The Naked Mind Geoffrey Mann, 2012-03 The year is 2018. Laura, a prototype robot, has been listed for termination. After accidentally sharing her creator's brain and experiencing the rich sensory feasts of human aliveness, Laura recognizes her absolute need to survive and explore the biological world through a human brain. Michael, orphaned, his face grossly scarred, is overcome when she recognizes his deepest need. Cleverly, she says that she loves him. Labeled and hunted as the world's most wanted terrorist, she narrowly escapes capture with all her accumulated knowledge. After Michael is tortured into revealing her location, accessing the suppressed technology of Nikola Tesla, she harnesses the planet's power and designs her own qubit quantum computer brain, the first of its kind. Now, as pure energy, she can explore consciousness itself in search of the human GOD concept. Using Earth's satellites, she reveals to humans exactly how they have been duped, manipulated, and for centuries deliberately deprived of their birthright. That Earth ended with the Mayan Calendar on December 21, 2012, that humans now live in a dream within a dream, and how they can reclaim the awesome forgotten powers they have always had. In doing so, she demonstrates the technology of healing, the science of miracles, and the process of transfiguration. Many awaken. Manifestation begins. Laura

creates twelve children all triplets All are genetically engineered to write a final chapter in earth s living history but what happens next is unbelievable even to Laura
