*Teaching Young Adult Literature Today* Judith A.

Hayn, Jeffrey S. Kaplan, Karina R. Clemmons, 2016-11-02 *Teaching Young Adult Literature Today* introduces the reader to what is current and relevant in the plethora of good books available for adolescents. More importantly, literary experts illustrate how teachers everywhere can help their students become lifelong readers by simply introducing them to great reads, smart, insightful, and engaging books that are specifically written for adolescents. Hayn, Kaplan, and their contributors address a wide range of topics: how to avoid common obstacles to using YAL, selecting quality YAL for classrooms while balancing these with curriculum requirements, engaging disenfranchised readers, pairing YAL with technology as an innovative way to teach curriculum standards across all content areas. Contributors also discuss more theoretical subjects such as the absence of lesbian, gay, bisexual, transgender, and questioning LGBTQ young adult literature in secondary classrooms and contemporary YAL that responds to the changing expectations of digital generation readers who want to blur the boundaries between page and screen. This book has been updated to reflect the wealth of new YA literature that has been published since the first edition appeared in March 2012 and to reflect new trends in technology that influences how adolescents are reading and responding to literature.

*Powerful Primary Geography* Anne M. Dolan, 2020-04-16 *Powerful Primary Geography: A Toolkit for 21st Century Learning* explores the need for children to understand the modern world and their place in it. Dedicated to helping teachers inspire children's love of place, nature, and geographical adventures through facilitating children's voice and developing their agency, this book explores the way playful opportunities can be created for children to learn how to think geographically to solve real-life problems and to apply their learning in meaningful ways to the world around them. Based on the very latest research, *Powerful Primary Geography* helps children understand change, conflict, and contemporary issues influencing their current and future lives and covers topics such as weather and climate change, sustainability, engaging in their local and global community, graphicacy, map work, and visual literacy. Understanding geography through the arts. Including several case studies from primary schools in Ireland, this book will help aid teachers, student teachers, and education enthusiasts in preparing children for dealing with the complex nature of our contemporary world through artistic and thoughtful geography. Facilitating children's engagement as local, national, and global citizens ensures geography can be taught in a powerful and meaningful manner.

*Climate Migrants* Rebecca E. Hirsch, 2016-08-01 Around the world, from US coastal towns to island nations of the Pacific and the deserts of Africa, people are in danger of losing their homes. Some have already fled. Others know they are running out of time. By 2050, at least 25 million people will be driven from their homes due to the effects of climate change. Droughts, desertification, rising sea levels, melting permafrost, and severe storms are drastically redefining the planet's landscape and leaving many places unable to support human populations. Although developing nations are especially vulnerable to the impacts of extreme climate shifts, ultimately people in wealthy countries will also be forced to migrate. Experts expect Americans to move from drought-ravaged California, sea-swept Florida, and numerous other vulnerable areas to crowd into the few remaining safe havens. Humans cannot stop climate

change altogether Yet leaders can minimize the damage by curbing carbon dioxide emissions that contribute to climate change and by adapting communities to better withstand climate related stresses Even so for many people relocation is already a reality How they adjust to their new homes and how their new communities adjust to them will set the stage for a future defined by a warming planet      **Overview, Young Explorer's Edition** Benjamin Grant,Sandra Markle,2019-10-29
