

Chronological Order

Remember:

Chrono = Time
Logic = Order
 Selections are chronological if they are told in order of time.

Chronological Order:

Purposes: to show how to do something in steps, or to explain a series of events that happen over time.

- o Also known as time order, sequence, or temporal order
- o This structure is organized from one point in time to another
- o Transition words such as first, next, later, after, before, following, then, in addition to, followed by, and finally are included to help the reader understand how events relate to one another
- o Dates and times are also used

Questions to ask as we read:

- What is the topic that is being discussed?
- What transition words does the author use to let you know it is a chronological order selection?
- What are at least four events in order that take place in the selection?

Now try it yourself! Directions: Read the passage. Then, list the important events chronologically in the graphic organizer below.

Last night there was a fireworks display at a park by my house. The community sponsored it, so it was really cool. Around 5:00 PM, people began gathering on the beach. The local radio station was playing music and restaurants were selling food. My friends and I played along the beach while we waited until dark. Around 8:00 they started the show. It was a beautiful show. The explosions were timed to music and it lasted for about half an hour, but we stuck out during the grand finale, so that we wouldn't get stuck in traffic. I love fireworks displays.

First: At 5:00 PM	Second:	Third:	Lastly:
