elements of our understanding and experience of teaching It is a celebration of great teaching the joy of it and the intellectual and personal rewards that teaching brings It is aimed at teachers of all kinds busy people working in

complex environments with little time to spare The core of the book is a guide to making teaching both effective and manageable it provides an accessible summary of key contemporary evidence based ideas about teaching and learning and the debates that all teachers should be engaging in It s a book packed with strategies for making great teaching attainable in the context of real schools The Learning Rainforest metaphor is an attempt to capture various different elements of our understanding and experience of teaching Tom s ideas about what constitutes great teaching are drawn from his experiences as a teacher and a school leader over the last 30 years alongside everything he has read and all the debates he s engaged with during that time An underlying theme of this book is that a career in teaching is a process of continual personal development and professional learning as is engaging in fundamental debates rage on about the kind of education we value As you meet each new class and move from school to school your perspectives shift your sense of what seems to work adjusts to each new context In writing this book Tom is trying to capture some of the journey he s been on He has learned that it is ok to change your mind More than that sometimes it is simply necessary to get your head out of the sand to change direction to admit your mistakes
