Essence and Alchemy Mandy Aftel, 2011-04-01 An artisan perfumer reveals a lost art and its mysterious sensual history For centuries people have taken what seems to be an instinctive pleasure in rubbing scents into their skin Perfume has helped them to pray to heal and to make love And as long as there has been perfume there have been perfumers or rather the priests shamans and apothecaries who were their predecessors Yet in many ways perfumery is a lost art its creative and sensual possibilities eclipsed by the synthetic ingredients of which contemporary perfumes are composed which have none of the subtlety and complexity of essences derived from natural substances nor their lush histories **Essence and Alchemy** resurrects the social and metaphysical legacy that is entwined with the evolution of perfumery from the dramas of the spice trade to the quests of the alchemists to whom today's perfumers owe a philosophical as well as a practical debt Mandy Aftel tracks scent through the boudoir and the bath and into the sanctums of worship offering insights on the relationship of scent to sex solitude and the soul Along the way she imparts instruction in the art of perfume compositions complete with recipes guiding the reader in a process of transformation of materials that continues to follow the alchemical dictum *solve et coagula* dissolve and combine and is itself aesthetically and spiritually transforming **Sacred Luxuries** Lise Manniche, 1999 The art of modern fragrance making owes much to practices developed in ancient Egypt The Egyptians attached great importance to perfumes and cosmetics which men and women wore to make themselves attractive and alluring to restore vitality and good health and as a means of venerating the gods and of negotiating a passage to the realm of the hereafter In this illustrated book Lise Manniche looks at the role played by scents and cosmetics in ancient Egyptian society and discusses their preparation in some cases providing actual recipes **BOOK JACKET** **Art of Perfumery** Mountain Waters Pty Ltd, 2012-07-23 **Art of Perfumery** Make your own perfumes from natural products Perfumes are mixtures of fragrant essential oils or aroma compounds fixatives and solvents used to give a pleasant scent to people or places Many of the compounds that make up a perfume can be manufactured or extracted from plant or animal sources Perfumes have been known to exist in some of the earliest human civilizations either through ancient texts or from archaeological digs Modern perfumery began in

the late 19th century with the commercial synthesis of aroma compounds such as vanillin or coumarin which allowed for the composition of perfumes with smells previously unattainable solely from natural aromatics alone This publication will give you the knowledge to create perfumes scents and fragrances from natural and some synthetic sources The techniques are based on classical recipes and includes perfumes fragrances scents soaps pomades and oils creams emulsions milks bouquets and nosegays as well as other traditional products Frédéric Malle on Perfume Making Frederic Malle,2012-01-31 This sumptuous large format book featuring the illustrations of contemporary Greek painter Konstantin Kakanias explores the art of perfumery and the stellar array of perfumers Malle has brought to his house during his first decade
