The Agricultural Cooperative in the Framework of the European Cooperative Society Georg Miribung,2020-04-09

This book assesses the Statute for a European Cooperative Society SCE regarding agricultural activities by comparing how specific questions arising in this context must be dealt with under the Italian and Austrian legal systems In this regard Council Regulation EC No 1435 2003 of 22 July 2003 on the Statute for a European Cooperative Society SCE is used as a tool for the structured analysis of various aspects of agricultural cooperatives However a comparison is only meaningful if the results are made comparable on the basis of a previously defined standard Accordingly the study uses on one hand a cooperative model developed by European legal scholars that defines general guidelines on how cooperatives should function PECOL On the other the results are presented in connection with economic considerations to discuss how efficient rules can be developed *Information Sources in Law* J.R. Winterton,Elizabeth M. Moys,2012-06-21 The aim of each volume of this series Guides to Information Sources is to reduce the time which needs to be spent on patient searching and to recommend the best starting point and sources most likely to yield the desired information The criteria for selection provide a way into a subject to those new to the field and assists in identifying major new or possibly unexplored sources to those who already have some acquaintance with it The series attempts to achieve evaluation through a careful selection of sources and through the comments provided on those sources *Contract Law in Italy* Pier Giuseppe Monateri,Filippo Andrea Chiaves,Mauro Balestrieri,2021-01-22 Derived from the renowned multi volume International Encyclopaedia of Laws this practical analysis of the law of contracts in Italy covers every aspect of the subject definition and classification of contracts contractual liability relation to the law of property good faith burden of proof defects penalty clauses arbitration clauses remedies in case of non performance damages power of attorney and much more Lawyers who handle transnational contracts will appreciate the explanation of fundamental differences in terminology application and procedure from one legal system to another as well as the international aspects of contract law Throughout the book the treatment emphasizes drafting considerations An introduction in which contracts are defined and contrasted to torts quasi contracts and property is followed by a discussion of the concepts of consideration or cause and other underlying principles of the formation of contract Subsequent chapters cover the doctrines of relative effect termination of contract and remedies for non performance The second part of the book recognizing the need to categorize an agreement as a specific contract in order to determine the rules which apply to it describes the nature of agency sale lease building contracts and other types of contract Facts are presented in such a way that readers who are unfamiliar with specific terms and concepts in varying contexts will fully grasp their meaning and significance Its succinct yet scholarly nature as well as the practical quality of the information it provides make this book a

valuable time saving tool for business and legal professionals alike Lawyers representing parties with interests in Italy will welcome this very useful guide and academics and researchers will appreciate its value in the study of comparative contract law

The Principles of European Contract Law Ole Lando, 2023-09-29 An arbitrator has to decide a case under a contract to be governed by internationally accepted principles of law A business person is negotiating a contract with a company in another EU state but neither party wishes to apply the law of the other party's country A lawyer is advising parties to contracts involving parties in other States An EU official is drafting a new Directive affecting contracts A professor of law wants her students to gain a solid understanding of the way in which contracts are treated by the laws of the different Member States and to understand the common principles All these need to know the fundamental principles of contract law shared by the legal systems of the Member States and to have a concise comprehensive and workable statement of them The Principles of European Contract Law provides this The Principles have been drawn up by an independent body of experts from each Member State of the EU under a project supported by the European Commission and many other organisations The Principles are stated in the form of articles with a detailed commentary explaining the purpose and operation of each article and its relation to the remainder A particularly valuable feature is that each article also has extensive comparative notes surveying the national laws and other international provisions on the topic The Principles of European Contract Law Parts I II covers the core rules of contract formation authority of agents validity interpretation contents performance non performance and remedies The articles previously published in Part I 1995 are included in a revised and re ordered form

Commentario breve al Codice civile Giorgio Cian, Alberto Trabucchi, 1989 **Commentario breve al Codice civile** Giorgio Cian, 1994 **Commentario breve al codice civile** Giorgio Cian, Alberto Trabucchi, 2019 **Constitutional Values and European Contract Law** Stefan Grundmann, 2008-01-01 Two major developments in European Private and European Business Law come together when we speak about Constitutional Values and European Contract Law European Contract Law has become extremely dynamic over the last 10 years both in substance and perspective all core areas are considered now in legal science and in EC legislation and there are even the prospects of some kind of codification On the other hand constitutional values and their impact on private law have been an issue of high concern in major Member States over decades namely Italy and Germany but as well the Netherlands hence the strong presence of scholars and practising lawyers from these countries in this book Constitutional values have however found their way to the EC level and the national discussions have inspired a European one with three core values discussed Fundamental Freedoms fundamental rights and constitutional system building principles such as the social welfare state or the rule of law Their impact on private law can be sensed nowadays quite considerably also on the European level These fundamental values are often seen as the ingredient which renders European Private Law namely European Contract Law more responsive to social values or more humane For all these reasons the book combines comparative law EC Law and interdisciplinary approaches to the question Constitutional

Values and European Contract Law Outstanding scholars from six Member States and beyond quite a few also practising lawyers discuss the issue and do so for the first time on such a broad and all encompassing basis

Foundations of Property Law Christian von Bar, 2023-08-10 Foundations of Property Law Things as Objects of Property Rights is an abridged translation of the first volume of Christian von Bar's *Gemeineuropäisches Sachenrecht* a milestone in European private law theory and in comparative property law more broadly Radical in content and scope the English version examines the dynamics of interaction between the objects contents and holders of property The conceptual framework of property law is presented as a domain of erga omnes monopoly rights that govern the relationship between persons and objects of value Within that framework a reciprocal relationship is illustrated between property rights and their objects property rights play a role in constituting the very objects things in which they are held With comprehensive comparative analysis insights are gleaned from all the jurisdictions of the European Union and the United Kingdom presenting a critical evaluation of property law systems in both Common and Civil Law traditions This book joins all the national legal systems in a single inquiry treating their traditions and arguments with the respect they deserve and taking advantage of the knowledge embodied in the diversity of European private law A scholastic work offering deep and unique insights into the European property law systems Foundations of Property Law will quickly become a go to resource for anyone interested in European private law and comparative property law

Comparative Tort Law Thomas Kadner-Graziano, 2018-03-20 Comparative Tort Law promotes a learning by doing approach to comparative tort law and comparative methodology Each chapter starts with a case scenario followed by questions and expertly selected material such as legislation extracts of case law soft law principles and where appropriate extracts of legal doctrine Using this material students are invited to solve the proposed scenario according to the laws of several jurisdictions compare the approaches and solutions they have identified evaluate their respective pros and cons and reflect upon the most appropriate approach and solution This book is essential reading for all students and scholars of comparative tort law and comparative law methodology and is the ideal companion for those wishing to both familiarise themselves with real world materials and understand the many diverse approaches to modern tort law

Commentario breve al codice civile Bruno Barel, Giorgio Cian, 1988 Gifts Richard Hyland, 2009-06-05 Gifts A Study in Comparative Law is the first broad based study of the law governing the giving and revocation of gifts ever attempted Gift giving is everywhere governed by social and customary norms before it encounters the law and the giving of gifts takes place largely outside of the marketplace As a result of these two characteristics the law of gifts provides an optimal lens through which to examine how different legal systems engage with social practice The law of gifts is well developed both in the civil and the common laws Richard Hyland's study provides an excellent view of the ways in which different civil and common law jurisdictions confront common issues The legal systems discussed include principally in the common law those of Great Britain the United States and India and in the civil law the private law systems of Belgium and France Germany Italy and

Spain Professor Hyland also serves a critique of the dominant method in the field which is a form of functionalism based on what is called the praesumptio similitudinis namely the axiom that once legal doctrine is stripped away developed legal systems tend to reach similar practical results His study demonstrates to the contrary that legal systems actually differ not only in their approach and conceptual structure but just as much in the results
